

DESCRIPTION OF PROPERTY

The property is a 5,161 square foot 4 bedroom single family residence situated on 1.6873 acres. It is located in an affluent area and does not appear to have any major structural issues. Previous owners turned the garage into a fabulous sun room and built a detached three car garage with an apartment over top, which includes a full kitchen and bathroom. There is a 24' x 30' pool. Other amenities include: oversize bedroom with a spacious sitting area and separate his and hers bathrooms; a spare room next to the master was turned into a walk in closet, the closet doors are dark cherry wood and a huge dressing table is in the middle of the closet with marble top (master is located on the main level); finished basement with office and large living area with fireplace (area can be used as a theater/TV room); remodeled kitchen with a Aga stove; separate living room and dining room; and library.
