

March 31, 2011

The U.S. Department of the Treasury's Office of Foreign Assets Control (OFAC) today updated its Specially Designated Nationals and Blocked Persons (SDN List) entries for 21 vessels affiliated with the Islamic Republic of Iran Shipping Lines (IRISL) that have since been renamed by IRISL and its affiliates. OFAC is also identifying three additional vessels as blocked property due to their affiliation with IRISL.

Treasury designated IRISL in September 2008 pursuant to Executive Order (E.O.) 13382 for providing logistical services to Iran's Ministry of Defense and Armed Forces Logistics (MODAFL). MODAFL has ultimate control over all entities involved in Iran's ballistic missile research, development and production activities. E.O. 13382 is aimed at freezing the assets of proliferators of weapons of mass destruction and their supporters, thereby isolating them from the U.S. financial and commercial systems.

Including today's addition, Treasury has identified 156 ships as blocked property due to their affiliation with IRISL.

OFAC also added International Container Bureau-issued shipping identifier codes to the SDN List entries for IRISL affiliates Seibow Logistics Limited and Hafiz Darya Shipping, two companies designated by Treasury in June 2010. This identifying information is used to help track the international movement of shipping containers and appears on a variety of shipping documents. OFAC is providing this information to assist U.S. persons and others to better identify the involvement of these companies in shipping-related transactions.
