Premium By Jurisdiction		
B2	Jurisdiction	<p>Identify jurisdiction (US State, the District of Columbia, or US Territory) for which information is provided. Make of a separate copy of this Worksheet for each jurisdiction in which premium is earned. Premium should be allocated in the same fashion that it is for state reporting and premium tax purposes. Accordingly, coverage written on a non-admitted, surplus lines basis may be allocated in full to the home state of the policyholder, as defined by the Nonadmitted and Reinsurance Reform Act. This allocation approach should be followed in the other worksheets as well where information is sought concerning premium and exposures by jurisdiction.</p>

In addition, DEP should be included in the calculations for all Worksheets only to the extent that commercial property and casualty coverage is issued for losses at the following locations: (1) Within the United States; (2) In the case of an air carrier (as defined in section 40102 of title 49, United States Code), or a United States flag vessel (or a vessel based principally in the United States, on which United States income tax is paid and whose insurance coverage is subject to regulation in the United States), losses occurring anywhere; and (3) At the premises of any United States mission.</p> <p>The figures reported in this column will be the sum of the respective figures in Columns E-G.</p>

D6-D17	Total 2016 Property Insurance Exposure Subject to Terrorism Risk Coverage	<p>Report 2016 information, by jurisdiction, on a consolidated insurer group basis, unless reporting for a single insurer. Enter the amount for each jurisdiction (based on property location) individually, even if an aggregate limit may limit exposure across multiple jurisdictions. The blacked out cells simply indicate that no data will be reportable for that particular cell, given the intersection between the TRIP-eligible line of insurance and the exposure base in question. In this column, report your total property insurance exposure by line of insurance under all policies where terrorism risk coverage is provided in connection with property coverage.</p> <p>This should include (in this column as well as in other columns where the information is requested) the total amount of the reporting insurer's exposure under the policies in question for a property loss (and thus not include amounts within an insured's deductible, etc.). To the extent the value of the insured's property is not fully insured by the policy in question, use the limits of the property insurance to which the insurer is exposed. If the policy has an aggregate limit, use the aggregate limit; if it is subject to a per occurrence limit and not an aggregate limit, use the single occurrence limit. To the extent the policy exposure is based upon property values or annual sales and is not otherwise subject to a policy limit, use the property values or annual sales figures.</p>
