American taxpayers are quite interested in knowing how banks have used the money that Treasury has invested under the Capital Purchase Program (CPP) and Community Development Capital Initiative (CDCI). To answer that question, Treasury is seeking responses that describe generally how the CPP/CDCI investment has affected the operation of your business. We understand that once received, the cash associated with TARP funding is indistinguishable from other cash sources, unless the funds were segregated, and therefore it may not be feasible to identify precisely how the CPP/CDCI investment was deployed or how many CPP/CDCI dollars were allocated to each use. Nevertheless, we ask you to provide as much information as you can about how you have used the capital Treasury has provided, and how your uses of that capital have changed over time. Treasury will be pairing this survey with a summary of certain balance sheet and other financial data from your institution's regulatory filings, so to the extent you find it helpful to do so, please feel free to refer to your institution's quarterly call reports to illustrate your answers. This is your opportunity to speak to the taxpayers in your own words, which will be posted on our website.

What specific ways did your institution utilize CPP/CDCI capital? Check all that apply and elaborate as appropriate, especially if the uses have shifted over time. Your responses should reflect actions taken over the past year (or for the portion of the year in which CPP/CDCI funds were outstanding).

<input checked="" type="checkbox"/>	Increase lending or reduce lending less than otherwise would have occurred.	Loans grew 13.9% in 2015 and 2.9% in 2016 primarily in consumer loans. Military and tourism spending continue to fuel increased economic activity.
<input checked="" type="checkbox"/>	To the extent the funds supported increased lending, please describe the major type of loans, if possible (residential mortgage loans, commercial mortgage loans, small business loans, etc.).	During 2016, we funded over \$38.9 million in loans, 45% in real estate & construction loans; 16% in business loans & credit lines; 39% in consumer & credit card loans. Real estate and business loan sales totaled \$12.1 million in 2016. We service over \$96 million in real estate and business loans.
<input checked="" type="checkbox"/>	Increase securities purchased (ABS, MBS, etc.).	Deposits grew by 9% or \$8.3 million due to new membership & deposit gatherings. Securities decreased due to various bond calls and idle funds were used to fund loans.

<input type="checkbox"/> Make other investments	
<input type="checkbox"/> Increase reserves for non-performing assets	
<input checked="" type="checkbox"/> Reduce borrowings	Borrowings have decreased by 47% or \$3.5 million. Scheduled maturities of remaining borrowed funds are as follows: \$1.3 million due in 2017; \$530 thousand due in 2019; \$530 thousand due in 2020; \$530 thousand due in 2021; \$530 thousand due in 2022; and \$530 thousand due in 2019.
<input type="checkbox"/> Increase charge-offs	
<input type="checkbox"/> Purchase another financial institution or purchase assets from another financial institution	
<input type="checkbox"/> Held as non-leveraged increase to total capital	

What actions were you able to avoid because of the capital infusion of CPP/CDCI funds?

Without the secondary capital, Community First would be forced to reduce assets and curtail loan growth.

What actions were you able to take that you may not have taken without the capital infusion of CPP/CDCI funds?

A large, empty rectangular box with a thin black border, intended for the respondent to provide their answer to the question above.

Please describe any other actions that you were able to undertake with the capital infusion of CPP/CDCI funds.
