SECTION C—DESCRIPTION/SPECIFICATIONS

C.1 SCOPE OF WORK

A. Objective

The objective of this work is to provide the Department of the Treasury (Treasury) with management consulting services related to the automotive industry.

B. Background

On December 19, 2008, the Treasury announced that it would act to support certain domestic automobile manufacturers, on the condition that they move quickly to develop and adopt acceptable plans for long term viability. This step was intended to prevent significant disruption to the economy, while putting the companies on a path to the significant restructuring necessary to achieve long-term viability.

On February 20, 2009, the Presidential Task Force on the Auto Industry (PTFAI) was announced. The PTFAI, which includes Treasury Secretary Timothy Geithner as a co-chair and member, is working to assess, in a very short period of time, the restructuring plans of Chrysler, LLC (Chrysler) and General Motors Corporation (GM) that were submitted to the Government on February 17, 2009. The assessment process will focus on the feasibility of the proposals, the viability of the plans and the financing needs and requisite capital structures of both GM and Chrysler.

In furtherance of its need to evaluate such restructuring plans and provide recommendations regarding the automotive industry, Treasury is seeking assistance in assessing (a) the automotive industry generally, and (b) the February 17, 2009 GM and Chrysler restructuring plans submitted to the Government.

C. Scope

The scope of the services required is management consulting services related to the automotive industry. These services will support the work of the Treasury in its participation on the PTFAI and its administration of the Troubled Assets Relief Program (TARP). The contractor must have expertise in the auto industry, understanding the competitive dynamics of this industry, the industry structure and the financials and economic drivers for GM and Chrysler.

D. Anticipated Work

In furtherance of its requirement to evaluate the automotive restructuring plans and provide recommendations regarding the automotive industry, Treasury is seeking assistance in assessing (a) the current automotive sector generally (including but not limited to, stakeholders or constituencies that are either directly or indirectly impacted by

the automotive sector), and (b) the February 17, 2009 GM and Chrysler restructuring plans submitted to the Government. Such assistance will include, but is not limited to, reviewing and analyzing a great deal of information about the automotive sector broadly, and GM and Chrysler specifically either through resources held by the Government and its contractors, the Contractor, or otherwise acquired at the Contractor's expense. Specific matters to be reviewed and analyzed include, but are not limited to: anticipated market size and car sale volumes over a five year period; market share considerations for GM and Chrysler; competitive dynamics within the automotive industry; pricing, cost and margin prospects for GM and Chrysler. Other work related to these topics may be required, as the process of assessing these companies and the automotive sector generally unfolds.

The anticipated management consultant services to be performed include, but are not limited to, the following:

1. Macro forecasting

(a) Provide an independent market forecast for the industry over a five year period, factoring in the impact of the current downturn, potential secular shifts in consumer consumption and vehicle usage, the impact of disposable income and the availability of consumer credit and a variety of other macroeconomic and microeconomic factors.

(b) Evaluate market share scenarios and sensitize plans based on various assumptions.

2. Company-level Analysis for General Motors and Chrysler

For each step in the value chain, perform the following:

(a) Identify best-in-class industry benchmark (as it is likely to exist over the course of the projection period) and describe a competitive end-state;

(b) Compare the best-in-class industry benchmark to the February 17, 2009 GM and Chrysler restructuring plans;

(c) Analyze funding needs, time requirements and execution risks associated with the transformation at GM and Chrysler and highlight competitive deficiencies;

(d) Conduct return on investment and cost of capital analysis of original equipment manufacturer;

(e) Assist financial modeling team in identifying inputs based on the work described herein;

(f) Perform any customer, supplier, competitor, or related constituency

interviews as appropriate; and

(g) As appropriate, perform any analysis and surveying required to test consumer sentiment regarding GM and Chrysler.

3. Alliance Analysis for Chrysler

Evaluate potential Chrysler's alliances, including an assessment of the following:

- (a) Value provided to Chrysler by alliances;
- (b) Expected revenue synergies for both parties;
- (c) Expected cost synergies for both parties;
- (d) Funding requirements; and
- (e) Transaction and implementation execution risks.

The following tools will be used to verify that all deliverables and deadlines are met at the Task Order level:

- Draft and final deliverables; and
- Weekly status reports.

F. Task Management

1. Project Management Plan

A Project Management Plan (PMP) is necessary for defining all tasks from inception to close-out and to track resource allocation to the defined tasks. A PMP is also necessary to avoid and reconcile potential resource conflicts, identify dependencies, and track progress through to completion. In developing the proposed PMP, the Contractor shall include the specific performance measures that are relevant to this contract. A final PMP is due with each task order proposal submitted and will take effect upon award of the task order. Along with the Contractor's proposed measures, performance under this contract will be evaluated according to the following measures:

- Deliverables are received at or prior to dates specified in the final project plan and are deemed satisfactory as determined by Treasury; and
- A project risk register with a mitigation strategy that is updated weekly.

2. Key Personnel

The contractor shall propose the key personnel required for performance of each task order and detail their relevant experience.

G. Place of Performance

The work under the resultant contract is anticipated to be performed by the Contractor primarily at the Contractor's offices. However, as Treasury may direct, the Contractor will be required to attend meetings at Treasury and perform work at the Main Treasury Building (corner of Fifteenth Street and Pennsylvania Avenue NW, Washington DC), Metropolitan Square (corner of Fourteenth Street and G Street NW, Washington DC) or other Treasury or non-Treasury reasonable locations, as Treasury's sole discretion.

The Contractor shall secure information received from or prepared or gathered for the Treasury Department under this contract in a secure location with access limited to only those personnel with a “need to know.” Notwithstanding any other language contained herein, the Contractor shall comply with 31 CFR § 31.217.

H.2 KEY PERSONNEL

During the contract performance period, any substitution or replacement of key personnel must be proposed by the Contractor and authorized by the Contracting Officer.

H.3 COOPERATION WITH OTHER ORGANIZATIONS

H.4 LABOR RATES

Labor provided under this contract and its task orders shall use the labor rates and categories provided in Contractor’s proposal as set forth in the Labor Rate Table. Labor rates may not exceed those set forth in the Labor Rate Table.

H.5 CONFLICTS OF INTEREST

a. Treasury HAS NOT WAIVED any potential conflicts of interest as defined by the Federal Acquisition Regulation (FAR) or 31 CFR Part 31. Further, Contractor agrees to (i) use any nonpublic information, or assets of the United States, received or developed in connection with this contract solely for the purposes of fulfilling its duties to the Treasury and not for its own commercial purposes or for those of a third party, and (ii) comply with 31 CFR Part 31, as may be amended from time to time, and with the FAR, all conflict of interest, non-disclosure, and information barrier obligations and restrictions, and all conflict of interest mitigation measures, fully and in good faith, as set forth in the contract, and (iii) negotiate in good faith concerning the inclusion of any different or additional conflict of interest policies and procedures that may be issued by Treasury

pursuant to Section 108(b) of the Emergency Economic Stabilization Act of 2008 (EESA).

b. The Contractor's disclosure submission shall include the information specified in 31 CFR § 31.211(b)(1) – (b)(6). Only after receiving this information will Treasury determine whether conflicts prevent the Contractor from representing Treasury in that specific legal matter.

c. Failure to make full and timely disclosure of actual or potential conflicts of interest, or matters that may present the appearance of a conflict, as well as failure to comply with 31 CFR Part 31 or Treasury conflicts of interest policies and procedures are extremely serious matters. Such failures may subject the Contractor to corrective action including but not limited to: (i) refusal to waive a conflict; (ii) termination of this contract for default; (iii) debarment of the contractor from federal contracting; (i) referral to the appropriate state licensing authorities; and/or, in appropriate cases (5) civil or criminal actions.

d. It is solely within the discretion of the Treasury Department to determine whether or not a conflict of interest exists and whether any mitigation plan submitted by the Contractor avoids or mitigates a conflict. Even the appearance of a conflict may result in the denial of a waiver or other appropriate actions. In the event that matters are transferred to another contractor or entity pursuant to the corrective actions listed above, the Contractor is expected to follow Treasury Department policies and procedures and to cooperate fully in the orderly transfer of such matters.

e. In addition to complying with 31 CFR Part 31 and any other applicable restrictions, the Contractor will: (1) not represent any parties against the United States in any matter that is the subject of a task order during the term of the contract and after the end of the contract; (2) not provide consulting or comparable business services to any other parties with respect to matters directly related to, or matters that may have a direct effect on, a specific transaction that is the subject of a task order during the term of the contract; and (3) have all individuals assigned to work under this agreement receive conflicts training in consultation with the EESA Compliance Office. It is, however, understood that the Contractor may provide consulting or comparable business services to clients who seek to engage in a transaction with Treasury under other programs in support of the EESA. Further, the Contractor shall enter into and enforce agreements with all individuals assigned to work under this contract prohibiting such individuals from provide consulting or comparable business services to any other party regarding a specific matter that is the subject of a task order under this contract during the term of the contract and for six months thereafter.

f. Prior to beginning work on each assignment of a new task order involving a named institution, or assigning a new individual to work under that task order, the Contractor

shall obtain and review the submissions required by 31 CFR § 31.212 for personal conflicts of interest, and certify in writing to Treasury that all such individuals have no personal conflicts of interest, or are subject to a mitigation plan or waiver approved by Treasury. Contractor agrees not to permit any such individual to perform work under the Contract for any such institution or related entities of such institution with which such individual has disclosed a personal conflict of interest pursuant to 31 CFR § 31.212, absent obtaining Treasury's prior consent. In making this determination, the Contractor may rely on the information obtained pursuant to 31 CFR § 31.212(b), unless the Contractor knows or should have known that the information provided is false or inaccurate.

g. Pursuant to 31 CFR §31,216(b), before the Contractor enters into this contract or accepts a modification or task order to this contract, the Contractor shall certify to the following:

(1) The Contractor is aware of the prohibitions of paragraph (a) of 31 CFR §31.216 and, to the best of its knowledge after making reasonable inquiry, the retained entity has no information concerning a violation or possible violation of paragraph (a) of 31 CFR §31.216.

(2) Each officer, employee, and representative of the Contractor who participated personally and substantially in preparing and submitting a bid, offer, proposal, or request for modification of the contract has certified that he or she:

(a) Is familiar with and will comply with the requirements of paragraph (a) of 31 CFR §31.216; and

(b) Has no information of any violations or possible violations of paragraph (a) of 31 CFR §31.216, and will report immediately to the Contractor any subsequently gained information concerning a violation or possible violation of paragraph (a) of 31 CFR §31.216.

h. The Contractor shall include this clause in all subcontracts, consultant agreements, and lower tier subcontracts unless a waiver is requested from, and granted by, the Contracting Officer.
