More information is available at FinancialStability.gov.

The Troubled Asset Relief Program was established pursuant to the Emergency Economic Stabilization Act of 2008 (EESA). Two and a half years after the establishment of the TARP, we are making substantial progress in unwinding the extraordinary assistance that had to be provided during the crisis. Treasury has moved quickly to reduce the dependence of the financial system on emergency support and to return our financial institutions to private hands as quickly as possible. When President Obama took office, the government had made investments in financial institutions representing 75 percent of the assets of the entire banking system. Today, the government's remaining investments in banks represent only about 10 percent of the assets of the banking system. Moreover, taxpayers have now recovered more than 100 percent of the \$245 billion invested in banks, which means that every additional dollar recovered represents a positive return to taxpayers. In this month alone, taxpayers have recovered \$396 million from investments made in the TARP Capital Purchase Program through repurchases, warrant sales, dividends and interest.

By any objective standards, the Troubled Asset Relief Program has worked: it helped stop widespread financial panic, it helped prevent what could have been a devastating collapse of our financial system, and it did so at a cost that is far less than what most people expected at the time the law was passed.

Where are TARP Funds?¹

This report contains two charts that provide a complete picture of how TARP funds have been used, the extent to which they have been returned, and how much the program will cost.

Daily TARP Update

The first chart shows for each TARP program the amount of funds obligated, the amount actually disbursed, the repayments and income received and any losses. Thus, a reader can quickly see how much cash was disbursed under a particular program and how much cash has come back to Treasury. These amounts do not represent lifetime cost estimates, which are shown in the next chart. This chart is also available on FinancialStability.gov and is updated after every business day.

Treasury Estimates of the Impact of TARP Programs and Other Treasury Investment in AIG on the Federal Budget

The second chart provides for each program within TARP the amount obligated, the amount disbursed, the outstanding balance, and the estimated lifetime cost. Estimated lifetime cost represents Treasury's best estimate of what the program will ultimately cost the taxpayer. Estimated lifetime cost is calculated quarterly in conjunction with the Office of Management and Budget. Because some of the TARP investments are in publicly traded securities, we also provide additional information to help readers know the current value of those investments. This chart also shows the estimated lifetime cost of the additional investment by Treasury in AIG separate and apart from the TARP investment.

¹ Numbers in text and tables in this report may not add because of rounding.

This chart utilizes the methodology that TARP has consistently used to estimate these lifetime costs including the requirement to use a discount rate that reflects market risk as required by EESA for future cash flows. Over time, market conditions and the performance of specific investments will be critical determinants of TARP's lifetime cost. The methodology used adheres to government budgeting guidance and includes investments and other disbursements expected to be made in the future and includes assumptions regarding future events, which are inherently uncertain. These estimates do not necessarily reflect official Administration budgetary estimates of the deficit impact of TARP and may differ from the official estimates presented in the President's Budget, the Midsession Review of the Budget, and the report required in 2013 under Section 134 of EESA.

Notes to Daily TARP Update

- 1/ Amounts of "Realized Loss", "Gain / Other Income", and "Warrants Sold" reflect net cash receipts.
- 2/ For equity programs, all dividend and interest payments are classified in the "Dividends" category. For direct loan programs, all dividend and interest payments are classified in the "Interest" category. These classifications are consistent with the accounting treatment used to produce OFS' financial statements.
- 3/ This column represents the sum of repayments plus income/revenue. These amounts do not represent lifetime cost estimates, which OFS provides in a separate table.
- 4/ Citigroup CPP investment was originally in the form of preferred shares and was converted to common stock in September 2009. In addition, the amount of any repayments from exchanges out of the CPP program into the Small Business Lending Fund will be reflected when they occur.
- 5/ Gain / Other Income does not include the receivable for up to \$800 million in trust preferred securities from the Federal Deposit Insurance Corporation (FDIC).
- 6/ All CDCI collections are grouped in the "Not From Exchanges" row/category.
- 7/ The "Bank Program Totals" do not include the disbursements, repayments, or gain on warrants sold for the CPP to CDCI exchanges as they were cashless.
- 8/ TARP's investment in AIG was originally made in the form of preferred stock, some of which was converted to common stock in the recapitalization in January, 2011. For convenience of the reader, the amount converted into common stock is listed under the "obligated" and "disbursed" columns.
- 9/ On May 24, 2011, Treasury sold a total of 200 million AIG common shares at \$29 per share, consisting of 131,981,246 TARP shares and 68,018,754 non-TARP shares based upon the Treasury's pro-rata holding of those shares. The non-TARP shares are those received from the trust created by the Federal Reserve Bank of New York for the benefit of the Treasury. Receipts for non-TARP common stock totaled \$1,972,543,866 and are not included in TARP collections. The realized loss reflects the price at which TARP sold common shares in AIG and the TARP's cost basis of \$43.53 per common share. However, the Treasury as a whole realized a gain on the sale of AIG shares as the combined basis for those shares is \$28.73.
- 10/ Treasury's investment in GM was originally made primarily in the form of loans, some of which were subsequently converted into common and preferred stock. Treasury currently holds only common stock. The realized loss reflects the difference between the price at which Treasury sold common shares in GM's initial public offering and the Treasury's cost basis (\$43.52 per common share) for such shares. This calculation is not a projection of current or expected losses with respect to dispositions of the remaining shares.
- 11/ The Chrysler equity repurchase on 6/2/2011 is not included in this report.
- 12/ Treasury has entered into a letter of credit (L/C) to fund the FHA Short Refinance Program. Pursuant to this L/C, a reserve account has been pre-funded with \$50 million in funds for any future loss claim payments. Treasury will be reimbursed for all unused amounts from this account. As of the date hereof, no disbursements for loss claim payments under the FHA Short Refinance Program have been made.

Notes to Treasury Estimates of the Impact of TARP Programs and Other Treasury Investment in AIG on the Federal Budget:

- 1/ Lifetime cost information is as of March 31, 2011 except for PPIP and TALF which are as of December 31, 2010.
- 2/ Estimated lifetime cost figures shown above are currently updated quarterly in conjunction with the Office of Management and Budget. Estimated lifetime cost of investments in publicly-traded securities is calculated by using the aggregate value of the investments at market prices as of March 31, 2011. The following common stock value information is provided for the convenience of the reader to show the increase or decrease in aggregate value of such investments in light of market prices as of June 30, 2011 and the corresponding effect on estimated cost assuming no other changes.

GM Common Stock	\$ 15.52	\$ 15.18	\$ 0.34
Additional AIG Common Shares	\$ 19.78	\$ 14.51	\$ 5.27

- 3/ It is anticipated that some CPP banks will convert to the Small Business Lending Fund resulting in full repayment of associate CPP investments.
- 4/ Estimated lifetime costs for AGP includes \$276 million for the termination fee Bank of America paid Treasury-OFS for the value received from the announcement of the negotiations on the guarantee and share losses on a pool of assets.
- 5/ Disbursement total reflects \$0.36 billion in CPP transactions that exchanged into the CDCI program. While the exchange did not involve transfer of cash with the public, the CDCI portion is considered a new disbursement for modeling purposes.
- 6/ This represents an additional 563 million shares of AIG common stock that was received from the trust created by the Federal Reserve Bank of New York for the benefit of the Treasury.

Program Updates

Bank Support Programs

In early October 2008, Treasury launched a series of programs to stabilize the nation’s banking institutions. The programs included the Capital Purchase Program (CPP), the Capital Assistance Program (CAP), the Targeted Investment Program (TIP), the Asset Guarantee Program (AGP) and the Community Development Capital Initiative (CDCI). A total of \$245 billion was invested in banking institutions, and as of March 30, 2011, Treasury has recovered more than 100% of that amount through repayments, dividends, interest, and other income. CAP closed on November 9, 2009 with no investments having been made. TIP and AGP have both closed. The programs generated net positive returns to the taxpayer totaling \$4.0 and \$3.8 billion, respectively. CPP closed to new investments in December 2009 and CDCI was closed in September 2010. Treasury estimates the bank programs will result in a lifetime positive return for taxpayers of approximately \$21.2 billion (see Figure 2).

Capital Purchase Program (CPP)

Treasury created the Capital Purchase Program in October 2008 to stabilize the financial system by providing capital to viable banks of all sizes throughout the nation. Figure 3 shows the cumulative Capital Purchase Program activity since program inception. Every additional dollar recovered from CPP participants represents a positive return for taxpayers.

Notes to Capital Purchase Program Snapshot as of June 30, 2011:

1/ Includes repayment of \$25 billion from completed Citigroup common stock conversion and \$335,724,000 from CDCl conversions.

2/ Gross proceeds excluding commissions paid. Includes proceeds from exercised warrants.

Repayments

- On June 8, 2011, Magna Bank repaid \$3,455,000 of Treasury's investment in that institution. Treasury's remaining investment is \$6,885,000.
- On June 29, State Bankshares, Inc. repurchased all outstanding Capital Purchase Program (CPP) preferred shares from Treasury's investment in that institution for \$37.5 million.
- On June 29, 2011, West Bancorporation, Inc. repurchased all outstanding Capital Purchase Program (CPP) preferred shares from Treasury's investment in that institution totaling \$36 million.

Warrant Repurchases

In June, Treasury disposed of four warrant positions that were received in consideration for investments made under the Capital Purchase Program (CPP). These proceeds provide an additional return to the American taxpayer of more than \$30 million from Treasury's investments in banks beyond any dividend or interest payments.

- In June, Treasury sold in an auction its remaining 3,282,276 warrants of Webster Financial Corporation for approximately \$20.7 million.
- As described below, on June 3, 2011, Treasury completed the sale of a warrant for Whitney Holding Corporation to Hancock Holding Company (HHC) for \$6,900,000, as part of HHC's purchase of all Whitney Holding Corporation preferred stock held by Treasury.
- On June 29, 2011, State Bankshares, Inc. repurchased preferred shares from exercised warrants from Treasury for \$2.5 million.
- As described below, in conjunction with Treasury's sale of its Cascade Financial Corporation preferred stock to Opus Acquisition, Inc ("Opus"), the related warrant was also sold to Opus.

Exchanges and Sales

In limited cases, in order to protect the taxpayers' interest in the value of an investment and to promote the objectives of EESA, Treasury may exchange the CPP securities for other securities or may sell its holdings. Treasury evaluates whether to participate in an exchange or sale on the basis of enabling the bank to (i) get new investors to provide additional capital, (ii) conduct a capital

restructuring or (iii) strengthen its capital and financial condition. Exchanges made on this basis may be at a rate less than par, and sales by Treasury to a new investor may be made at a discount.

- On June 3, 2011, Treasury completed the sale of all Whitney Holding Corporation preferred stock and the related warrant held by Treasury to Hancock Holding Company (HHC) for an aggregate purchase price equal to (i) the par amount of the preferred stock (\$300,000,000) plus accrued and unpaid dividends thereon and (ii) \$6,900,000 for the warrant, pursuant to the terms of the agreement between Treasury and HHC entered into on 6/3/2011.
- On June 22, 2011, Treasury sold 2,850,000 shares of its Central Pacific Financial Corp. common stock for proceeds of approximately \$35.9 million. Treasury had received such shares pursuant to an exchange of its preferred stock investment for common stock in February 2011.
- On June 29, 2011, Treasury entered into an agreement with Carver Bancorp, Inc. to exchange Treasury's \$18,980,000 of preferred stock for an equivalent amount of common stock. The exchange is subject to the fulfillment by Carver Bancorp, Inc. of certain conditions, including the satisfactory completion of a capital plan.
- On June 30, 2011, Treasury sold its \$38,970,000 of Cascade Financial Corporation preferred stock held by Treasury and the related warrant to Opus Acquisition, Inc. for an aggregate purchase price of \$16,250,000.

Dividends and Interest

Cumulative dividends, interest and fee income received from Capital Purchase Program investments is approximately \$10.98 billion. In June, Treasury received dividends and interest income from CPP investments of approximately \$2.07 million.

On July 5, 2011, Bank of Montreal purchased CPP preferred shares totaling \$1.7 billion, purchased warrants to purchase common stock in M&I Bank for \$3.3 million and paid accrued dividends totaling \$11.9 million. This repayment will be reflected in next month's 105(a) Report covering July 1-31, 2011.

- c/ Treasury exchanged its preferred stock for mandatorily convertible preferred stock (MCP). Sterling fulfilled the conversion conditions, including those related to its capital plan, and Treasury's MCP was converted into 378,750,000 shares of common stock. Following a subsequent reverse stock split, Treasury now holds 5,738,637 shares of common stock.
- d/ Treasury exchanged its preferred stock for mandatorily convertible preferred stock (MCP) with capitalized dividends. Pacific Capital fulfilled the conversion conditions and Treasury's MCP was converted into 360,833,250 shares of common stock. Following a subsequent reverse stock split, Treasury now holds 3,608,332 shares of common stock.

- e/ Treasury exchanged its preferred stock with capitalized dividends for 5,620,117 shares of common stock, pursuant to an exchange agreement dated 2/17/2011. On 06/22/2011, Treasury completed the sale of 2,850,000 shares of common stock for net proceeds of \$35,883,281.25. Treasury still owns 2,770,117 shares of Central Pacific Financial Corp. common stock.
- f/ Treasury exchanged \$46,400,000 of its Series A Preferred Stock for a like amount of non tax-deductible Trust Preferred Securities issued by First Merchants Capital Trust III.

Credit Market Programs**Small Business Administration (SBA) 7(a) Securities Portfolio**

Small businesses have played an important role in generating new jobs and growth in our economy. To ensure that credit flows to entrepreneurs and small business owners, Treasury took measures to complement the Obama Administration's actions to help small businesses recover and grow, including a program to purchase SBA guaranteed securities. Treasury purchased the securities in order to help restart the flow of credit to small businesses. Purchasing securities from participating "pool assemblers" enabled them to purchase additional small business loans from loan originators. Since Treasury began purchasing SBA 7(a) securities, the SBA 7(a) market has recovered, as exhibited by new pool issuance volumes returning to pre-crisis levels.

Treasury originally invested in 31 SBA 7(a) securities with a value of approximately \$368 million. Those securities were comprised of 1,001 loans from 17 different industries, including retail, food services, manufacturing, scientific and technical services, healthcare, educational services, and others.

- Significant progress was made towards the disposition of these securities in the month of June through the sale of twelve SBA 7(a) securities executed through a Bid Wanted in Competition (BWIC). Treasury sold the twelve securities for approximately \$151.5 million, representing overall income and gains of approximately \$4.5 million.

Other Programs**Automotive Industry Financing Program (AIFP)**

When President Obama took office, the American auto industry was on the brink of collapse. The President made the difficult decision to provide support to General Motors (GM) and Chrysler on the condition that all stakeholders make the sacrifices necessary to achieve a path to viability. By conservative estimates, providing this support saved more than 1 million American jobs. Moreover, the expected costs of TARP's support for the industry have come down dramatically over the last two years as the auto industry has continued to recover and strengthen.

On June 2, 2011, Treasury announced that it reached an agreement to sell to Fiat Treasury's 6 percent fully diluted equity interest in Chrysler and Treasury's interest in an agreement with the UAW retiree trust. The expected total proceeds to Treasury from this transaction are \$560 million. The closing of this transaction will represent Treasury's full exit from its TARP investments in Chrysler LLC, as Chrysler Group LLC repaid its outstanding Troubled Asset Relief Program (TARP) loans on May 24, 2011, six years before the scheduled maturity of those loans in 2017. Following the closing of the equity transaction, Treasury's combined returns from Chrysler will total \$11.2 billion. The remaining loss will be \$1.3 billion, and as previously stated, Treasury is unlikely to recover any additional material amounts.

Housing Programs

Making Home Affordable Program Performance Report

On July 1, 2011, the U.S. Department Treasury released the **Making Home Affordable (MHA) Program Performance Report through May 2011**: <http://www.treasury.gov/initiatives/financial-stability/results/MHA-Reports/Pages/default.aspx>. In a continuing effort to operate programs in as transparent a manner as possible, the report has expanded this month to include:

- Summary data on the Principal Reduction Alternative (PRA). While servicers are not required to reduce principal under PRA, homeowners who qualify see significant benefits, with the median amount of principal reduced for active permanent modifications exceeding \$69,000.
- This month also features expanded detail on the Second Lien Modification and Home Affordable Foreclosure Alternative programs.

Other report highlights include:

- More than 32,000 new permanent modifications were reported in May, as homeowners continue to successfully complete the trial modification period. To date, more than 730,000 permanent modifications have been started with homeowners realizing aggregate savings in monthly mortgage payments of more than \$6.8 billion.
- The six-month rate of trial modifications has consistently been about 30,000 per month for nearly a year, even as the overall population of eligible delinquent homeowners continues to decline. Homeowners who enter a trial modification now have a high likelihood of securing a permanent modification and realizing long-term success in the program.
- Of homeowners who have begun trial modifications since June 1, 2010, 71% were granted permanent modifications with an average time to convert of 3.5 months – a higher conversion rate and shorter time to convert than earlier in the program. At the same time, the number of trials lasting six months or longer continues to decrease.

Second Lien and HAFA Program Results

- The Second Lien Modification Program (2MP) provides assistance to homeowners in a first lien permanent modification who have an eligible second lien with a participating servicer. To date, nearly 29,000 homeowners in a first-lien HAMP modification have received assistance through the Second Lien Modification Program (2MP). Since homeowners with first lien mortgage modifications under HAMP become automatically eligible when their second lien servicer participates in 2MP, this number will continue to grow.
- Over 17,700 homeowners have reached agreements with their servicer to exit their home gracefully under the Home Affordable Foreclosure Alternatives (HAFA) Program through a short sale or deed-in-lieu of foreclosure transaction.
- More than 8,500 homeowners have completed a short sale or deed-in-lieu under HAFA, which provides up to \$3,000 for relocation assistance after a homeowner exits the home.

Hardest Hit Fund

The Hardest Hit Fund provides funding to 18 states and the District of Columbia to provide assistance to struggling homeowners through locally-tailored programs administered by each respective Housing Finance Agency (HFA). \$7.6 billion has been allocated. These areas were chosen because they have experienced steep home price declines or unemployment in the economic downturn. States have developed principal reduction, reinstatement, short sale/transition assistance, modification assistance and mortgage payment programs.

- 70% of funds are targeted to help unemployed borrowers, primarily through reinstatement and programs that help homeowners pay their mortgage while looking for work.
- Programs in 17 states (AL, AZ, CA, FL, GA, IN, KY, MI, MS, NV, NJ, NC, OH, OR, RI, SC, and TN) and the District of Columbia are now out of pilot and are accepting applications widely; the remaining state (IL) is still in pilot and intends to be available in July.
- A total of \$478 million has been drawn down from Treasury from the 18 states and DC. Each state has its own timeline for implementation of their program and draws down funds as they are needed.

Each state submitted a plan to Treasury regarding how they would use funds and their timeline for implementation. HFAs have been in regular communication with servicers about participation in their programs, and Treasury has functioned as a resource through these discussions.

- All 19 eligible entities have created extensive infrastructure to operate these programs, including selecting and training networks of housing counselors to assist with applications, the creation of homeowner portals to apply for assistance, and the hiring of underwriters and other staff to review and approve applications.
- The five largest servicers (Ally Bank, Bank of America, J.P. Morgan Chase, Citibank, and Wells Fargo) are participating in all states.
- In addition to discussions with large servicers, HFAs have had a great deal of success signing hundreds of smaller and mid-size servicers onto their programs.
- The GSEs, FHA, VA and USDA have issued guidance strongly encouraging servicers servicing their loans to participate in unemployment programs under the Hardest Hit Fund.
- Although most states have started out slowly, many states that have been up and running for several months are starting to show substantial growth in the number of borrowers assisted (Ohio, North Carolina, Oregon, California).

Treasury recently approved a new loan purchase model for Illinois, similar to one in Oregon, which will buy loans at discount, modify them for an affordable payment at market value, and then eventually sell them.

- Payment amount does not include accrued and unpaid interest on a debt obligation, which must be paid at the time of principal repayment.
- Treasury committed to lend General Motors Corporation up to \$1,000,000,000. The ultimate funding was dependent upon the level of investor participation in GMAC LLC's rights offering. The amount has been updated to reflect the final level of funding.
- Pursuant to its rights under the loan agreement with Old GM reported on 12/29/2008, Treasury exchanged its \$884 million loan to Old GM for a portion of Old GM's common equity interest in GMAC. Treasury held a 35.4% common equity interest in GMAC until the transactions reported on 12/30/2009. (See transactions marked by orange line in the table above and footnote 22.)
- This transaction is an amendment to Treasury's 12/31/2008 agreement with Old GM (the "Old GM Loan"), which brought the total loan amount to \$15,400,000,000.
- This transaction was a further amendment to the Old GM Loan, which brought the total loan amount to \$19,400,000,000.
- This transaction was a further amendment to the Old GM Loan, which brought the total loan amount to \$19,760,624,198. The \$360,624,198 loan was used to capitalize GM Warranty LLC, a special purpose vehicle created by Old GM. On 7/10/2009, the principal amount was included in the \$7.07 billion of debt assumed by the new GM, as explained in footnote 10.
- On 7/10/2009, the principal amount outstanding under the Old GM Loan and interest accrued thereunder were extinguished and exchanged for privately placed preferred and common equity in New GM. (See green lines in the table above.)
- Under the terms of the \$33.3 billion debtor-in-possession credit agreement dated 6/3/2009 with Old GM (the "GM DIP Loan"), Treasury's commitment amount was \$30.1 billion. The remaining \$2.2 billion of the financing was provided by Canadian government entities. As of 7/09/2009, \$30.1 billion of funds had been disbursed by Treasury.
- On 7/10/2009, Treasury and Old GM amended the GM DIP Loan, and the principal amount and interest accrued thereunder were extinguished and exchanged for privately placed preferred and common equity in New GM, except for (i) \$7.07 billion, which was assumed by New GM as a new obligation under the terms of a separate credit agreement between Treasury and New GM (see transactions marked by green lines in table above) and (ii) \$986 million, which remained a debt obligation of Old GM.
- In total, for the exchange of the Old GM Loan and the GM DIP Loan (other than as explained in footnote 9), Treasury received \$2.1 billion in preferred shares and 60.8% of the common shares of New GM. (See transactions marked by green lines in the table above.)
- Pursuant to a corporate reorganization completed on or about 10/19/2009, the shareholders of New GM, including with respect to Treasury's preferred and common stock, became shareholders of General Motors Holding Company (the ultimate parent company of New GM), which was renamed "General Motors Company" on an equal basis to their shareholdings in New GM, and New GM was converted to "General Motors LLC". General Motors LLC is a wholly owned subsidiary of General Motors Holdings LLC, and General Motors Holdings LLC is a wholly owned subsidiary of General Motors Company.
- Pursuant to a corporate reorganization completed on 10/19/2009, Treasury's loan with New GM was assigned and assumed by General Motors Holdings LLC.
- The loan was funded through Chrysler LB Receivables Trust, a special purpose vehicle created by Chrysler FinCo. The amount of \$1,500,000,000 represents the maximum loan amount. The loan was incrementally funded until it reached the maximum amount of \$1.5 billion on 4/9/2009.
- This transaction was an amendment to Treasury's 1/2/2009 agreement with Chrysler Holding. As of 4/30/2009, Treasury's obligation to lend any funds committed under this amendment had terminated. No funds were disbursed.
- The loan was used to capitalize Chrysler Warranty SPV LLC, a special purpose vehicle created by Old Chrysler.
- This transaction was set forth in a credit agreement with Old Chrysler fully executed on 5/5/2009 following a term sheet executed on 5/1/2009 and made effective on 4/30/2009. Treasury's commitment was \$3.04 billion of the total \$4.1 billion debtor-in-possession credit facility (the "Chrysler DIP Loan"). As of 6/30/2009, Treasury's commitment to lend under the Chrysler DIP Loan had terminated. The remaining principal amount reflects the final amount of funds disbursed under the Chrysler DIP Loan.
- This transaction was an amendment to Treasury's commitment under the Chrysler DIP Loan, which increased Treasury's commitment by an amount \$756,857,000 to a total of \$3.8 billion under the Chrysler DIP Loan. As of 6/30/2009, Treasury's obligation to lend funds committed under the Chrysler DIP Loan had terminated.
- This transaction, first reported based on a term sheet fully executed on 5/27/2009 for an amount up to \$6.943 billion, was set forth in a credit agreement with New Chrysler fully executed on 6/10/2009. Under the terms of the credit agreement, Treasury made a new commitment to New Chrysler of up to \$6.642 billion. The total loan amount is up to \$7.142 billion including \$500 million of debt assumed on 6/10/2009 from Chrysler Holding originally incurred under Treasury's 1/2/2009 credit agreement with Chrysler Holding. The debt obligations are secured by a first priority lien on the assets of New Chrysler. When the sale to new Chrysler was completed, Treasury acquired the rights to 9.85% of the common equity in new Chrysler.
- Pursuant to the agreement explained in footnote 18, \$500 million of this debt obligation was assumed by New Chrysler.
- Under loan agreement, as amended on 7/23/2009, Treasury was entitled to proceeds Chrysler Holdco received from Chrysler FinCo equal to the greater of \$1.375 billion or 40% of the equity value of Chrysler FinCo. Pursuant to a termination agreement dated 5/14/2010, Treasury agreed to accept a settlement payment of \$1.9 billion as satisfaction in full of all existing debt obligations (including additional notes and accrued and unpaid interest) of Chrysler Holdco, and upon receipt of such payment to terminate all such obligations.
- Amount of the Treasury investment exchange includes the exercised warrants from Treasury's initial investments.
- Under the terms of an agreement dated 12/30/2009, the convertible preferred shares will mandatorily convert to common stock under the conditions and the conversion price as set forth in the terms of the agreement.
- On April 30, 2010, the Plan of Liquidation for the debtors of Old Chrysler approved by the respective bankruptcy court became effective (the "Liquidation Plan"). Under the Liquidation Plan, the loan Treasury had provided to Old Chrysler was extinguished without repayment, and all assets of Old Chrysler were transferred to a liquidation trust. Treasury retained the right to recover the proceeds from the liquidation from time to time of the specified collateral security attached to such loan.
- On October 27, 2010, Treasury accepted an offer by General Motors Company (GM) to repurchase all of the approximately \$2.1 billion preferred stock at a price per share of \$25.50, which is equal to 102% of the liquidation preference, subject to the closing of the proposed initial public offering of GM's common stock. The repurchase was completed on 12/15/2010.
- On 11/17/2010, Treasury agreed to sell 358,546,795 shares of common stock at \$32.7525 per share (which represents the \$33 public sale price less underwriting discounts and fees) pursuant to an underwriting agreement. Following settlement, the net proceeds to Treasury were \$11,743,303,903. On 11/26/2010, the underwriters exercised their option to purchase an additional 53,782,019 shares of common stock from Treasury at the same purchase price resulting in additional proceeds of \$1,761,495,577. Treasury's aggregate net proceeds from the sale of common stock pursuant to the underwriting agreement total \$13,504,799,480.
- On 12/30/2010, Treasury converted \$5,500,000,000 of the total convertible preferred stock then outstanding and held by Treasury (including exercised warrants) into 531,850 shares of common stock of Ally. Following this conversion, Treasury holds \$5,937,500,000 of convertible preferred stock.
- On 3/1/2011, Treasury entered into an agreement with Ally Financial, Inc. (Ally) and certain other parties to amend and restate the \$2,667,000,000 in aggregate liquidation preference of its Ally trust preferred securities so to facilitate a public underwritten offering. At the time of amendment and restatement, Treasury received all outstanding accrued and unpaid dividends and a distribution fee of \$28,170,000.
- On 3/2/2011, Treasury entered into an underwritten offering for all of its Ally trust preferred securities, the proceeds of which were \$2,638,830,000, which together with the distribution fee referred to in footnote 27, provided total disposition proceeds to Treasury of \$2,667,000,000. This amount does not include the accumulated and unpaid dividends on the trust preferred securities from the date of the amendment and restatement through but excluding the closing date that Treasury will receive separately at settlement.
- On March 31, 2011, the Plan of Liquidation for Motors Liquidation Company (Old GM) became effective, Treasury's \$986 million loan to Old GM was converted to an administrative claim and the assets remaining with Old GM, including Treasury's liens on certain collateral and other rights attached to the loan, were transferred to liquidation trusts. Under the Plan of Liquidation, Treasury retained the right to recover additional proceeds; however, any additional recovery is dependent on actual liquidation proceeds and pending litigation.
- In June 2009, Treasury provided a \$6.6 billion loan commitment to Chrysler Group LLC (as of March 31, 2011, \$2.1 billion remained undrawn), and received a 9.9 percent equity ownership in Chrysler Group LLC (Chrysler). In January and April 2011, Chrysler met the first and second of three performance related milestones and Fiat's ownership automatically increased from 20% to 30%. As a result, Treasury's ownership was reduced to 8.6%. On May 24, 2011, Fiat, through the exercise of an equity call option, purchased an incremental 16% fully diluted ownership interest in Chrysler for \$1.268 billion. Currently, Treasury's ownership stands at 6.6%.
- On May 24, 2011, Chrysler Group LLC terminated its ability to draw on the remaining \$2.066 billion outstanding under this loan facility.
