FDIC Certificate Number: (For Depository Institutions)	27744
City:	Muncie
State:	Indiana

¹If repayment was incremental, please enter the most recent repayment date.

American taxpayers are quite interested in knowing how banks have used the money that Treasury has invested under the Capital Purchase Program (CPP). To answer that question, Treasury is seeking responses that describe generally how the CPP investment has affected the operation of your business. We understand that once received, the cash associated with TARP funding is indistinguishable from other cash sources, unless the funds were segregated, and therefore it may not be feasible to identify precisely how the CPP investment was deployed or how many CPP dollars were allocated to each use. Nevertheless, we ask you to provide as much information as you can about how you have used the capital Treasury has provided, and how your uses of that capital have changed over time. Treasury will be pairing this survey with a summary of certain balance sheet and other financial data from your institution's regulatory filings, so to the extent you find it helpful to do so, please feel free to refer to your institution's quarterly call reports to illustrate your answers. This is your opportunity to speak to the taxpayers in your own words, which will be posted on our website.

What specific ways did your institution utilize CPP capital? Check all that apply and elaborate as appropriate, especially if the uses have shifted over time. Your responses should reflect actions taken over the past year (or for the portion of the year in which CPP funds were outstanding).

<input checked="" type="checkbox"/> Increase lending or reduce lending less than otherwise would have occurred.	Loan originations, including 1-4 family mortgage, consumer and commercial loans, in 2009 increased by \$136.1 million over originations in 2008.
---	--

<input checked="" type="checkbox"/> To the extent the funds supported increased lending, please describe the major type of loans, if possible (residential mortgage loans, commercial mortgage loans, small business loans, etc.).	<p>The majority of the increase in loan originations were 1-4 family mortgage loans which increased \$132.7 million in 2009.</p>
<input checked="" type="checkbox"/> Increase securities purchased (ABS, MBS, etc.).	<p>The bank purchased approximately \$70 million in agency MBS and agency CMOs in 2009.</p>
<input type="checkbox"/> Make other investments	
<input checked="" type="checkbox"/> Increase reserves for non-performing assets	<p>Allowance for loan losses increased by \$1.3 million in 2009.</p>

<input checked="" type="checkbox"/> Reduce borrowings	FHLB advances decreased by \$65.2 million in 2009.
<input type="checkbox"/> Increase charge-offs	
<input type="checkbox"/> Purchase another financial institution or purchase assets from another financial institution	
<input type="checkbox"/> Held as non-leveraged increase to total capital	

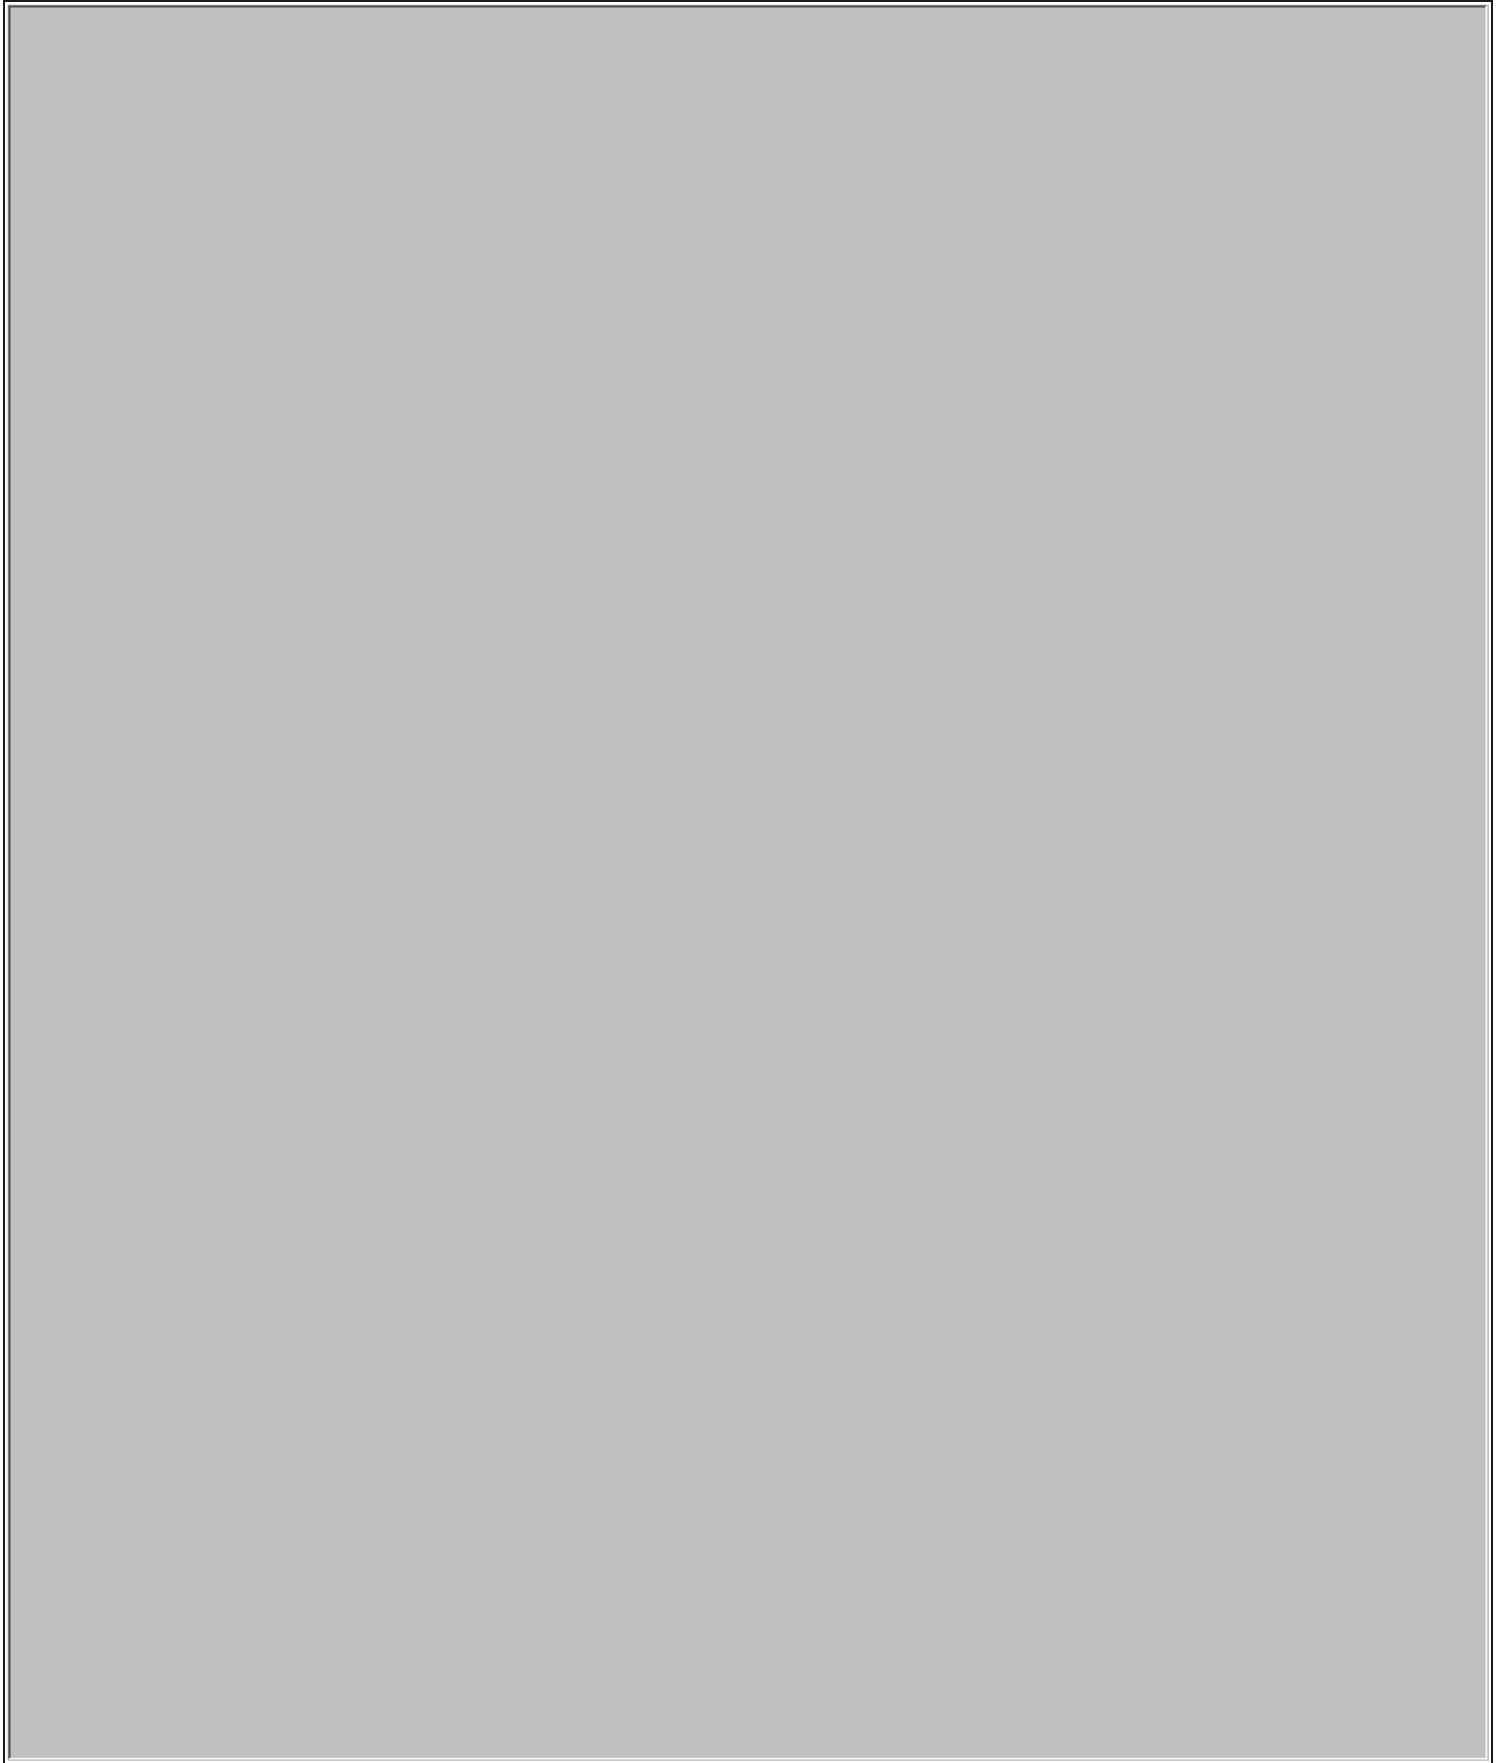

What actions were you able to avoid because of the capital infusion of CPP funds?

The Bank was well capitalized at the time of receiving CPP funding. CPP funds allowed for excess capital during uncertain economic times and opportunities to raise capital was limited. CPP funds allowed the institution to avoid a capital raise in the market and concentrate on the business of banking.

What actions were you able to take that you may not have taken without the capital infusion of CPP funds?

CPP funding allowed us to continue to lend to all qualified borrowers with the excess capital provided by CPP. CPP funding also provided adequate capital to withstand a worst case scenario of writing off all below-investment grade securities and still maintain well-capitalized ratios.

Please describe any other actions that you were able to undertake with the capital infusion of CPP funds.

According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 1505-0222. The time required to complete this information collection is estimated to average 80 hours per response.
