Date Funded (first funding):	N/A	City:	Wilmington
Date Repaid <sup>1</sup> :	N/A	State:	Delaware

<sup>1</sup>If repayment was incremental, please enter the most recent repayment date.

American taxpayers are quite interested in knowing how banks have used the money that Treasury has invested under the Capital Purchase Program (CPP) and Community Development Capital Initiative (CDCI). To answer that question, Treasury is seeking responses that describe generally how the CPP/CDCI investment has affected the operation of your business. We understand that once received, the cash associated with TARP funding is indistinguishable from other cash sources, unless the funds were segregated, and therefore it may not be feasible to identify precisely how the CPP/CDCI investment was deployed or how many CPP/CDCI dollars were allocated to each use. Nevertheless, we ask you to provide as much information as you can about how you have used the capital Treasury has provided, and how your uses of that capital have changed over time. Treasury will be pairing this survey with a summary of certain balance sheet and other financial data from your institution's regulatory filings, so to the extent you find it helpful to do so, please feel free to refer to your institution's quarterly call reports to illustrate your answers. This is your opportunity to speak to the taxpayers in your own words, which will be posted on our website.

What specific ways did your institution utilize CPP/CDCI capital? Check all that apply and elaborate as appropriate, especially if the uses have shifted over time. Your responses should reflect actions taken over the past year (or for the portion of the year in which CPP/CDCI funds were outstanding).

<input checked="" type="checkbox"/>	Increase lending or reduce lending less than otherwise would have occurred.	The bank has extremely high turnover in its loan portfolio. Prior to the capital infusion and as a result of the country wide panic the bank had intended to reduce lending further to preserve capital in the event of economic decline. Additional capital resulted in modest loan growth.
<input checked="" type="checkbox"/>	To the extent the funds supported increased lending, please describe the major type of loans, if possible (residential mortgage loans, commercial mortgage loans, small business loans, etc.).	The types of loans included all of the types which the bank normally makes including commercial real estate, residential mortgage and mortgage loans.
<input checked="" type="checkbox"/>	Increase securities purchased (ABS, MBS, etc.).	The bank purchased additional securities including MBS and municipal bonds for essential services including water and sewer and economic development.

<input type="checkbox"/>	Make other investments	
<input type="checkbox"/>	Increase reserves for non-performing assets	
<input type="checkbox"/>	Reduce borrowings	
<input type="checkbox"/>	Increase charge-offs	
<input type="checkbox"/>	Purchase another financial institution or purchase assets from another financial institution	
<input checked="" type="checkbox"/>	Held as non-leveraged increase to total capital	A portion of the capital was retained to increase the capital ratios.

What actions were you able to avoid because of the capital infusion of CPP/CDCI funds?

The bank with a greater capital base was able to operate in a normal mode and actually experience modest loan growth. With less capital it would have taken less risk in restricted lending further.

What actions were you able to take that you may not have taken without the capital infusion of CPP/CDCI funds?

A large, empty rectangular box with a thin black border, intended for the respondent to provide their answer to the question above.

Please describe any other actions that you were able to undertake with the capital infusion of CPP/CDCI funds.

A large, empty rectangular box with a thin black border, intended for the respondent to provide their answer to the question above.

According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 1505-0222. The time required to complete this information collection is estimated to average 80 hours per response.
