FDIC Certificate Number: (For Depository Institutions)	34401
City:	Centennial, CO 80112
State:	Colorado

¹If repayment was incremental, please enter the most recent repayment date.

American taxpayers are quite interested in knowing how banks have used the money that Treasury has invested under the Capital Purchase Program (CPP). To answer that question, Treasury is seeking responses that describe generally how the CPP investment has affected the operation of your business. We understand that once received, the cash associated with TARP funding is indistinguishable from other cash sources, unless the funds were segregated, and therefore it may not be feasible to identify precisely how the CPP investment was deployed or how many CPP dollars were allocated to each use. Nevertheless, we ask you to provide as much information as you can about how you have used the capital Treasury has provided, and how your uses of that capital have changed over time. Treasury will be pairing this survey with a summary of certain balance sheet and other financial data from your institution's regulatory filings, so to the extent you find it helpful to do so, please feel free to refer to your institution's quarterly call reports to illustrate your answers. This is your opportunity to speak to the taxpayers in your own words, which will be posted on our website.

What specific ways did your institution utilize CPP capital? Check all that apply and elaborate as appropriate, especially if the uses have shifted over time. Your responses should reflect actions taken over the past year (or for the portion of the year in which CPP funds were outstanding).

<input checked="" type="checkbox"/>	Increase lending or reduce lending less than otherwise would have occurred.	When funds were first received, it was put to use making loans primarily in the real estate market. As time has gone on, the bank is making very few real estate loans due to the deterioration of market values associated with them.
<input checked="" type="checkbox"/>	To the extent the funds supported increased lending, please describe the major type of loans, if possible (residential mortgage loans, commercial mortgage loans, small business loans, etc.).	The funds were used for both residential and commercial real estate loans.
<input checked="" type="checkbox"/>	Increase securities purchased (ABS, MBS, etc.).	Due to the decline in the market, the bank chose to purchase additional securities primarily agency backed CMO's to receive a steady stream of interest income and the banks liquidity position.

<input type="checkbox"/>	Make other investments	
<input checked="" type="checkbox"/>	Increase reserves for non-performing assets	The bank has increased reserves due to the deterioration of land and construction portfolios. This is a result of greater delinquencies and collateral values that have tumbled and no longer support loan values.
<input type="checkbox"/>	Reduce borrowings	
<input checked="" type="checkbox"/>	Increase charge-offs	The bank has incurred greater charge offs as well. Last year approximately \$3.3 million in loans were charged off.
<input type="checkbox"/>	Purchase another financial institution or purchase assets from another financial institution	
<input type="checkbox"/>	Held as non-leveraged increase to total capital	

What actions were you able to avoid because of the capital infusion of CPP funds?

What actions were you able to take that you may not have taken without the capital infusion of CPP funds?

We were able to continue making loans to existing and new customers in our local communities.

Please describe any other actions that you were able to undertake with the capital infusion of CPP funds.
