American taxpayers are quite interested in knowing how banks have used the money that Treasury has invested under the Capital Purchase Program (CPP). To answer that question, Treasury is seeking responses that describe generally how the CPP investment has affected the operation of your business. We understand that once received, the cash associated with TARP funding is indistinguishable from other cash sources, unless the funds were segregated, and therefore it may not be feasible to identify precisely how the CPP investment was deployed or how many CPP dollars were allocated to each use. Nevertheless, we ask you to provide as much information as you can about how you have used the capital Treasury has provided, and how your uses of that capital have changed over time. Treasury will be pairing this survey with a summary of certain balance sheet and other financial data from your institution's regulatory filings, so to the extent you find it helpful to do so, please feel free to refer to your institution's quarterly call reports to illustrate your answers. This is your opportunity to speak to the taxpayers in your own words, which will be posted on our website.

What specific ways did your institution utilize CPP capital? Check all that apply and elaborate as appropriate, especially if the uses have shifted over time. Your responses should reflect actions taken over the past year (or for the portion of the year in which CPP funds were outstanding).

<input type="checkbox"/>	Increase lending or reduce lending less than otherwise would have occurred.

<input type="checkbox"/>	Purchase another financial institution or purchase assets from another financial institution	
<input checked="" type="checkbox"/>	Held as non-leveraged increase to total capital	The ANB Corporation (the "Company") has utilized capital obtained by its participation in the Capital Purchase Program ("CPP") to: Support its Lending and Community Development activities and Increase Capital as a non-leveraged increase to total capital.

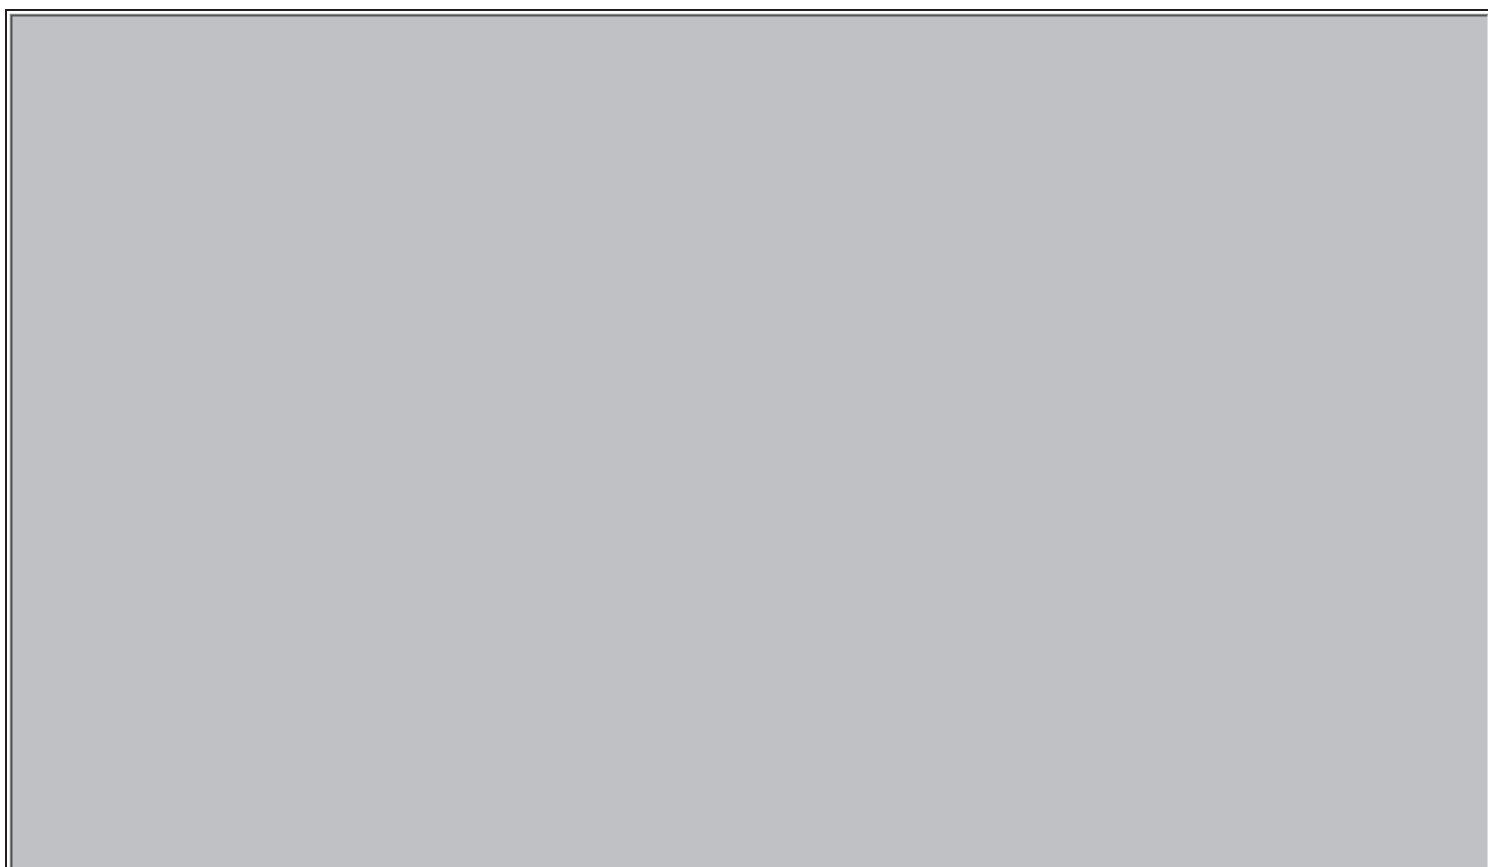

What actions were you able to avoid because of the capital infusion of CPP funds?

Including CPP in the Company's capital structure allowed the Company to continue its 135 year history of providing financial products and services to the residents of North Central Texas.

What actions were you able to take that you may not have taken without the capital infusion of CPP funds?

Please describe any other actions that you were able to undertake with the capital infusion of CPP funds.
