American taxpayers are quite interested in knowing how banks have used the money that Treasury has invested under the Capital Purchase Program (CPP) and Community Development Capital Initiative (CDCI). To answer that question, Treasury is seeking responses that describe generally how the CPP/CDCI investment has affected the operation of your business. We understand that once received, the cash associated with TARP funding is indistinguishable from other cash sources, unless the funds were segregated, and therefore it may not be feasible to identify precisely how the CPP/CDCI investment was deployed or how many CPP/CDCI dollars were allocated to each use. Nevertheless, we ask you to provide as much information as you can about how you have used the capital Treasury has provided, and how your uses of that capital have changed over time. Treasury will be pairing this survey with a summary of certain balance sheet and other financial data from your institution's regulatory filings, so to the extent you find it helpful to do so, please feel free to refer to your institution's quarterly call reports to illustrate your answers. This is your opportunity to speak to the taxpayers in your own words, which will be posted on our website.

What specific ways did your institution utilize CPP/CDCI capital? Check all that apply and elaborate as appropriate, especially if the uses have shifted over time. Your responses should reflect actions taken over the past year (or for the portion of the year in which CPP/CDCI funds were outstanding).

<input checked="" type="checkbox"/>	Increase lending or reduce lending less than otherwise would have occurred.	In 2013, the Bank's overall loan portfolio increased 11.73%. What actions were you able to avoid because of the capital infusion of CPP/CDCI funds?

The Bank did not have to restrict loan growth and instead was able to continue with new lending while maintaining adequate regulatory capital levels.

What actions were you able to take that you may not have taken without the capital infusion of CPP/CDCI funds?

In 2013, the Bank has been able to achieve asset growth of 4.66% while maintaining appropriate regulatory capital. The Bank has continued to be able to identify prudent lending opportunities and maintain its loan portfolio. As noted earlier, the Bank achieved loan growth in construction & land development, revolving open-end 1-4 family residential loans and commercial & industrial loans during 2013. The overall loan portfolio increased 11.73%. The Bank continues to maintain its well capitalized status.

Please describe any other actions that you were able to undertake with the capital infusion of CPP/CDCI funds.
