Evaluation of Treasury Programs

The goal of the PART is to evaluate program deficiencies, determine the causes for strong or weak performance, and take action to remedy deficiencies and achieve better results. OMB conducts the PART evaluations and recommends actions for program improvement. PART accomplishes this by a set of questions designed to assess program performance in four areas:

- **Purpose** – to assess whether the program design and purpose are clear and defendable.
- **Strategic Planning** – to assess whether the agency has set valid annual and long-term goals for the program.
- **Program Management** – to rate agency management of the program, including financial oversight and program improvement efforts.
- **Program Results** – to rate program performance on goals reviewed in the strategic planning sections and through other evaluations.

The tables presented in the following pages are OMB summary documents identifying Treasury programs that were PARTed in FY 2004 and 2005.
