Date Funded (first funding):	January 9, 2009	City:	Tappahannock
Date Repaid <sup>1</sup> :	Auctioned 10/21/13 by UST	State:	Virginia

<sup>1</sup>If repayment was incremental, please enter the most recent repayment date.

American taxpayers are quite interested in knowing how banks have used the money that Treasury has invested under the Capital Purchase Program (CPP) and Community Development Capital Initiative (CDCI). To answer that question, Treasury is seeking responses that describe generally how the CPP/CDCI investment has affected the operation of your business. We understand that once received, the cash associated with TARP funding is indistinguishable from other cash sources, unless the funds were segregated, and therefore it may not be feasible to identify precisely how the CPP/CDCI investment was deployed or how many CPP/CDCI dollars were allocated to each use. Nevertheless, we ask you to provide as much information as you can about how you have used the capital Treasury has provided, and how your uses of that capital have changed over time. Treasury will be pairing this survey with a summary of certain balance sheet and other financial data from your institution's regulatory filings, so to the extent you find it helpful to do so, please feel free to refer to your institution's quarterly call reports to illustrate your answers. This is your opportunity to speak to the taxpayers in your own words, which will be posted on our website.

What specific ways did your institution utilize CPP/CDCI capital? Check all that apply and elaborate as appropriate, especially if the uses have shifted over time. Your responses should reflect actions taken over the past year (or for the portion of the year in which CPP/CDCI funds were outstanding).

<input checked="" type="checkbox"/>	Increase lending or reduce lending less than otherwise would have occurred.	Loan demand in 2013 remained sluggish. We were able to increase lending in a few areas of our market, however our total loan portfolio decreased \$22 million from 2012 due to natural amortization of loans, charge offs and early payoffs.
<input checked="" type="checkbox"/>	To the extent the funds supported increased lending, please describe the major type of loans, if possible (residential mortgage loans, commercial mortgage loans, small business loans, etc.).	Increases in lending occurred in Agricultural Loans of \$669 thousand, or 3.6%, Commercial Lending of \$476 thousand, or 1.1%, and in HELOC's of \$1.4 million, or 1.5%.
<input type="checkbox"/>	Increase securities purchased (ABS, MBS, etc.).	

<input type="checkbox"/>	Make other investments	
<input type="checkbox"/>	Increase reserves for non-performing assets	
<input checked="" type="checkbox"/>	Reduce borrowings	With loan demand low and excess cash balances resulting from loan and investment cash flows we extinguished our long term FHLB advances and reduced year over year borrowings by \$75 million.
<input type="checkbox"/>	Increase charge-offs	
<input type="checkbox"/>	Purchase another financial institution or purchase assets from another financial institution	
<input type="checkbox"/>	Held as non-leveraged increase to total capital	

What actions were you able to avoid because of the capital infusion of CPP/CDCI funds?

The participation in CPP allowed EVB to preserve capital and maintain our "well capitalized" status while working through asset quality issues over the last 5 years.

What actions were you able to take that you may not have taken without the capital infusion of CPP/CDCI funds?

A large, empty rectangular box with a thin black border, intended for the respondent to provide their answer to the question above.

Please describe any other actions that you were able to undertake with the capital infusion of CPP/CDCI funds.

A large, empty rectangular box with a thin black border, intended for the respondent to provide their answer to the question above.

According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 1505-0222. The time required to complete this information collection is estimated to average 80 hours per response.
