Average Consumer Outstanding Balance (Thousands \$) 45,813

Average Consumer Outstanding Balance Key

Includes loans for personal, family, and household uses including residential mortgages, home equity loans and lines of credit, auto, boat, lot, and other consumer loans.

Average Consumer Outstanding Balance Comment

Home equity lending and mortgages are off considerably for the first two months of the year, but boat lending and lot lending have been picking up of late. There has been a decline in homes on the market, but otherwise the consumer economy in Southeast Alaska is stable.

Average Commercial Outstanding Balance (Thousands\$) 96,998

Average Commercial Outstanding Balance Key

Includes loans for commercial and industrial purposes to sole proprietorships, partnerships, and corporations, and other business enterprises, whether secured or unsecured, single-payment or installment. Also includes construction and land loans for commercial and residential development by builders and developers.

Average Commercial Outstanding Balance Comment

Alaska Pacific Bank has recently stepped up its commercial loan marketing effort and seeing some results in refinancing commercial estate. The construction market, for both residential and commercial, is very depressed, and very few new projects are being undertaken.

General Market Commentary

The opening of the Kensington gold mine occurred in mid-2010, and in general, Alaska's economy is in better condition than the national economy, with an overall unemployment rate of just over 7% (February 2010), and the Southeast Alaska economy, though a little stressed in tourism, has an unemployment rate of less than 7.0% (5.2% in the Juneau borough, where the bank does most of its business). There are very few mortgage foreclosures in Southeast Alaska. Alaska is one of only three states in the US that had more jobs in 2010 (through June) than they did in 2008, when the US recession began, though the statewide unemployment rate ticked up a little in over the winter. Most of the state's long-term economic forecast revolves around oil production and oil prices, and there is some concern that the Alaska pipeline will not be able to operate economically unless it increases its throughput.

A. - Loans in this classification include home equity, installment, and residential mortgage loans. Since receiving the CPP funds, \$6.3 billion of secondary market loans were closed.

B. - The makeup of commercial loans presented are approximately as follows: commercial, financial, and agricultural 43%, commercial real estate 49%, and real estate construction 8%. Real estate related loans are not attractive in this market and C&I loan demand is weak in this economic environment. Associated has made new commercial loans totaling \$10.7 billion since receiving the CPP funds. Associated Bank was named the No. 1 SBA lender in Wisconsin for the sixth consecutive year in fiscal 2010.

Average Consumer Outstanding Balance Comment

Our level of Consumer loans was down by \$32 million as we saw another significant drop in volume in our residential mortgage division. This partially due to the increase in interest rates, and partially due to seasonality.

Average Commercial Outstanding Balance Comment

Commercial loan volume showed an increase of \$27.3 million for the month. Of this increase 50 % was C&I loans and the other 50% was in Commercial Real Estate loans. The increase in CRE loans is mostly in loans for Income Producing Properties, not for Construction loans. The pipeline for new loans remains strong in the Washington metropolitan area. We expect continued loan growth for the remainder of the 1st Quarter.

Average consumer loans decreased \$33.8 million during February 2011 (as compared to January 2011). The decrease was primarily attributable to decreases in average loans held for sale, average 1-4 family residential mortgage loans and average home equity loans of \$18.0 million, \$10.9 million and \$4.8 million, respectively, due primarily to loan payments, charge-offs and foreclosures on nonperforming credit

relationships. The average balance of commercial loans decreased \$70.2 million during February 2011 (as compared to January 2011). The primary reasons for the decrease in the overall average balance of commercial loans were declines in the average balance of First Bank's CRE, C&I, and Real Estate Construction and Land Development loan portfolios of \$33.0 million, \$30.8 million and \$5.7 million, respectively, primarily resulting from loan payments, charge-offs and foreclosures on nonperforming credit relationships.

1-4 family residential mortgages which includes held for sale, mortgage warehouse, home equity lines of credit, and other consumer loans (auto, gross overdrafts, personal)

Average Consumer Outstanding Balance Comment

Consumer loan volume remains at a steady pace and is largely driven by auto financing. However, volume is not enough to grow our portfolio. Home equity financing is slow. The residential mortgage and mortgage warehouse average balances decreased by \$48.7 million from last month. Mortgage interest rates abruptly jumped in December and virtually stopped refinance activity. Extreme winter weather across the mid-west coupled with the seasonality of home purchases during the first quarter of the year has contributed to the fall off in loan balances. We expect origination volume to continue at this slow pace through the remainder of the quarter.

Retail, wholesale and industrial businesses, construction and land development, owner occupied commercial real estate and non-owner occupied commercial real estate

Average Commercial Outstanding Balance Comment

Commercial and industrial loan demand continued to improve in February.. New loan volume is being driven by our new Kalamazoo, Michigan LPO. Commercial Real Estate loan demand is still weak.

General Market Commentary

Unemployment rates remain above the national average. Small businesses still seem reluctant to expand. New loan activity is mostly for lines of credit to finance inventory and accounts receivable. Agriculture is the strongest sector of our local economy due to low interest rates and high commodity prices. The purchase housing market continues to be weak with declining appraised values contributing to the slow down, in addition, refinance activity has abruptly slowed due to an increase in long term mortgage rates.

The demand for CRE loans in support of new projects remains very light. There is a ready market (demand) to refinance CRE projects, however, these projects do not have desirable credit characteristics. Demand for working capital financing has increased modestly. Demand for equipment debt remains weak (but continues to improve) as capacity exists in the vast majority of industries served in this market.

NewBridge Bank (the "Bank") extends credit to facilitate economic activity in support of communities, businesses and consumers in our footprint. In February 2011 the Bank originated \$44.3 million of loans, and has now originated \$61.6 million in loans year to date.

As of February 28, 2011, the Bank held outstanding loans of \$1.34 billion, which is an increase of \$7.0 million, or 0.5%, from December 31, 2010. The increase in outstanding loans from December 2010 is primarily the result of increased loan originations in February.

The Bank continues to make credit available to consumers and businesses in its market areas. During the

month of February 2011, the Bank originated \$28.9 million in commercial and small business purpose loans, \$1.4 million in home equity lines of credit, and \$0.5 million in consumer installment credit.

During the month of February 2011, the Bank originated \$13.5 million in residential loans to be sold in the secondary market or retained. All residential builders who are customers of the Bank have been contacted and provided information regarding specialized financing (rate of 4% fixed for 5 years; up to 95% financing; ¼% fee, no private mortgage insurance required) for consumers who are purchasing new construction homes which the builder has financed with the Bank. Thirty-seven loans totaling \$8.4 million have been closed under this program.

The Bank has been able to achieve these results although its state and local economies continue to exhibit stress. As of January 31, 2011, preliminary unemployment rates in several of the Bank's significant operating markets exceed the national unemployment rate of 9.0%. This includes Davidson County with 11.7%, New Hanover County with 9.7%, Guilford County with 10.3% and Rockingham County with 13.2%.

Park National Corporation experienced an increase in the average balance of loans of \$4.1 million for the month of February, compared to the month of January. The average balance of consumer loans increased by \$5.3 million, and the average balance of commercial loans decreased by \$1.2 million. The demand for consumer real estate loans continued to be fairly strong in the month of February. We have seen a recent pick-up in the demand for commercial loans. We are hopeful that we will see an increase in these balances over the next couple of months.

Commercial loan demand continues to be soft in the Bank's market. The Bank currently has approximately \$45 million in cash that it would like to use for new loan originations as quickly as demand will allow in the Bank's market. Our strategic plan is to fully leverage the additional capital from TARP through originations of new commercial and consumer loans in the Bank's market.

General Market Commentary

During February 2011 we granted 10 new consumer loans with total commitments of \$5,342,450. We also renewed 9 consumer loans with total commitments of \$1,068,000. In addition we granted 42 secondary mortgage loans with total commitments of \$7,709,100. During February we granted 21 new commercial loans with total commitments of \$3,409,402. In addition, we renewed 54 commercial loans with total commitments of \$88,572,566. Our total outstanding continue to decline as we are attempting to reduce our concentration of construction loans and non-owner occupied real estate as required by the regulators. In addition, we have a number of large mortgage warehouse lines of credits that currently have minimal balances, just 6 months ago these had outstanding balances in excess of \$40,000,000. This has resulted in an overall reduction of our loans outstanding. However, we continue to seek new opportunities to lend within

our communities.
