Date Funded (first funding):	5/08/2009
Date Repaid ¹ :	N/A

RSSD: (For Bank Holding Companies)	
Holding Company Docket Number: (For Thrift Holding Companies)	
FDIC Certificate Number: (For Depository Institutions)	58238
City:	Atlanta
State:	Georgia

¹If repayment was incremental, please enter the most recent repayment date.

American taxpayers are quite interested in knowing how banks have used the money that Treasury has invested under the Capital Purchase Program (CPP). To answer that question, Treasury is seeking responses that describe generally how the CPP investment has affected the operation of your business. We understand that once received, the cash associated with TARP funding is indistinguishable from other cash sources, unless the funds were segregated, and therefore it may not be feasible to identify precisely how the CPP investment was deployed or how many CPP dollars were allocated to each use. Nevertheless, we ask you to provide as much information as you can about how you have used the capital Treasury has provided, and how your uses of that capital have changed over time. Treasury will be pairing this survey with a summary of certain balance sheet and other financial data from your institution's regulatory filings, so to the extent you find it helpful to do so, please feel free to refer to your institution's quarterly call reports to illustrate your answers. This is your opportunity to speak to the taxpayers in your own words, which will be posted on our website.

What specific ways did your institution utilize CPP capital? Check all that apply and elaborate as appropriate, especially if the uses have shifted over time. Your responses should reflect actions taken over the past year (or for the portion of the year in which CPP funds were outstanding).

<input checked="" type="checkbox"/>	Increase lending or reduce lending less than otherwise would have occurred.	Though the bank was well capitalized before the receipt of TARP, having the additional capital cushion provided by TARP enhanced the confidence of the bank's creditors and prospective customers of the long term viability of the bank.
<input checked="" type="checkbox"/>	To the extent the funds supported increased lending, please describe the major type of loans, if possible (residential mortgage loans, commercial mortgage loans, small business loans, etc.).	The bank has strategically focused on small business lending through SBA and USDA product offerings.
<input type="checkbox"/>	Increase securities purchased (ABS, MBS, etc.).	

<input type="checkbox"/>	Make other investments	
<input type="checkbox"/>	Increase reserves for non-performing assets	
<input type="checkbox"/>	Reduce borrowings	
<input type="checkbox"/>	Increase charge-offs	
<input type="checkbox"/>	Purchase another financial institution or purchase assets from another financial institution	
<input checked="" type="checkbox"/>	Held as non-leveraged increase to total capital	As the bank reduces non performing assets and recognizes charge-offs due to declines in collateral values, the TARP capital has provided additional capital to allow the bank to liquidate collateral over time, through the business cycle, and avoid distressed sales that would further impair capital.

What actions were you able to avoid because of the capital infusion of CPP funds?

Due to the capital infusion of TARP, the bank was able to avoid more costly sources of funds than what would otherwise been the case.

What actions were you able to take that you may not have taken without the capital infusion of CPP funds?

As a result of the capital provided by TARP funds, the bank was able to more effectively deal with distressed borrowers and non performing assets than may have been the case if the bank had less capital resources.

Please describe any other actions that you were able to undertake with the capital infusion of CPP funds.

According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 1505-0222. The time required to complete this information collection is estimated to average 80 hours per response.
