Holding Company Docket Number: (For Thrift Holding Companies)	
FDIC Certificate Number: (For Depository Institutions)	1056
City:	Glasgow
State:	Missouri

¹If repayment was incremental, please enter the most recent repayment date.

American taxpayers are quite interested in knowing how banks have used the money that Treasury has invested under the Capital Purchase Program (CPP). To answer that question, Treasury is seeking responses that describe generally how the CPP investment has affected the operation of your business. We understand that once received, the cash associated with TARP funding is indistinguishable from other cash sources, unless the funds were segregated, and therefore it may not be feasible to identify precisely how the CPP investment was deployed or how many CPP dollars were allocated to each use. Nevertheless, we ask you to provide as much information as you can about how you have used the capital Treasury has provided, and how your uses of that capital have changed over time. Treasury will be pairing this survey with a summary of certain balance sheet and other financial data from your institution's regulatory filings, so to the extent you find it helpful to do so, please feel free to refer to your institution's quarterly call reports to illustrate your answers. This is your opportunity to speak to the taxpayers in your own words, which will be posted on our website.

What specific ways did your institution utilize CPP capital? Check all that apply and elaborate as appropriate, especially if the uses have shifted over time. Your responses should reflect actions taken over the past year (or for the portion of the year in which CPP funds were outstanding).

<input checked="" type="checkbox"/> Increase lending or reduce lending less than otherwise would have occurred.	The \$825,000 in funds were initially used as capital to expand the lending within the bank
---	---

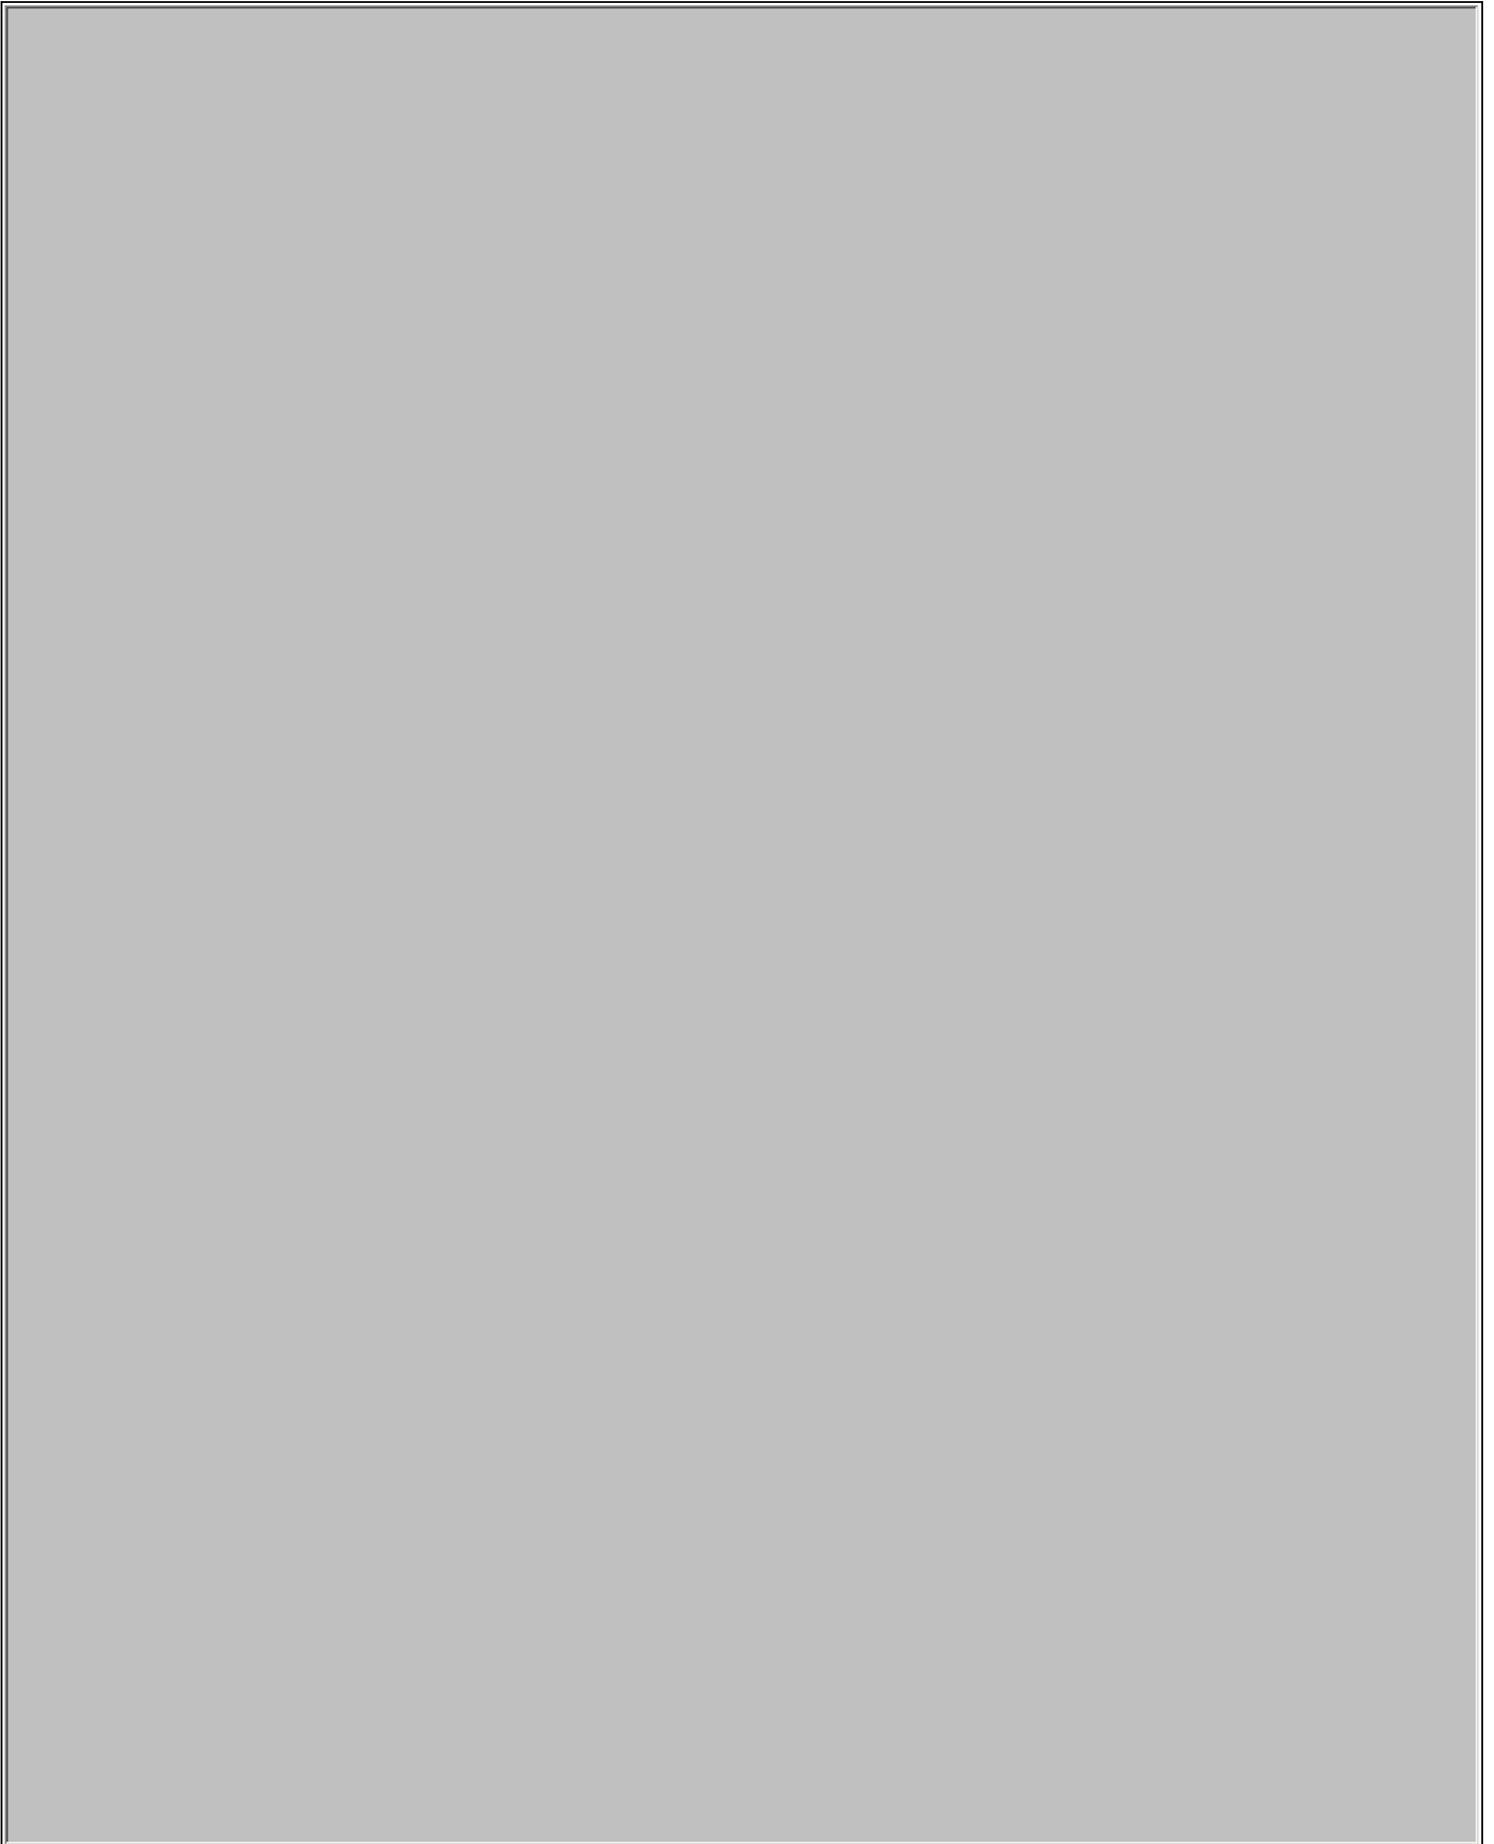

<input checked="" type="checkbox"/> To the extent the funds supported increased lending, please describe the major type of loans, if possible (residential mortgage loans, commercial mortgage loans, small business loans, etc.).	These loans were participations purchased from an affiliate bank primarily in the commercial real estate and small businesses areas.
<input type="checkbox"/> Increase securities purchased (ABS, MBS, etc.).	
<input type="checkbox"/> Make other investments	
<input checked="" type="checkbox"/> Increase reserves for non-performing assets	Participations purchased from affiliate have caused increased reserves required for non-performing participations.

<input type="checkbox"/>	Reduce borrowings	
<input checked="" type="checkbox"/>	Increase charge-offs	Due to the increased non-performing participations purchased, there have been additional charge-offs.
<input checked="" type="checkbox"/>	Purchase another financial institution or purchase assets from another financial institution	Participations purchased from Southwest Community Bank
<input checked="" type="checkbox"/>	Held as non-leveraged increase to total capital	The affiliate bank failed on May 14, 2010 and prior to that a number of participations were sold under a branch sale however Glasgow participated in several loans which had to be charged down. The capital ratio, because of the \$825,000 CPP, has remained above minimum levels.

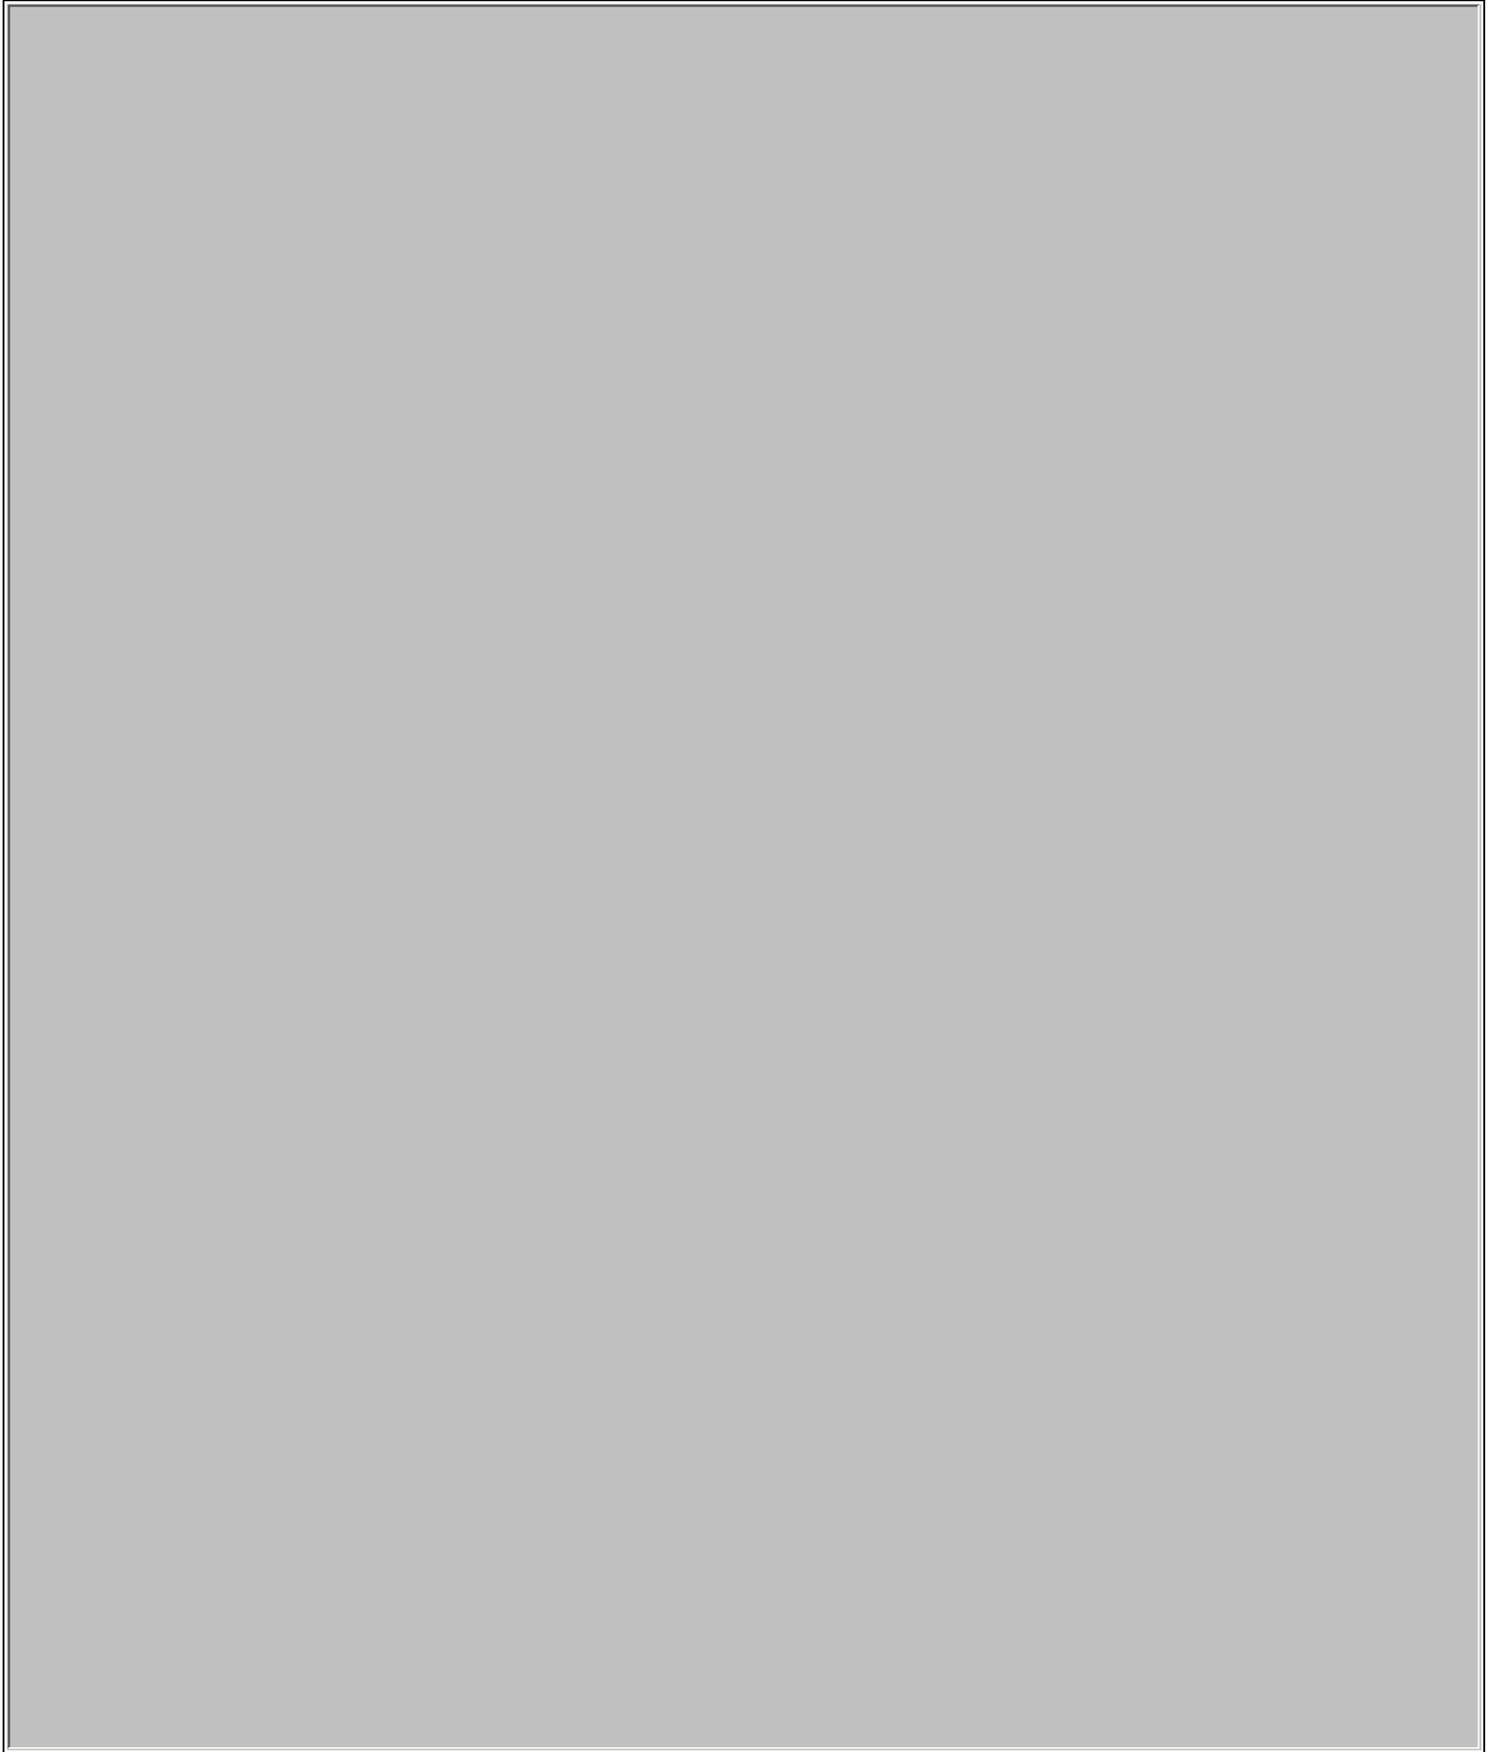

What actions were you able to avoid because of the capital infusion of CPP funds?

The capital ratio did not decrease to such a level due to charge-offs and provision expense because of the \$825,000 injected into the bank.

What actions were you able to take that you may not have taken without the capital infusion of CPP funds?

A large, empty rectangular box with a thin black border, intended for a response to the question above. The box is currently blank and occupies most of the page below the question.

Please describe any other actions that you were able to undertake with the capital infusion of CPP funds.

According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 1505-0222. The time required to complete this information collection is estimated to average 80 hours per response.
