American taxpayers are quite interested in knowing how banks have used the money that Treasury has invested under the Capital Purchase Program (CPP). To answer that question, Treasury is seeking responses that describe generally how the CPP investment has affected the operation of your business. We understand that once received, the cash associated with TARP funding is indistinguishable from other cash sources, unless the funds were segregated, and therefore it may not be feasible to identify precisely how the CPP investment was deployed or how many CPP dollars were allocated to each use. Nevertheless, we ask you to provide as much information as you can about how you have used the capital Treasury has provided, and how your uses of that capital have changed over time. Treasury will be pairing this survey with a summary of certain balance sheet and other financial data from your institution's regulatory filings, so to the extent you find it helpful to do so, please feel free to refer to your institution's quarterly call reports to illustrate your answers. This is your opportunity to speak to the taxpayers in your own words, which will be posted on our website.

What specific ways did your institution utilize CPP capital? Check all that apply and elaborate as appropriate, especially if the uses have shifted over time. Your responses should reflect actions taken over the past year (or for the portion of the year in which CPP funds were outstanding).

<input checked="" type="checkbox"/>	Increase lending or reduce lending less than otherwise would have occurred.	TriState increased lending as a result of the CPP capital infusion. From March 31, 2009 (month after CPP capital was received) to December 31, 2009, loan outstandings increased by approximately \$271 million or 27%. Much of this growth was made possible by the additional CPP Capital.
<input checked="" type="checkbox"/>	To the extent the funds supported increased lending, please describe the major type of loans, if possible (residential mortgage loans, commercial mortgage loans, small business loans, etc.).	81% of the loan growth discussed above came from Commercial Loans, primarily CRE Loans. The remaining 19% of the loan growth discussed above came from Consumer Loans, primarily Consumer Mortgage/Home Equity Loans/Lines and Loans Secured by Marketable Securities.
<input type="checkbox"/>	Increase securities purchased (ABS, MBS, etc.).	

<input type="checkbox"/> Make other investments	
<input type="checkbox"/> Increase reserves for non-performing assets	
<input type="checkbox"/> Reduce borrowings	
<input type="checkbox"/> Increase charge-offs	
<input type="checkbox"/> Purchase another financial institution or purchase assets from another financial institution	
<input type="checkbox"/> Held as non-leveraged increase to total capital	

What actions were you able to avoid because of the capital infusion of CPP funds?

There were no other actions that TriState was able to avoid because of the capital infusion of CPP funds.

What actions were you able to take that you may not have taken without the capital infusion of CPP funds?

The \$23 million in CPP funds received increased our Tier 1 and Tier 2 Capital Ratios and allowed TriState Capital Bank to make over \$200 million in new loans in 2009.

Please describe any other actions that you were able to undertake with the capital infusion of CPP funds.

There were no other actions that TriState was able to undertake with the capital infusion of CPP funds.
