

# e-File Rate: All Major Tax Returns

Although the IRS has tracked the rate of electronic filing for individual tax returns since its inception in 1987, this long-term measure is somewhat broader and gauges the percentage of all major tax returns filed electronically by individuals, businesses, and tax exempt entities. Major tax returns are those in which filers account for income, expenses, and/or tax liabilities. The target value is for 80 percent of all major tax returns by individuals, businesses, and tax exempt entities be filed electronically by 2012.

*Note: Reported 2012 experience reflects Oversight Board estimate.*
