Date Repaid ¹ :	N/A

RSSD: (For Bank Holding Companies)	
Holding Company Docket Number: (For Thrift Holding Companies)	
FDIC Certificate Number: (For Depository Institutions)	58325
City:	San Francisco
State:	California

¹If repayment was incremental, please enter the most recent repayment date.

American taxpayers are quite interested in knowing how banks have used the money that Treasury has invested under the Capital Purchase Program (CPP). To answer that question, Treasury is seeking responses that describe generally how the CPP investment has affected the operation of your business. We understand that once received, the cash associated with TARP funding is indistinguishable from other cash sources, unless the funds were segregated, and therefore it may not be feasible to identify precisely how the CPP investment was deployed or how many CPP dollars were allocated to each use. Nevertheless, we ask you to provide as much information as you can about how you have used the capital Treasury has provided, and how your uses of that capital have changed over time. Treasury will be pairing this survey with a summary of certain balance sheet and other financial data from your institution's regulatory filings, so to the extent you find it helpful to do so, please feel free to refer to your institution's quarterly call reports to illustrate your answers. This is your opportunity to speak to the taxpayers in your own words, which will be posted on our website.

What specific ways did your institution utilize CPP capital? Check all that apply and elaborate as appropriate, especially if the uses have shifted over time. Your responses should reflect actions taken over the past year (or for the portion of the year in which CPP funds were outstanding).

<input checked="" type="checkbox"/>	Increase lending or reduce lending less than otherwise would have occurred.	Our CPP funded in late November and we funded \$12.4 million of loans in December. We anticipate that the capital will also allow us to increase lending in 2010 and beyond.
<input checked="" type="checkbox"/>	To the extent the funds supported increased lending, please describe the major type of loans, if possible (residential mortgage loans, commercial mortgage loans, small business loans, etc.).	Primarily Commercial and CRE Loans
<input type="checkbox"/>	Increase securities purchased (ABS, MBS, etc.).	

<input type="checkbox"/> Make other investments	
<input type="checkbox"/> Increase reserves for non-performing assets	
<input type="checkbox"/> Reduce borrowings	
<input type="checkbox"/> Increase charge-offs	
<input type="checkbox"/> Purchase another financial institution or purchase assets from another financial institution	
<input type="checkbox"/> Held as non-leveraged increase to total capital	

What actions were you able to avoid because of the capital infusion of CPP funds?

We were able to avoid supplementing liquidity with Brokered Deposits or FHLB advances in December because of the capital infusion. During 2010 and possibly 2011 we anticipate not having to go to the capital markets to raise capital to support growth.

What actions were you able to take that you may not have taken without the capital infusion of CPP funds?

None during December, but going forward we anticipate that we will be able to grow deposits and lending in 2010 and beyond because of the increased capital ratios afforded by the infusion.

Please describe any other actions that you were able to undertake with the capital infusion of CPP funds.

None
