Date Funded (first funding):	N/A	State:	Georgia
Date Repaid <sup>1</sup> :	N/A		

<sup>1</sup>If repayment was incremental, please enter the most recent repayment date.

*American taxpayers are quite interested in knowing how banks have used the money that Treasury has invested under the Capital Purchase Program (CPP). To answer that question, Treasury is seeking responses that describe generally how the CPP investment has affected the operation of your business. We understand that once received, the cash associated with TARP funding is indistinguishable from other cash sources, unless the funds were segregated, and therefore it may not be feasible to identify precisely how the CPP investment was deployed or how many CPP dollars were allocated to each use. Nevertheless, we ask you to provide as much information as you can about how you have used the capital Treasury has provided, and how your uses of that capital have changed over time. Treasury will be pairing this survey with a summary of certain balance sheet and other financial data from your institution's regulatory filings, so to the extent you find it helpful to do so, please feel free to refer to your institution's quarterly call reports to illustrate your answers. This is your opportunity to speak to the taxpayers in your own words, which will be posted on our website.*

What specific ways did your institution utilize CPP capital? Check all that apply and elaborate as appropriate, especially if the uses have shifted over time. Your responses should reflect actions taken over the past year (or for the portion of the year in which CPP funds were outstanding).

<input checked="" type="checkbox"/>	Increase lending or reduce lending less than otherwise would have occurred.	Our total loans outstanding have increased by \$35,785,535, an increase of 14.1% during the time we have had the CPP investment which we first received on January 30, 2009.
<input checked="" type="checkbox"/>	To the extent the funds supported increased lending, please describe the major type of loans, if possible (residential mortgage loans, commercial mortgage loans, small business loans, etc.).	The major increases have been in Commercial Real Estate and Small Business lending secured by real estate with increases of 12.0% and 42.6% respectively.
<input checked="" type="checkbox"/>	Increase securities purchased (ABS, MBS, etc.).	We have purchased an additional \$7,082,949 in Mortgage Backed Securities.

<input type="checkbox"/>	Make other investments	
<input checked="" type="checkbox"/>	Increase reserves for non-performing assets	We have been able to increase our reserve for loan losses by 65.9%, an increase of \$3,074,435
<input type="checkbox"/>	Reduce borrowings	
<input checked="" type="checkbox"/>	Increase charge-offs	Our charge-offs increased by \$975,264 which was covered by the increase in the reserve for loan losses.
<input type="checkbox"/>	Purchase another financial institution or purchase assets from another financial institution	
<input type="checkbox"/>	Held as non-leveraged increase to total capital	

What actions were you able to avoid because of the capital infusion of CPP funds?

Without the CPP Funds our Tier 1 Leverage Ratio would have decreased to 12.04% and continued loan growth would have been limited without raising additional capital through some other means such as a private placement.

What actions were you able to take that you may not have taken without the capital infusion of CPP funds?

With the CPP Funds we have been able to sustain a steady increase in loans and our Tier 1 Leverage Ratio remains at 14.76% which will enable us to continue to seek quality loans and to continue to invest in our community.

Please describe any other actions that you were able to undertake with the capital infusion of CPP funds.

According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 1505-0222. The time required to complete this information collection is estimated to average 80 hours per response.
