The Troubled Asset Relief Program (TARP) was established pursuant to the Emergency Economic Stabilization Act of 2008 (EESA). More than four years after the establishment of the TARP, Treasury is making substantial progress in winding down the extraordinary assistance that had to be provided during the crisis. Treasury has continued to work to reduce the dependence of the financial system on emergency assistance and replace public support with private capital. To date, taxpayers have recovered \$398.2 billion – or 95 percent – of the \$420.0 billion in TARP funds disbursed. And, when excluding disbursements under the housing programs -- which were never intended to be repaid -- Treasury has disbursed \$411.7 billion and recovered \$415.7 billion (including the proceeds from sales of all Treasury AIG shares)¹. Nearly \$271 billion has been recovered from TARP's bank programs through repayments, dividends, interest, and other income, which represents a more than \$25 billion positive return compared to the \$245 billion invested in those institutions.

By any objective standards, the Troubled Asset Relief Program worked: it helped stop widespread financial panic, it helped prevent what could have been a devastating collapse of our financial system, and it did so at a cost that is far less than what most people expected at the time the law was passed.

Highlights

On May 30, 2013, the Obama Administration extended the application deadline for the Making Home Affordable Program (MHA) through December 2015 to provide struggling homeowners additional time to access sustainable mortgage relief, and to align the end dates for key assistance programs. In the [announcement](#), Treasury and the U.S. Department of Housing and Urban Development (HUD) said that the new deadline was determined in coordination with the Federal Housing Finance Agency (FHFA) to align with extended deadlines for the Home Affordable Refinance Program (HARP) and the Streamlined Modification Initiative for homeowners with loans owned or guaranteed by Fannie Mae and Freddie Mac.

Also in May, Treasury initiated a second pre-arranged written trading plan in accordance with its previously announced plan to sell its approximately 241.7 million remaining shares of General Motors (GM) common stock. In addition, on June 6, 2013, Treasury priced 30 million additional shares of GM common stock at \$34.41 per share, in an underwritten public offering in conjunction with GM's inclusion to the S&P 500 index. The UAW Retiree Medical Benefits Trust also participated in the proposed offering by selling 20 million shares. The aggregate proceeds from the sale, which is expected to close on June 12, 2013, are expected to be approximately \$ 1.03 billion².

On June 3, 2013 Treasury reached an important milestone when the Oaktree Public-Private Investment Fund (PPIF) -- the last PPIF under the Legacy Securities Public-Private Investment Program (PPIP) -- repaid the final \$31.8 million in outstanding equity owed to Treasury plus an additional \$48.5 million gain on the investment, for a total of \$80.4 million². PPIP was designed to help restart the market for non-agency residential mortgage-backed securities (RMBS) and commercial mortgage-backed securities (CMBS), thereby allowing banks and other financial institutions to re-deploy capital and extend new credit to households and businesses. As of June 3, 2013, Treasury has fully recovered its original investment of \$18.6 billion in PPIP, plus a positive return of \$3.7 billion through interest and proceeds in excess of original equity capital, including warrant proceeds. Remaining interest payments will provide the taxpayers with an additional positive return on their investment.

¹ For more information, see note 9 to the Daily Tarp Update (Figure 1).

² Because this transaction took place after the end of the reporting period, the proceeds are not reflected in the charts in this report.

Where are the TARP Funds?³

This report contains two charts that provide a complete picture of how TARP funds have been used, the extent to which they have been returned, and how much the program will cost.

Figure 1: Daily TARP Update (DTU)

The first chart shows for each TARP program the amount of funds obligated, the amount disbursed, repayments, income received and any losses. Thus, a reader can quickly see how much cash was disbursed under a particular program and how much cash has come back to Treasury. These amounts do not represent lifetime cost estimates, which are shown in the next chart. The Daily Tarp Update (DTU) is updated after every business day and is available at: <http://www.treasury.gov/initiatives/financial-stability/reports/Pages/daily-tarp-reports.aspx>.

Figure 2: Treasury Estimates of the Impact of TARP Programs and Other Treasury Investment in AIG on the Federal Budget

The second chart provides for each program within TARP the amount obligated, the amount disbursed, the outstanding balance, and the estimated lifetime cost. Estimated lifetime cost represents Treasury's best estimate of what the program will ultimately cost the taxpayer. Estimated lifetime cost is calculated quarterly in conjunction with the Office of Management and Budget. Because some TARP investments are in publicly traded securities, we also provide additional information to help readers know the current value of those investments. This chart also shows the estimated lifetime cost of the additional investment by Treasury in AIG separate and apart from the TARP investment.

This chart utilizes the methodology that OFS has consistently used to estimate lifetime costs including the requirement to use a discount rate that reflects market risk as required by EESA for future cash flows. Over time, market conditions and the performance of specific investments will be critical determinants of TARP's lifetime cost. The methodology used adheres to government budgeting guidance and includes investments and other disbursements expected to be made in the future. It also includes assumptions regarding future events, which are inherently uncertain. These estimates do not necessarily reflect official Administration budgetary estimates of the deficit impact of TARP and may differ from the official estimates presented in the President's Budget, the Midsession Review of the Budget, and the report required in 2013 under Section 134 of EESA.

Notes to Daily TARP Update

- 1/ This row represents the portion of CPP repayments that were received from refinancing to the Small Business Lending Fund (SBLF), which is not a TARP program. The law creating the SBLF provided that banks could refinance securities issued under the CPP and CDCI programs with securities issued under the SBLF. A total of 137 CPP banks refinanced under the SBLF resulting in repayments of \$2.21 billion in CPP investments. This amount is included in total repayments and therefore, this column is not used to calculate the "Outstanding" amount.
- 2/ This column represents non-cash exchanges out of CPP into CDCI. A total of 28 CPP banks, representing \$355.7 million, converted from CPP to CDCI. The total amount exchanged into CDCI, with converted warrants, was \$363.3 million.

- 3/ For equity programs, all dividend and interest payments are classified in the "Dividends" category. For direct loan programs, all dividend and interest payments are classified in the "Interest" category. These classifications are consistent with the accounting treatment used to produce OFS' financial statements.
- 4/ Amount of "Warrants Sold" reflects net cash receipts.
- 5/ "Other Income (Expenses)" includes gains on sales, investment income, fees collected, and disposition expenses.
- 6/ This column represents the sum of repayments plus income/revenue. All returned TARP funds are paid into the general fund of the Treasury for the reduction of the public debt. These amounts do not represent lifetime cost estimates, which are detailed in Figure 2.
- 7/ Citigroup CPP investment was originally in the form of preferred shares and was converted to common stock in September 2009.
- 8/ Allocation of Public-Private Investment Program (PPIP) Equity receipts between repayments and income are subject to reclassification.
- 9/ Treasury's investment in AIG common shares consisted of shares acquired in exchange for preferred stock purchased with TARP funds (TARP shares) and shares received from the trust created by the FRBNY for the benefit of Treasury as a result of its loan to AIG (non-TARP shares). Treasury managed the TARP shares and non-TARP shares together, and disposed of them pro-rata in proportion to its holdings. Only the TARP shares are included under "Other Programs—AIG" and the "Write-offs & Realized Losses" column shows a loss based on Treasury's cost basis of \$43.53 in the TARP shares alone. The non-TARP shares are shown at the bottom of the page after the TARP Total under "Additional AIG Common Shares Held by Treasury." A gain in the "Other Income (Expenses)" column is shown for the non-TARP shares because Treasury's cost basis in such shares is deemed to be zero. When the TARP shares and non-TARP shares are considered together, Treasury's cost on a cash basis is \$28.73 per share. With the sale of all remaining shares in December 2012, Treasury has recovered a total of \$72.84 billion (including proceeds from the sale of the non-TARP shares), compared to total TARP disbursements of \$67.84 billion.
- 10/ Treasury's investment in GM was originally made primarily in the form of loans, some of which were subsequently converted into common and preferred stock. Treasury currently holds only common stock. The realized loss reflects the difference between the prices at which Treasury has sold common shares in GM's initial public offering and subsequent sales and the Treasury's cost basis (\$43.52 per common share) for such shares. Treasury intends to continue to dispose of its GM shares in an orderly fashion, subject to market conditions.
- 11/ Treasury entered into an \$8 billion letter of credit facility to fund a portion of losses associated with the FHA Short Refinance Program. Pursuant to this letter of credit facility, a reserve account was pre-funded with \$50 million for any future loss claim payments. All unused amounts from this account will be returned to Treasury. In March 2013, Treasury extended the letter of credit facility to provide coverage for loans refinanced throughout the eligibility period, which had been extended to December 2014, but reduced the amount to \$1 billion. The obligation related to the FHA Short Refinance Program was reduced accordingly from \$8.117 billion to \$1.03 billion, including administrative expenses.

Notes to Treasury Estimates of the Impact of TARP Programs and Other Treasury Investment in AIG on the Federal Budget:

- 1/ Lifetime cost information is as of March 31, 2013. Estimated lifetime cost figures shown above are currently updated quarterly in conjunction with the Office of Management and Budget. The value of outstanding investments in publicly-traded securities is calculated by using the aggregate value of the investments at market prices as of March 31, 2013. The following common stock value information is provided for the convenience of the reader to show the increase or decrease in the aggregate value of the shares outstanding as of March 31, 2013, compared to the aggregate value of shares outstanding as of May 31, 2013, including any shares sold during April and May 2013.

Outstanding Investment	03/31/2013 Market Value	05/31/2013 Market Value	Increase (Decrease) in Cost
	In billions		
GM Common Stock	\$ 7.03	\$ 8.48	\$ (1.45)

Note: The share price for GM was \$27.82 for the period ending March 31, 2013 and \$33.89 for the period ending May 31, 2013.

- 2/ The law creating the Small Business Lending Fund (SBLF) provided that banks could refinance securities issued under the CPP and CDCI programs with securities issued under the SBLF. A total of 137 CPP banks refinanced under the SBLF resulting in repayments of \$2.21 billion in CPP investments.
- 3/ Estimated lifetime costs for AGP includes \$276 million for the termination fee Bank of America paid Treasury-OFS for the value received from the announcement of the negotiations on the guarantee and share losses on a pool of assets.
- 4/ In March 2013, Treasury extended the letter of credit facility to provide coverage for loans refinanced throughout the eligibility period, which had been extended to December 2014, but reduced the amount from \$8 billion to \$1 billion. Treasury believes this lower amount will be sufficient to accommodate any increased usage that could result through the close of the program. The figures in this line include administrative expenses associated with the letter of credit facility.
- 5/ As discussed in note 9 to the Daily TARP Update, Treasury's investment in AIG common shares consisted of shares acquired in exchange for preferred stock purchased with TARP funds (TARP shares) and shares received from the trust created by the FRBNY for the benefit of Treasury as a result of its loan to AIG (non-TARP shares). Treasury managed the TARP shares and non-TARP shares together, and disposed of them pro-rata in proportion to its holdings. Only the TARP shares are included under "Other Programs—AIG" and the lifetime cost estimate shows a loss based on Treasury's cost basis in the TARP shares alone. However, a gain is shown for the non-TARP shares in the line entitled "Additional AIG Common Shares Held by Treasury" because Treasury's cost basis in such shares was deemed to be zero. When the TARP shares and non-TARP shares are considered together, Treasury's cost on a cash basis was \$28.73 per share. TARP estimates include financing costs (borrowing) from the time of initial investment through the reporting period.

Program Updates

Bank Support Programs

In early October 2008, Treasury launched a series of programs to stabilize the nation’s banking institutions. A total of \$245 billion was invested in banking institutions, and as of March 31, 2011, Treasury had recovered more than 100 percent of that amount through repayments, dividends, interest, and other income. Treasury continues to recover additional funds, and so far taxpayers have realized a gain of more than \$25 billion on their investments through TARP’s bank programs.

Capital Purchase Program (CPP)

Treasury created the Capital Purchase Program in October 2008 to stabilize the financial system by providing capital to viable banking institutions of all sizes throughout the nation. Figure 3 shows the cumulative Capital Purchase Program activity since program inception. Today, every additional dollar recovered from CPP participants represents a positive return for taxpayers.

Figure 3: Capital Purchase Program Snapshot as of May 31, 2013

Notes to Capital Purchase Program Snapshot as of May 31, 2013:

- 1/ Institutions where Treasury has converted its original investment at a discount, into shares of common stock in the institution.
- 2/ Actual collections to date. Includes \$2.21 billion in SBLF transfers and \$0.36 billion in CDCI transfers.
- 3/ Includes proceeds from all auctions of CPP preferred, warrant preferred, note, and warrant note securities where cash has settled with OFS as of May 31, 2013.
- 4/ Net proceeds; includes proceeds from exercised warrants.

Repayments at Par

In May, six institutions repurchased all or part of their outstanding CPP preferred shares or subordinated debentures from Treasury's investments in those institutions for total proceeds of \$45.2 million.

- The First Bancorp, Inc.; Hawthorn Bancshares, Inc.; and River Valley Bancorporation, Inc. repurchased all of the outstanding CPP investment in their institutions for a total of \$32.8 million.
- Patterson Bancshares, Inc.; Unity Bancorp, Inc.; and Valley Financial Corporation made partial repayments of their outstanding CPP investments for a total of \$12.4 million, resulting in a total of \$24.0 million in outstanding CPP investment remaining.

Warrant Repurchases

In addition to the transactions above, Treasury disposed of its warrant positions in eight institutions in May that were received in consideration for investments made under the CPP. These proceeds provided an additional return of \$18.1 million to taxpayers from Treasury's investments in banks beyond any dividend or interest payment.

- Treasury completed the sale of warrants issued by NewBridge Bancorp; TowneBank; Guaranty Federal Bancshares, Inc.; First Financial Holdings Inc.; Plumas Bancorp; Southwest Bancorp, Inc.; and The Bank of Kentucky Financial Corporation for a total of \$17.4 million.
- River Valley Bancorporation, Inc. repurchased its preferred shares from exercised warrants from Treasury for a total of \$0.8 million.

Dividends and Interest

In May, Treasury received dividends and interest income from CPP investments of approximately \$34.5 million. As of May 31, 2013, cumulative dividends, interest and fee income received from CPP investments is approximately \$12.0 billion.

Capital Purchase Program Regional Snapshots

Following is a detailed breakdown of remaining institutions with outstanding investments under the Capital Purchase Program. The locations of remaining institutions' headquarters are mapped to provide a visual overview of outstanding investments. The regional snapshots provide monthly overviews of outstanding CPP investments as TARP continues to wind down its investments.

The regional snapshots include a state-by-state breakdown showing how many institutions remain in the program; the outstanding investment amount; and how many institutions in each state, if any, have outstanding payments due to Treasury. The regional snapshots also show the Top 10 largest outstanding investments in that region; the total amount outstanding; the number of missed payments, if any; and the amount owed in non-current dividends, if applicable.

A full list of remaining CPP investments, including more detail about those banks with outstanding payments, is contained in the appendix to this report. This information is also available in the Dividends and Interest Report published monthly at:

Community Development Capital Initiative

In order to provide lower-cost capital to community development financial institutions, Treasury established the Community Development Capital Initiative. In total, Treasury invested approximately \$570 million in 84 community development financial institutions, which included approximately \$363 million exchanged by 28 financial institutions from the Capital Purchase Program. There are now 74 institutions remaining in the program.

- On May 1, First Choice Bank repurchased all of its outstanding CDCI investment from Treasury for a total of \$5.1 million plus accrued and unpaid dividends.

Auto Industry Financing Program

The Automotive Industry Financing Program (AIFP) was launched in December 2008 to prevent the uncontrolled liquidation of Chrysler and General Motors (GM) and the collapse of the U.S. auto industry, because the potential for such a disruption at that time posed a significant risk to financial market stability and threatened the overall economy.

Under AIFP, Treasury invested a total of \$49.5 billion to help stabilize and restructure GM. In November 2010, GM completed an initial public offering, which yielded \$13.5 billion in net proceeds for Treasury and reduced its stake in GM to 500.1 million remaining shares of GM common stock.

In December 2012, as part of its continuing efforts to wind down TARP, Treasury announced its intent to fully exit its remaining investment in GM within the following 12-15 months, subject to market conditions. As part of that announcement, GM agreed to purchase 200 million shares of GM common stock from Treasury at \$27.50 per share – a transaction that closed on December 21, 2012. In January 2013, the U.S. Department of the Treasury began the process of selling its shares into the market. On April 11, 2013, Treasury completed its first pre-arranged trading plan for the sale of its GM common stock. Under this plan, Treasury sold 58.4 million shares of GM common stock for total gross proceeds of approximately \$1.6 billion.

On May 6, 2013, the U.S. Department of the Treasury announced the next step in its plan to sell its approximately 241.7 million remaining shares of GM common stock with the initiation of a second pre-arranged written trading plan. For more information, see Treasury's press release: <http://www.treasury.gov/press-center/press-releases/Pages/jl1926.aspx>.

- In May 2013, Treasury received total net proceeds of approximately \$611.4 million from the sales of GM common stock⁴. To date, Treasury has recovered approximately \$31.4 billion⁵ of its investment in GM through repayments, sales of stock, dividends, interest, and other income.

On June 6, 2013, Treasury priced 30 million additional shares of General Motors Company (GM) common stock at \$34.41 per share, in an underwritten public offering in conjunction with GM's inclusion to the S&P 500 index. The aggregate proceeds from the sale, which is expected to close on June 12, 2013, are expected to be approximately \$1.03 billion⁶. The UAW Retiree Medical Benefits Trust also participated in the offering by selling 20 million shares, making the total offering size 50 million shares. For more information, see Treasury's press release here: <http://www.treasury.gov/press-center/press-releases/Pages/jl1976.aspx>.

⁴ Additional details on the number of GM shares that Treasury sold and average price per share will be disclosed upon the completion of each pre-arranged trading plan and provided in the Monthly Report to Congress that is issued subsequent to the sale.

⁵ This amount only includes what Treasury has recovered from Old GM. The total amount that Treasury has recovered, including the investment in Old GM, the loan to GM to purchase GMAC rights, and loans for the Supplier and Warranty Programs is \$31.73 billion.

⁶ Because this transaction took place after the end of the reporting period, the proceeds are not reflected in the charts in this report.

Housing Programs**Making Home Affordable Program Performance Report**

On June 7, the U.S. Department of the Treasury released the **Making Home Affordable Program Performance Report through April 2013**. The report is available on the following page: <http://www.treasury.gov/initiatives/financial-stability/reports/Pages/Making-Home-Affordable-Program-Performance-Report.aspx>.

Highlights include:

- Since the start of the program, more than 1.6 million homeowner assistance actions have been taken under MHA.
- More than 1.3 million homeowners have received a permanent first lien modification through MHA since the start of the program, including nearly 1.2 million through the Home Affordable Modification Program (HAMP). Approximately 12,000 new MHA first lien modifications have been reported since the March report.
- To date, homeowners in HAMP permanent modifications have saved an estimated \$19.7 billion in monthly mortgage payments. Homeowners in active first lien permanent modifications are currently saving a median of \$547 per month – more than one-third of their median before-modification payment.
- Homeowners currently in HAMP permanent modifications with some form of principal reduction have been granted an estimated \$10.2 billion in principal reduction. Of all non-GSE loans eligible for principal reduction entering HAMP in April, 67 percent included a principal reduction feature.

2MP and HAFA Program Results

- The Second Lien Modification Program (2MP) enables homeowners in a permanent first lien modification under HAMP to modify eligible second lien mortgages serviced by a participating servicer. To date, nearly 111,000 homeowners in a permanent first lien modification under HAMP have received assistance through 2MP.
- Approximately 154,000 homeowners have exited their homes through a short sale or deed-in-lieu of foreclosure with assistance from the Home Affordable Alternatives Program (HAFA), which provides \$3,000 for relocation assistance after a homeowner exits the home.

Servicer Assessment Results

Included in the MHA Program Performance Report through April 2013 are detailed assessments for the largest mortgage servicers participating in the MHA Program with results from the first quarter of 2013. In addition to providing greater transparency about servicer performance in the program, the Servicer Assessments – first introduced in June 2011 and published quarterly – are intended to set a new industry benchmark for disclosure around servicer efforts to assist struggling homeowners, while prompting them to correct identified deficiencies.

- For the first quarter of 2013, four servicers were found to need only minor improvement on the areas reviewed for program performance, while five servicers were found to need moderate improvement. Servicers continue to focus attention on areas identified in previous program reviews and, as a result, are demonstrating considerable improvement in program implementation.

- Mortgage servicers continue to appropriately calculate homeowner income, which is used to determine a homeowner’s eligibility and modified payment amount under the program. In Q1 2013, the average income calculation error rate for the top servicers was below 2 percent.
- Servicers are more effectively evaluating homeowners under program eligibility criteria as evidenced in the “second look disagree” category, which reflects the rate at which Treasury’s program reviews disagree with the servicer’s decision not to assist a homeowner. In Q1 2013, the average second look disagree percentage for the top servicers was less than 1 percent.

Hardest Hit Fund

The Hardest Hit Fund provides \$7.6 billion to 18 states and the District of Columbia to provide assistance to struggling homeowners through locally-tailored programs administered by each respective Housing Finance Agency (HFA). These areas were chosen because they have experienced steep home price declines or severe unemployment in the economic downturn. States are experimenting with a number of different programs to help homeowners, including principal reduction, reinstatement, short sale/transition assistance, modification assistance, loan purchase and mortgage payment programs.

- There are now 63 active programs across the 19 HFAs. Approximately 67 percent of total program funds are targeted to help unemployed borrowers, primarily through reinstatement and programs that help homeowners pay their mortgage while looking for work.
- All 19 HFAs have created extensive infrastructures to operate these programs, including selecting and training networks of housing counselors to assist with applications, creating homeowner portals to aid homeowners in applying for assistance, and hiring underwriters and other staff to review and approve applications.
- Treasury is working to identify best practices, share lessons learned, and provide additional assistance and oversight to HFAs. In May, Treasury continued to participate in bi-weekly conference calls with the 19 HFAs and the large servicers participating in the Hardest Hit Fund to discuss best practices in reaching the target population, ways to expand program eligibility and promising new programs that can effectively utilize Hardest Hit Funds. In addition, Treasury hosted the fourth Hardest Hit Fund Summit at the Federal Reserve Bank of Chicago. The two-day event provided a forum to promote cooperative and positive working relationships among HFAs, servicers, and GSEs participating in the Hardest Hit Fund. The Summit focused on innovative HHF program models and program evolution, addressing operational challenges, and best practices in servicer and state outreach efforts. More than 125 attendees participated in the Summit, including representatives from all 18 states and the District of Columbia, 11 major servicers, FHFA, and the GSEs.
- Seven HFAs drew a total of \$433.65 million in May; over the life of the program, the 18 states and the District of Columbia have drawn a total of \$2.60 billion. Each HFA draws down funds as they are needed (See Figure 6). HFAs have until December 31, 2017 to expend funds, and must have no more than 5 percent of their allocation on hand before they can draw down additional funds.
- Each state submits a quarterly report on the progress of its programs. Direct links to each state’s most recent performance report can be found at <http://www.treasury.gov/initiatives/financial-stability/programs/housing-programs/hhf/Pages/default.aspx> and below in Figure 5.

- Payment amount does not include accrued and unpaid interest on a debt obligation, which must be paid at the time of principal repayment.
- Treasury committed to lend General Motors Corporation up to \$1,000,000,000. The ultimate funding was dependent upon the level of investor participation in GMAC LLC's rights offering. The amount has been updated to reflect the final level of funding.
- Pursuant to its rights under the loan agreement with Old GM reported on 12/29/2008, Treasury exchanged its \$884 million loan to Old GM for a portion of Old GM's common equity interest in GMAC. Treasury held a 35.4% common equity interest in GMAC until the transactions reported on 12/30/2009. (See transactions marked by orange line in the table above and footnote 22.)
- This transaction is an amendment to Treasury's 12/31/2008 agreement with Old GM (the "Old GM Loan"), which brought the total loan amount to \$15,400,000,000.
- This transaction was a further amendment to the Old GM Loan, which brought the total loan amount to \$19,400,000,000.
- This transaction was a further amendment to the Old GM Loan, which brought the total loan amount to \$19,760,624,198. The \$360,624,198 loan was used to capitalize GM Warranty LLC, a special purpose vehicle created by Old GM. On 7/10/2009, the principal amount was included in the \$7.07 billion of debt assumed by the new GM, as explained in footnote 10.
- On 7/10/2009, the principal amount outstanding under the Old GM Loan and interest accrued thereunder were extinguished and exchanged for privately placed preferred and common equity in New GM. (See green lines in the table above.)
- Under the terms of the \$33.3 billion debtor-in-possession credit agreement dated 6/3/2009 with Old GM (the "GM DIP Loan"), Treasury's commitment amount was \$30.1 billion. The remaining \$2.2 billion of the financing was provided by Canadian government entities. As of 7/09/2009, \$30.1 billion of funds had been disbursed by Treasury.
- On 7/10/2009, Treasury and Old GM amended the GM DIP Loan, and the principal amount and interest accrued thereunder were extinguished and exchanged for privately placed preferred and common equity in New GM, except for (i) \$7.07 billion, which was assumed by New GM as a new obligation under the terms of a separate credit agreement between Treasury and New GM (see transactions marked by green lines in table above) and (ii) \$986 million, which remained a debt obligation of Old GM.
- In total, for the exchange of the Old GM Loan and the GM DIP Loan (other than as explained in footnote 9), Treasury received \$2.1 billion in preferred shares and 60.8% of the common shares of New GM. (See transactions marked by green lines in the table above.)
- Pursuant to a corporate reorganization completed on or about 10/19/2009, the shareholders of New GM, including with respect to Treasury's preferred and common stock, became shareholders of General Motors Holding Company (the ultimate parent company of New GM), which was renamed "General Motors Company" on an equal basis to their shareholdings in New GM, and New GM was converted to "General Motors LLC". General Motors LLC is a wholly owned subsidiary of General Motors Holdings LLC, and General Motors Holdings LLC is a wholly owned subsidiary of General Motors Company.
- Pursuant to a corporate reorganization completed on 10/19/2009, Treasury's loan with New GM was assigned and assumed by General Motors Holdings LLC.
- The loan was funded through Chrysler LB Receivables Trust, a special purpose vehicle created by Chrysler FinCo. The amount of \$1,500,000,000 represents the maximum loan amount. The loan was incrementally funded until it reached the maximum amount of \$1.5 billion on 4/9/2009.
- This transaction was an amendment to Treasury's 1/2/2009 agreement with Chrysler Holding. As of 4/30/2009, Treasury's obligation to lend any funds committed under this amendment had terminated. No funds were disbursed.
- The loan was used to capitalize Chrysler Warranty SPV LLC, a special purpose vehicle created by Old Chrysler.
- This transaction was set forth in a credit agreement with Old Chrysler fully executed on 5/5/2009 following a term sheet executed on 5/1/2009 and made effective on 4/30/2009. Treasury's commitment was \$3.04 billion of the total \$4.1 billion debtor-in-possession credit facility (the "Chrysler DIP Loan"). As of 6/30/2009, Treasury's commitment to lend under the Chrysler DIP Loan had terminated. The remaining principal amount reflects the final amount of funds disbursed under the Chrysler DIP Loan.
- This transaction was an amendment to Treasury's commitment under the Chrysler DIP Loan, which increased Treasury's commitment by an amount \$756,857,000 to a total of \$3.8 billion under the Chrysler DIP Loan. As of 6/30/2009, Treasury's obligation to lend funds committed under the Chrysler DIP Loan had terminated.
- This transaction, first reported based on a term sheet fully executed on 5/27/2009 for an amount up to \$6.943 billion, was set forth in a credit agreement with New Chrysler fully executed on 6/10/2009. Under the terms of the credit agreement, Treasury made a new commitment to New Chrysler of up to \$6.642 billion. The total loan amount is up to \$7.142 billion including \$500 million of debt assumed on 6/10/2009 from Chrysler Holding originally incurred under Treasury's 1/2/2009 credit agreement with Chrysler Holding. The debt obligations are secured by a first priority lien on the assets of New Chrysler. When the sale to new Chrysler was completed, Treasury acquired the rights to 9.85% of the common equity in new Chrysler.
- Pursuant to the agreement explained in footnote 18, \$500 million of this debt obligation was assumed by New Chrysler.
- Under loan agreement, as amended on 7/23/2009, Treasury was entitled to proceeds Chrysler Holdco received from Chrysler FinCo equal to the greater of \$1.375 billion or 40% of the equity value of Chrysler FinCo. Pursuant to a termination agreement dated 5/14/2010, Treasury agreed to accept a settlement payment of \$1.9 billion as satisfaction in full of all existing debt obligations (including additional notes and accrued and unpaid interest) of Chrysler Holdco, and upon receipt of such payment to terminate all such obligations.
- Amount of the Treasury investment exchange includes the exercised warrants from Treasury's initial investments.
- Under the terms of an agreement dated 12/30/2009, the convertible preferred shares will mandatorily convert to common stock under the conditions and the conversion price as set forth in the terms of the agreement.
- On April 30, 2010, the Plan of Liquidation for the debtors of Old Chrysler approved by the respective bankruptcy court became effective (the "Liquidation Plan"). Under the Liquidation Plan, the loan Treasury had provided to Old Chrysler was extinguished without repayment, and all assets of Old Chrysler were transferred to a liquidation trust. Treasury retained the right to recover the proceeds from the liquidation from time to time of the specified collateral security attached to such loan.
- On October 27, 2010, Treasury accepted an offer by General Motors Company (GM) to repurchase all of the approximately \$2.1 billion preferred stock at a price per share of \$25.50, which is equal to 102% of the liquidation preference, subject to the closing of the proposed initial public offering of GM's common stock. The repurchase was completed on 12/15/2010.
- On 11/17/2010, Treasury agreed to sell 358,546,795 shares of common stock at \$32.7525 per share (which represents the \$33 public sale price less underwriting discounts and fees) pursuant to an underwriting agreement. Following settlement, the net proceeds to Treasury were \$11,743,303,903. On 11/26/2010, the underwriters exercised their option to purchase an additional 53,782,019 shares of common stock from Treasury at the same purchase price resulting in additional proceeds of \$1,761,495,577. Treasury's aggregate net proceeds from the sale of common stock pursuant to the underwriting agreement total \$13,504,799,480.
- On 12/30/2010, Treasury converted \$5,500,000,000 of the total convertible preferred stock then outstanding and held by Treasury (including exercised warrants) into 531,850 shares of common stock of Ally. Following this conversion, Treasury holds \$5,937,500,000 of convertible preferred stock.
- On 3/1/2011, Treasury entered into an agreement with Ally Financial, Inc. (Ally) and certain other parties to amend and restate the \$2,667,000,000 in aggregate liquidation preference of its Ally trust preferred securities so to facilitate a public underwritten offering. At the time of amendment and restatement, Treasury received all outstanding accrued and unpaid dividends and a distribution fee of \$28,170,000.
- On 3/2/2011, Treasury entered into an underwritten offering for all of its Ally trust preferred securities, the proceeds of which were \$2,638,830,000, which together with the distribution fee referred to in footnote 27, provided total disposition proceeds to Treasury of \$2,667,000,000. This amount does not include the accumulated and unpaid dividends on the trust preferred securities from the date of the amendment and restatement through but excluding the closing date that Treasury will receive separately at settlement.
- On March 31, 2011, the Plan of Liquidation for Motors Liquidation Company (Old GM) became effective, Treasury's \$986 million loan to Old GM was converted to an administrative claim and the assets remaining with Old GM, including Treasury's liens on certain collateral and other rights attached to the loan, were transferred to liquidation trusts. On December 15, 2011, Old GM was dissolved, as required by the Plan of Liquidation. Treasury retained the right to recover additional proceeds; however, any additional recovery is dependent on actual liquidation proceeds and pending litigation.
- In June 2009, Treasury provided a \$6.6 billion loan commitment to Chrysler Group LLC and received a 9.9 percent equity ownership in Chrysler Group LLC (Chrysler). In January and April 2011, Chrysler met the first and second of three performance related milestones. As a result, Fiat's ownership automatically increased from 20% to 30%, and Treasury's ownership was reduced to 8.6%. On May 24, 2011, Fiat, through the exercise of an equity call option, purchased an incremental 16% fully diluted ownership interest in Chrysler for \$1.268 billion, reducing Treasury's ownership to 6.6% (or 6.0% on a fully diluted basis). On July 21, 2011, Fiat, through the exercise of an equity call option, purchased Treasury's ownership interest for \$500 million. In addition, Fiat paid \$60 million to Treasury for its rights under an agreement with the UAW retirement trust pertaining to the trust's shares in Chrysler.
- On May 24, 2011, Chrysler Group LLC terminated its ability to draw on the remaining \$2.066 billion outstanding under this loan facility.
- On November 1, 2011, Treasury received a \$201,345.42 pro-rata tax distribution on its common stock from Ally Financial, Inc. pursuant to the terms of the Sixth Amended and Restated Limited Liability Company Operating Agreement of GMAC LLC dated May 22, 2009.
- On 12/21/2012, Treasury sold 200,000,000 shares of common stock at \$27.50 per share pursuant to a letter agreement. Following settlement, the net proceeds to Treasury were \$5,500,000,000.
- On January 18, 2013, Treasury gave Citigroup Global Markets, Inc. and J.P. Morgan Securities, LLC discretionary authority, as its sales agent, to sell subject to certain parameters up to 58,392,078 shares of common stock from time to time during the period ending on April 17, 2013 (or upon completion of the sale). Completion of the sale under this authority occurred on April 11, 2013.

1/ The amortizing principal and interest payments are reported on the monthly Dividends and Interest Report available at www.FinancialStability.gov.

2/ Investment Amount is stated after applying the appropriate month's factor and includes accrued interest paid at settlement, if applicable.

3/ If a purchase is listed as TBA, or To-Be-Announced, the underlying loans in the SBA Pool have yet to come to market, and the TBA pricing mechanism, purchase face amount, investment amount and senior security proceeds will be adjusted within the variance permitted under the program terms. If a purchase is listed as PMF, or Prior-Month-Factor, the trade was made prior to the applicable month's factor being published and the SBA 7a security and senior security are priced according to the prior-month's factor. The PMF investment amount and senior security proceeds will be adjusted after publication of the applicable month's factor (on or about the 11th business day of each month).

4/ In order to satisfy the requirements under Section 113 of the Emergency Economic Stabilization Act of 2008, Treasury will acquire a senior indebtedness instrument (a Senior Security) from the seller of each respective SBA 7a Security. Each Senior Security will (i) have an aggregate principal amount equal to the product of (A) 0.05% and (B) the Investment Amount (excluding accrued interest) paid by Treasury for the respective SBA 7a Security, and (ii) at the option of the respective seller, may be redeemed at par value immediately upon issuance, or remain outstanding with the terms and conditions as set forth in the Master Purchase Agreement.

5/ Disposition Amount is stated after applying the appropriate month's factor and includes accrued interest received at settlement, if applicable. If the disposition is listed as PMF, the disposition amount will be adjusted after publication of the applicable month's factor.

6/ If a disposition is listed as PMF, or Prior-Month-Factor, the trade was made prior to the applicable month's factor being published and the SBA 7a security is priced according to the prior-month's factor. The PMF disposition amount will be adjusted after publication of the applicable month's factor (on or about the 11th business day of each month).

7/ Total Program Proceeds To Date includes life-to-date disposition proceeds, life-to-date principal received, life-to-date interest received, and senior security proceeds (excluding accruals).

8/ The sum of Current Face Amount and Life-to-date Principal Received will equal Purchase Face Amount for CUSIPs that were originally purchased as TBAs only after the applicable month's factor has been published and trailing principal & interest payments have been received.

INITIAL COMMITMENT AMOUNT \$ 30,000,000,000

FINAL COMMITMENT AMOUNT \$ 21,856,403,574

TOTAL CAPITAL REPAYMENT AMOUNT \$ 18,593,312,930

TOTAL DISTRIBUTIONS ⁵ \$ 2,409,590,312

1/ The equity amount may be incrementally funded. Commitment amount represents Treasury's maximum obligation if the limited partners other than Treasury fund their maximum equity capital obligations.

2/ The loan may be incrementally funded. Commitment amount represents Treasury's maximum obligation if Treasury and the limited partners other than Treasury fund 100% of their maximum equity obligations.

3/ Adjusted to show Treasury's maximum obligations to a fund.

4/ On 1/4/2010, Treasury and the fund manager entered into a Winding-Up and Liquidation Agreement.

5/ Distributions after capital repayments will be considered profit and are paid pro rata (subject to prior distribution of Contingent Proceeds to Treasury) to the fund's partners, including Treasury, in proportion to their membership interests. These figures exclude pro-rata distributions to Treasury of gross investment proceeds (reported on the Dividends & Interest report), which may be made from time to time in accordance with the terms of the fund's Limited Partnership Agreement.

6/ Following termination of the TCW fund, the \$3.33 billion of obligations have been reallocated to the remaining eight funds pursuant to consent letters from Treasury dated as of 3/22/2010. \$133 million of maximum equity capital obligation and \$267 million of maximum debt obligation were reallocated per fund, after adjustment for the \$17.6 million and \$26.9 million equity capital reallocations from private investors in the TCW fund to the Wellington fund and the AG GECC fund, respectively. The \$356 million of final investment in the TCW fund will remain a part of Treasury's total maximum S-PPIP investment amount.

7/ Amount adjusted to show Treasury's final capital commitment (membership interest) and the maximum amount of Treasury's debt obligation that may be drawn down in accordance with the Loan Agreement.

8/ On 09/26/2011, the General Partner notified Treasury that the Investment Period was terminated in accordance with the Limited Partnership Agreement. As a result, the Final Investment Amount, representing Treasury's debt obligation, has been reduced to the cumulative amount of debt funded.

9/ Cumulative capital drawn at end of the Investment Period.

10/ The Amount is adjusted to reflect pro-rata equity distributions that have been deemed to be capital repayments to Treasury.

11/ Distribution represents a gain on funded capital and is subject to revision pending any additional findings of the outstanding commitment.

12/ On 08/23/2012, AllianceBernstein agreed to de-obligate its unused debt commitment. The Final Investment Amount represents the cumulative capital drawn as of the de-obligation.

1/ On September 3, 2010, the U.S. Department of the Treasury and Citibank, N.A. entered into a facility purchase agreement (the "L/C Facility Agreement"), which allowed Treasury to demand from Citigroup the issuance of an up to \$8 billion, 10-year letter of credit (the "L/C"). Treasury will increase availability under the L/C incrementally in proportion to the mortgages refinanced under the FHA Short Refinance program during the eligibility period. After that time, the amount of the L/C will be capped at the then-current level. Under the terms of the L/C Facility Agreement, Treasury could incur fees for the availability and usage of the L/C up to a maximum amount of \$117 million.

2/ On March 4, 2013, the U.S. Department of the Treasury and Citibank, N.A. entered into Amendment No. 1 to the L/C Facility Agreement, which reduced the maximum amount of the L/C from \$8 billion to \$1 billion; extends by two years the period of time Treasury has to increase the L/C to cover new loans that are entered into the program; and modified the fee structure paid to Citibank, N.A. Based on this new fee structure and the lower L/C, Treasury expects that the fees incurred for the availability and usage of the L/C will not exceed \$25 million.

¹This report is sourced from the Monthly Servicer Survey of select servicers participating in MHA under a Servicer Participation Agreement. All data present in this report reflects what is provided by servicers participating in the survey, and cannot be separately reviewed or validated by Treasury.

Beginning in August 2012, this report reflects a change in reporting requirements of the Monthly Servicer Survey; servicers report all HAMP modification requests received and their outcome, including multiple requests made on a loan. Prior to August 2012, servicers counted only one request per loan. As a result of this change, prior months' reporting contained data compiled under the different methodology. This update is reflected in this report on a going forward basis.

From time to time, a servicer's current month's cumulative results may not equal that servicer's prior month's cumulative results and current month's activity; this is due to corrections or updates made to prior reporting methodology. Note that Requests Processed, Requests Approved, and Requests Denied in any given month may be related to Requests Received in prior months.

² "Requests Received" is the total number of HAMP mortgage modification requests received, as reported by servicers to Monthly Servicer Survey question: "Number of requests received for a HAMP modification". Cumulative Requests Received include all HAMP mortgage modification requests received since implementation of Supplemental Directive 10-02, effective June 1, 2010, and any requests that were approved and sent a Trial Offer prior to implementation of this program guidance.

³ "Requests Processed" is the total number of the HAMP mortgage modifications approved or denied and communicated to the borrower by the servicer, calculated as the sum of Requests Approved and Requests Denied, defined below. Figures include HAMP mortgage modification requests evaluated and denied due to insufficient documentation.

⁴ "Requests Approved" is the total number of HAMP mortgage modification requests approved and Trial Offers sent to the borrowers, as reported by servicers to Monthly Servicer Survey question: "Number of requests Approved and Sent a HAMP Trial Offer". Note that all Requests Approved do not become Active Trials because some borrowers do not accept the trial or fail to make the first trial payment. Cumulative Requests Approved include all HAMP mortgage modification requests approved and Trial Offers sent since program inception, or March 2009.

⁵ "Requests Denied" is the total number of HAMP mortgage modification requests denied and communicated to the borrower by the servicer in accordance with program guidance, as reported by servicers to Monthly Servicer Survey question: "Number of requests Denied for a HAMP Trial". Cumulative Requests Denied include all HAMP mortgage modification requests denied and communicated to the borrower by the servicer since implementation of Supplemental Directive 10-02, effective June 1, 2010. Figures include HAMP mortgage modification requests evaluated and denied due to insufficient documentation.

⁶ Bank of America, NA includes BAC Home Loans Servicing, LP.

⁷ GMAC and Ocwen Loan Servicing, LLC now include activities previously reported under Homeward Residential

⁸ Formerly National City Bank.

⁹ Includes servicers that are no longer actively participating in the survey process or whose Servicer Participation Agreement has been terminated. These servicers no longer submit a survey, and their results only reflect previous periods when the survey questions were not as extensive as current surveys (e.g. #Requests Denied was not a component of earlier surveys).
