### Average Consumer Outstanding Balance Key

Includes loans for personal, family, and household uses including residential mortgages, home equity loans and lines of credit, auto, boat, lot, and other consumer loans.

### Average Consumer Outstanding Balance Comment

The rate of consumer borrowing has slowed even more in the latter part of the year, with virtually no activity in home equity loans and spotty non-real estate consumer borrowing. 1-4 family mortgages have declined chiefly because of rate-shopping/refinancing in a season of low rates, with the bank still selling what volume has been coming in, though this is likely to change in the first part of 2011.

### Average Commercial Outstanding Balance Key

Includes loans for commercial and industrial purposes to sole proprietorships, partnerships, and corporations, and other business enterprises, whether secured or unsecured, single-payment or installment. Also includes construction and land loans for commercial and residential development by builders and developers.

### Average Commercial Outstanding Balance Comment

Commercial demand stayed pretty constant through the summer, but has been experiencing its seasonal decline, and construction originations are less than half what they were in 2009. The Juneau economy, while less recession-prone than the rest of Alaska, still has growth challenges, but the Kensington mine is producing at a rate of 100,000 ounces of gold per year, and the Ketchikan shipyard expansion is ongoing.

General Market Commentary

The opening of the Kensington gold mine has happened, and in general, Alaska's economy is in better condition than the national economy, with an overall unemployment rate of 7.7% (July 2010), and the Southeast Alaska economy, though a little stressed in tourism, has an unemployment rate of less than 7.0% (5.2% in the Juneau borough, where the bank does most of its business). Alaska is one of only three states in the US that had more jobs in 2010 (through June) than they did in 2008, when the US recession began, though the statewide unemployment rate has ticked up a little in late Fall/early winter. Most of the state's long-term economic forecast revolves around oil production and oil prices.

- A. - Loans in this classification include home equity, installment, and residential mortgage loans. Since receiving the CPP funds, \$6.0 billion of secondary market loans were closed.
- B. - The makeup of commercial loans presented are approximately as follows: commercial, financial, and agricultural 42%, commercial real estate 49%, and real estate construction 9%. Real estate related loans are not attractive in this market and C&I loan demand is weak in this economic environment. Associated has made new commercial loans totaling \$10.1 billion since receiving the CPP funds. Associated Bank was named the No. 1 SBA lender in Wisconsin for the sixth consecutive year in fiscal 2010.

The bank has stopped making indirect auto loans due to very low rates offered by the major lenders in the Chicagoland area. Business and commercial loans are the main focus of the bank. We are searching for good quality loans but have found few good opportunities. It is our understanding that most other banks in Chicago are facing a similar problem in sourcing good loans.

Slowing in Residential sales continue in the Colorado Springs/ Pueblo area as well as the Northern Mountain Front Denver metro area continues to see good sales and prices on housing holding steady. Commercial Real Estate is slow to move through out the Colorado regions. The plains communities and the area farmers and ranchers continue to experience good crop and cattle prices. Crop conditions for 2011 are dry throughout the Eastern Plains and Western Kansas. Sales tax receipts in Eastern Colorado above 2009 however it appears people are holding off purchasing large ticket items. Businesses are not hiring or expanding until political position on taxes and government spending is established.

Average consumer loans decreased \$8.6 million during December 2010 (as compared to November 2010). The decrease was primarily attributable to decreases in average home equity loans, average 1-4 family residential mortgage loans, and average consumer and other loans of \$4.5 million, \$4.3 million and \$1.6 million, respectively, due primarily to loan payments, charge-offs and foreclosures on nonperforming credit

relationships, partially offset by an increase in average loans held for sale of \$1.8 million. First Bank originated and closed \$49.0 million of 1-4 family residential mortgage loans and sold \$49.6 million of 1-4 family residential mortgage loans into the secondary market during the month of December 2010. During the year ended December 31, 2010, First Bank originated and closed \$398.9 million of 1-4 family residential mortgage loans and sold \$376.2 million of 1-4 family residential mortgage loans into the secondary market. The average balance of commercial loans decreased \$173.3 million during December 2010 (as compared to November 2010). The primary reasons for the decrease in the overall average balance of commercial loans were declines in the average balance of First Bank's Real Estate Construction and Land Development, C&I, and CRE loan portfolios of \$92.4 million, \$45.8 million and \$31.6 million, respectively, primarily resulting from sales of nonperforming and other classified credit relationships, loan payments, charge-offs and foreclosures on nonperforming credit relationships.

### Average Consumer Outstanding Balance Comment

Consumer loan volume was steady(due to auto financing) when compared to November. Home equity financing cooled in December. The residential mortgage and mortgage warehouse average balances decreased by \$38.7 million from last month. Mortgage interest rates abruptly jumped in December slowing refinance activity. We expect origination volume to continue to decline if interest rates stay at current levels, purchase activity is light and refinance activity has stalled.

Unemployment rates remain above the national average. Small businesses still seem reluctant to expand. Agriculture is the strongest sector of our local economy due to low interest rates and high commodity prices.

The purchase housing market continues to be weak with declining appraised values contributing to the slow down. However, refinance activity is strong with mortgage interest rates at all time lows.

## General Market Commentary

NewBridge Bank (the "Bank") extends credit to facilitate economic activity in support of communities, businesses and consumers in our footprint. In December 2010 the Bank originated \$49.1 million of loans, which was the largest amount in any month of the year, and originated \$378.5 million for the full year.

As of December 31, 2010, the Bank held outstanding loans of \$1.34 billion, which is a decrease of \$125.5 million, or 8.6%, from December 31, 2009. The decrease in outstanding loans from December 2009 is primarily the result of loan payoffs and pay downs of existing loans in the normal course of business.

The Bank continues to make credit available to consumers and businesses in its market areas. During the

month of December 2010, the Bank originated \$18.7 million in commercial and small business purpose loans, \$3.1 million in home equity lines of credit, and \$0.6 million in consumer installment credit.

During the month of December 2010, the Bank originated \$26.8 million in residential loans to be sold in the secondary market or retained. All residential builders who are customers of the Bank have been contacted and provided information regarding specialized financing (rate of 4% fixed for 5 years; up to 95% financing; ¼% fee, no private mortgage insurance required) for consumers who are purchasing new construction homes which the builder has financed with the Bank. Thirty-five loans totaling \$8.1 million have been closed under this program.

The Bank has been able to achieve these results although its state and local economies continue to exhibit substantial stress. As of November 30, 2010, preliminary unemployment rates in several of the Bank's significant operating markets exceed the national unemployment rate of 9.8%. This includes Davidson County with 11.5%, Pender County with 10.7%, Guilford County with 10.4% and Rockingham County with 11.6%.

As a bankers' bank, we are focused on providing services to the community banking industry, which in turn provides loans to millions of consumers and small businesses throughout the country. PCBB provides our customer banks with products and services that allow these banks to offer competitive products and services to their end customers that they would otherwise not be able to offer. PCBB provides community banks the ability to make larger loans through its loan participation program, enhance liquidity management through our overnight cash investment and increase borrowing by providing facilities for community banks. PCBB also

provides other products and services to support community banking activities. As a result of our focus on the community banking industry, the TARP capital investment in PCBB has a multiplicative impact in that it facilitates lending activities through hundreds of community banks, indirectly or directly to the community bank's customers, as well. In addition, PCBB extended credit in the form of overnight lending facilities to Community Banks totaling \$137 million during the month.

Commercial loan demand continues to be soft in the Bank's market. The Bank currently has approximately \$45 million in cash that it would like to use for new loan originations as quickly as demand will allow in the Bank's market. Our strategic plan is to fully leverage the additional capital from TARP through originations of new commercial and consumer loans in the Bank's market.

General Market Commentary

Unemployment continues to be at historically high levels in all markets. Residential real estate values have declined and are now below levels generally indicated by natural long-term growth rates (1994-2009). Residential sales activity continues to be driven by sales of foreclosed properties within all markets. New commercial loan requests have been minimal. Commercial real estate continues to be under stress in all markets. There is concern that CRE fundamentals - occupancy, rental rates, cap rates - may continue to be stressed through 2011.

During the month of December 2010 we provided 24 new consumer loans totaling \$4,957,003 in commitments and we renewed 11 consumer loans totaling \$1,408,000 in commitments. In addition, we funded 107 mortgage loans totaling \$19,050,022 that will be sold in the secondary market. We also provided 43 new commercial loans totaling \$28,557,041 in commitments and renewed 66 commercial loans totaling \$81,135,085 in commitments during December. Our total outstanding balances did decline during December in large part to the payoff of several large loans, one of our warehouse lines of credit has seen the average outstanding balances decline from the \$5MM range in November to the \$1MM range in December. We also

had a significant amount of charge-offs during the month that reduced total outstandings.

## General Market Commentary

Syringa bank has managed sustained balances in consumer loan totals, which requires generating a fair amount of business just to offset principal pay-down, maturity, and refinance activity. Much of the commercial loan decrease has come in the construction and development portfolio, which has experienced very little demand to replace maturing and non-performing loan reductions.

### Average Consumer Outstanding Balance Comment

The Company primarily focuses its resources on all aspects of serving the banking needs of closely held, small and mid size companies in its defined market. Given the Bank's relatively small number of branches (9), we are not competitive in the mass retail banking market. The Bank began the operation of a residential mortgage origination unit during the first quarter of 2010, which should increase the volume of consumer loan originated. During December 2010, this unit originated \$171.0 million of mortgage loans, and year-to-date originations totaled \$817.4 million. These loans will not be held in the Bank's portfolio but rather sold after origination. The December average balance for these loans held on balance sheet awaiting sale was \$243.3 million.

### Average Commercial Outstanding Balance Comment

The Company continues to originate new commercial loans and develop new customer relationships. On a year-to-date basis, total commercial loan production totaled \$644.3 million, with \$390.9 million representing actual loan fundings and the remaining \$253.4 million representing unfunded or unused loan commitments.

General Market Commentary

Overall, both of our primary markets continue to remain soft. Unemployment levels in California remain high. There has been some increase in home sales, but it continues to be slow. We anticipate some improvement in the California marketplace in the mid to lower priced homes as we move into the winter months and seasonal residents arrive. Mortgage demand has dropped significantly particularly in the refinance area due to the rise in rates and seasonality. The economy in Utah is better than California. Utah has had some modest job growth.
