Please note that on May 8, 2018, the President announced his decision to cease the United States’ participation in the Joint Comprehensive Plan of Action (JCPOA), and to begin re-imposing the U.S. nuclear-related sanctions that were lifted to effectuate the JCPOA sanctions relief, following a wind-down period. This document remains available on OFAC’s website only to assist persons in determining which activities were consistent with the JCPOA sanctions lifting, as in effect from January 16, 2016 through May 8, 2018. Background

On July 14, 2015, the P5+1 (China, France, Germany, Russia, the United Kingdom, and the United States), the European Union (EU), and Iran reached a Joint Comprehensive Plan of Action (JCPOA) to ensure that Iran’s nuclear program will be exclusively peaceful. The JCPOA builds on the foundation of the Joint Plan of Action (JPOA) of November 24, 2013, and the political framework announced in Lausanne on April 2, 2015.

On January 16, 2016, upon confirmation by the Secretary of State that the International Atomic Energy Agency (IAEA) had verified that Iran had implemented the nuclear-related measures described in sections 15.1 to 15.11 of Annex V of the JCPOA, the United States lifted the U.S. nuclear-related sanctions described in sections 17.1 to 17.2 of Annex V of the JCPOA.1 Consequently, January 16, 2016 is the day referred to as “Implementation Day” in paragraph 34.iii of the Main Text of the JCPOA.2 The U.S. Department of the Treasury’s Office of Foreign Assets Control (OFAC) has updated its website to notify the public of certain steps the United States has taken to fulfill Implementation Day sanctions commitments.

As set out in sections 4.1 to 4.7 of Annex II and section 17.1 to 17.2 of Annex V of the JCPOA, the United States government (USG) has lifted nuclear-related secondary sanctions3 on: Iran’s financial, banking, energy, petrochemical, shipping, shipbuilding, and automotive sectors; Iran’s port operators; the provision of insurance, re-insurance and underwriting services in connection with activities that are consistent with the JCPOA; Iran’s trade in gold and other precious metals; trade with Iran in graphite, raw or semi-finished metals such as aluminum and steel, coal, and certain software in connection with activities that are consistent with the JCPOA; and the provision of associated services for each of the categories above. As set out in section 4.8.1 of Annex II and section 17.3 of Annex V of the JCPOA, the USG also removed the individuals and entities listed in Attachment 3 to Annex II of the JCPOA from OFAC’s List of Specially

1 Upon reaching Implementation Day, the EU gave effect to its commitment to lift sanctions as set out in section 16 of Annex V of the JCPOA. In addition, the provisions of United Nations Security Council Resolutions (UNSCR) 1696, 1737, 1747, 1803, 1835, 1929, and 2224 were terminated (subject to re-imposition in the event of significant nonperformance by Iran of JCPOA commitments), although certain restrictions related to nuclear-, conventional arms-, and ballistic missile-related activities will be applied under UNSCR 2231 of July 20, 2015, which endorsed the JCPOA.

2 On Implementation Day, the Joint Plan of Action of November 24, 2013, as extended (JPOA), ceased to be in effect, and the temporary suspension of certain sanctions under that arrangement was superseded by the relevant sanctions lifting provided as part of the JCPOA.

3 Secondary sanctions generally are directed toward non-U.S. persons for specified conduct involving Iran that occurs entirely outside of U.S. jurisdiction and does not involve U.S. persons.
This document remains available on OFAC’s website only to assist persons in determining which activities were consistent with the JCPOA sanctions lifting, as in effect from January 16, 2016 through May 8, 2018. Please note that the Departments of State and of the Treasury have issued additional guidance regarding activities that may be undertaken during the wind-down periods. To the extent there are discrepancies between this document and guidance issued by the Department of State or the Department of the Treasury on or after May 8, 2018, the later-issued guidance should be treated as governing.

Designated Nationals and Blocked Persons (SDN List), Foreign Sanctions Evaders List (FSE List), and/or Non-SDN Iran Sanctions Act List (NS-ISA List), as appropriate.

In addition, as set out in section 5 of Annex II and section 17.5 of Annex V of the JCPOA, on Implementation Day, the USG took steps to: (i) allow for the export, reexport, sale, lease or transfer of commercial passenger aircraft and related parts and services to Iran for exclusively civil, commercial passenger aviation end-use; (ii) license non-U.S. entities that are owned or controlled by a U.S. person (“U.S.-owned or controlled foreign entities”) to engage in activities that are consistent with the JCPOA and applicable U.S. laws and regulations; and (iii) license the importation into the United States of Iranian-origin carpets and foodstuffs, including pistachios and caviar. With the exception of the three categories of activities described above, none of the sanctions-related commitments outlined in this guidance apply to U.S. persons, and U.S. persons, including U.S. companies, continue to be broadly prohibited from engaging in transactions or dealings with Iran and the Government of Iran unless such activities are exempt from regulation or authorized by OFAC.4

To implement the commitments under sections 17.1 to 17.5 of Annex V of the JCPOA, the USG: (i) issued, on Adoption Day,5 waivers of relevant statutory sanctions authorities, which became effective on Implementation Day; (ii) removed, on Implementation Day, the individuals and entities set out in Attachment 3 to Annex II of the JCPOA from the SDN List, FSE List, and/or NS-ISA List, as appropriate; (iii) issued, on Implementation Day, an Executive order (E.O.) that revoked E.O.s 13574, 13590, 13622 and 13645, and sections 5-7 and 15 of E.O. 13628; and (iv) issued, on Implementation Day, a Statement of Licensing Policy and two general licenses.

After Implementation Day, the next major milestone in the JCPOA is Transition Day. Transition Day will occur 8 years from Adoption Day or upon a report from the Director General of the IAEA to the IAEA Board of Governors and in parallel to the United Nations Security Council (UNSC) stating that the IAEA has reached the Broader Conclusion that all nuclear material in Iran remains in peaceful activities, whichever is earlier. As set out in section 21 of Annex V of the JCPOA, on Transition Day, the USG will seek to terminate, or modify to effectuate the termination of, relevant statutory provisions set forth in sections 4.1 to 4.7 and 4.9 of Annex II and will remove the individuals and entities set forth in Attachment 4 to Annex II of the JCPOA

4 In addition, non-U.S. persons continue to be prohibited from knowingly engaging in conduct that seeks to evade U.S. restrictions on transactions or dealings with Iran or that causes the export of goods or services from the United States to Iran. See section VII.A.1.

5 “Adoption Day” under the JCPOA, which occurred on October 18, 2015, is the day on which the JCPOA became effective and the participants in the JCPOA began to make the necessary preparations to implement their JCPOA commitments.

This document remains available on OFAC’s website only to assist persons in determining which activities were consistent with the JCPOA sanctions lifting, as in effect from January 16, 2016 through May 8, 2018. Please note that the Departments of State and of the Treasury have issued additional guidance regarding activities that may be undertaken during the wind-down periods. To the extent there are discrepancies between this document and guidance issued by the Department of State or the Department of the Treasury on or after May 8, 2018, the later-issued guidance should be treated as governing.

For additional information, please see section A of OFAC’s Frequently Asked Questions Relating to the Lifting of Certain U.S. Sanctions Under the JCPOA on Implementation Day (JCPOA FAQs).

This guidance document is organized into seven sections. Section I contains introductory notes regarding the sanctions lifting under the JCPOA. Section II reviews the various nuclear-related secondary sanctions that were lifted on Implementation Day, explains how those sanctions were lifted, and describes the effect of the sanctions lifting. Section III addresses the sanctions list removals that occurred on Implementation Day, and what it means for parties engaging in transactions or activities with individuals and entities that were removed from the relevant sanctions lists. Section IV describes other U.S. commitments under the JCPOA, including commitments with respect to (i) exports of commercial passenger aircraft and related parts and services for commercial passenger aviation, (ii) the ability of U.S.-owned or -controlled foreign entities to engage in activities that are consistent with the JCPOA and U.S. law, and (iii) imports of Iranian-origin carpets and foodstuffs into the United States. Section V addresses the U.S. commitment to terminate four E.O.s and part of a fifth. Section VI provides an overview of the waiver determinations and findings with respect to certain statutory sanctions issued to implement U.S. Implementation Day sanctions commitments under the JCPOA. Finally, Section VII provides a list of key legal authorities that are outside the scope of the JCPOA and that remain in place after Implementation Day.

I. General Notes

In reviewing the JCPOA and this guidance, members of the regulated public should be aware of the following:

- The sanctions-related commitments described in the JCPOA are directed towards non-U.S. persons, and except for the commitments described in section 5 of Annex II of the JCPOA, do not apply to U.S. persons.

---

6 This commitment does not impact the USG’s ability under relevant statutes and E.O.s to remove persons from the relevant sanctions lists prior to Transition Day if the circumstances warrant.
7 For the purpose of this guidance, the term “non-U.S. person” means any individual or entity excluding any United States citizen, permanent resident alien, entity organized under the laws of the United States or any jurisdiction within the United States (including foreign branches), or any person in the United States. This definition of “non-U.S. person” therefore includes U.S.-owned or -controlled foreign entities. However, U.S.-owned or -controlled

Please note that the Departments of State and of the Treasury have issued additional guidance regarding activities that may be undertaken during the wind-down periods. To the extent there are discrepancies between this document and guidance issued by the Department of State or the Department of the Treasury on or after May 8, 2018, the later-issued guidance should be treated as governing.

January 16, 2016

• The sanctions commitments described in the JCPOA and this guidance do not apply to transactions that involve persons who remain or are placed on the SDN List. Transactions involving such persons remain sanctionable after Implementation Day.

• The USG commitment to lift sanctions described in the JCPOA is without prejudice to sanctions that may apply under legal provisions not included within the scope of section 4 of Annex II of the JCPOA. As further detailed in section VII below, the USG retains the authority to continue imposing sanctions under authorities not included within the scope of section 4 of Annex II, including those used to address Iran’s: support for terrorism, support for persons involved in human rights abuses in Syria or for the Government of Syria, support for persons threatening the peace, security, or stability of Yemen, human rights abuses, and ballistic missile program.9

II. Nuclear-related Secondary Sanctions

To effectuate the lifting of the nuclear-related secondary sanctions set out in sections 4.1 to 4.7 of Annex II and sections 17.1 to 17.2 of Annex V of the JCPOA, on Implementation Day, the USG took the steps set out below.

A. Financial and Banking-related Sanctions

Commitment:

Section 4.1 of Annex II and section 17.1 of Annex V of the JCPOA provide for the lifting, on Implementation Day, of secondary sanctions that apply to non-U.S. persons who engage in certain financial and banking activities related to Iran. In particular, beginning on Implementation Day, the following activities by non-U.S. persons are no longer sanctionable:

---

8 The term “United States person” or “U.S. person” means any United States citizen, permanent resident alien, entity organized under the laws of the United States or any jurisdiction within the United States (including foreign branches), or any person in the United States. See 31 C.F.R. § 560.314.

9 For example, a transaction involving Iran that would be sanctionable under an authority that is not lifted pursuant to the JCPOA (e.g., a U.S. sanctions authority relating to Yemen or Syria) remains sanctionable under that other authority after Implementation Day.
This document remains available on OFAC’s website only to assist persons in determining which activities were consistent with the JCPOA sanctions lifting, as in effect from January 16, 2016 through May 8, 2018. Please note that the Departments of State and of the Treasury have issued additional guidance regarding activities that may be undertaken during the wind-down periods. To the extent there are discrepancies between this document and guidance issued by the Department of State or the Department of the Treasury on or after May 8, 2018, the later-issued guidance should be treated as governing.

January 16, 2016

• Financial and banking transactions with individuals and entities set out in Attachment 3 to Annex II of the JCPOA, including: the Central Bank of Iran (CBI) and other specified Iranian financial institutions; the National Iranian Oil Company (NIOC), the Naftiran Intertrade Company (NICO), the National Iranian Tanker Company (NITC), and other specified individuals and entities identified as the Government of Iran by OFAC; and certain designated individuals and entities that were removed from the SDN List on Implementation Day (see section 4.1.1 of Annex II of the JCPOA);
• Transactions involving the Iranian rial or maintaining funds or accounts outside of Iran denominated in the Iranian rial (see section 4.1.2 of Annex II of the JCPOA);
• Providing U.S. bank notes to the Government of Iran (see section 4.1.3 of Annex II of the JCPOA);
• The purchase, subscription to, or facilitation of the issuance of Iranian sovereign debt, including governmental bonds (see section 4.1.5 of Annex II of the JCPOA);
• Providing specialized financial messaging services to the CBI and Iranian financial institutions set out in Attachment 3 to Annex II of the JCPOA (see section 4.1.6 of Annex II of the JCPOA); and
• The provision of associated services10 for each of the categories above (see section 4.1.7 of Annex II of the JCPOA).

In addition, the USG has removed bilateral trade limitations on Iranian revenues held abroad, including limitations on their transfer (see section 4.1.4 of Annex II of the JCPOA).

Implementation:

To effectuate the lifting of these sanctions on Implementation Day, the USG has, in addition to removing certain individuals and entities from the SDN List, FSE List, and NS-ISA List as described in section III below, taken the following steps:

10 For purposes of the JCPOA and this guidance, the USG interprets the term “associated services” to mean any service—including technical assistance, insurance, re-insurance, brokering, transportation, or financial service—necessary and ordinarily incident to the underlying activity for which sanctions have been lifted pursuant to the JCPOA. U.S. persons and U.S.-owned or -controlled foreign entities remain prohibited from providing associated services in connection with transactions or activities within the scope of the sanctions lifting under the JCPOA, unless the transactions or activities are exempt from regulation or authorized by OFAC. U.S.-owned or -controlled foreign entities may provide such associated services to the extent the transactions or activities are within the scope of the general license described in Section IV.B, below.

1. Correspondent or Payable-Through Account Sanctions:

   a. Waived the imposition of correspondent or payable-through account sanctions under: section 1245(d)(1) of the National Defense Authorization Act of Fiscal Year 2012, as amended (NDAA 2012)\(^{11}\) (for significant financial transactions by foreign financial institutions (FFIs)\(^{12}\) with the CBI\(^{13}\)); section 1244(d)(2) of the Iran Freedom and Counter-Proliferation Act of 2012 (IFCA) (for significant financial transactions by FFIs for the sale, supply, or transfer to or from Iran of significant goods or services used in connection with the energy, shipping, or shipbuilding sectors of Iran, including NIOC, NITC, and the Islamic Republic of Iran Shipping Lines (IRISL)); section 1244(h)(2) of IFCA (for financial transactions by FFIs for the sale, supply, or transfer to or from Iran of natural

---

11 Sections 1245(d)(3) and 1245(d)(4)(C) of NDAA 2012, which clarify the scope of the sanction under section 1245(d)(1), are without effect when the sanction under 1245(d)(1) is waived.

12 For purposes of this guidance, and as defined in 561.308 of the Iranian Financial Sanctions Regulations, 31 C.F.R. part 561 (IFSR), the term “foreign financial institution” or “FFI” means any foreign entity that is engaged in the business of accepting deposits, making, granting, transferring, holding, or brokering loans or credits, or purchasing or selling foreign exchange, securities, commodity futures or options, or procuring purchasers and sellers thereof, as principal or agent. It includes but is not limited to depository institutions, banks, savings banks, money service businesses, trust companies, securities brokers and dealers, commodity futures and options brokers and dealers, forward contract and foreign exchange merchants, securities and commodities exchanges, clearing corporations, investment companies, employee benefit plans, dealers in precious metals, stones, or jewels, and holding companies, affiliates, or subsidiaries of any of the foregoing.

13 Section 1245(d)(1) of NDAA 2012 further provides for correspondent or payable-through account sanctions for significant transactions by FFIs with Iranian financial institutions designated by the Secretary of the Treasury for the imposition of sanctions pursuant to the International Emergency Economic Powers Act (“designated Iranian financial institutions”). As noted in section VI below, the waiver of section 1245(d)(1) of NDAA 2012 issued by the Secretary of State covers transactions by FFIs with the CBI, but not with designated Iranian financial institutions. Iranian financial institutions identified as persons whose property and interests in property are blocked solely pursuant to E.O. 13599 and section 560.211 of the Iranian Transactions and Sanctions Regulations, 31 C.F.R. part 560 (ITSR), are not designated Iranian financial institutions, and section 1245(d)(1) of NDAA 2012 does not, by its terms, apply to transactions with such financial institutions. Pursuant to the U.S. commitment described in section 4.8.1 of Annex II of the JCPOA, the United States removed the designations of Iranian financial institutions listed in Attachment 3 to Annex II of the JCPOA on Implementation Day (though these institutions remain blocked pursuant to E.O. 13599 and section 560.211 of the ITSR); as a result, these Iranian financial institutions were removed from the SDN List. Following Implementation Day, the sanction under section 1245(d)(1) of NDAA 2012 only applies to significant financial transactions by FFIs with Iranian financial institutions on the SDN List, including those designated pursuant to E.O. 13224 and the Global Terrorism Sanctions Regulations, 31 C.F.R. part 594 (GTSR), or E.O. 13382 and the Weapons of Mass Destruction Proliferators Sanctions Regulations, 31 C.F.R. part 544 (WMDPSR). As of January 16, 2016, the following Iranian financial institutions are designated pursuant to E.O. 13224 and the GTSR or E.O. 13382 and the WMDPSR: Ansar Bank, Bank Saderat, Bank Saderat PLC, and Mehr Bank.
This document remains available on OFAC’s website only to assist persons in determining which activities were consistent with the JCPOA sanctions lifting, as in effect from January 16, 2016 through May 8, 2018. b. Revoked:\textsuperscript{16} E.O. 13622, including the correspondent or payable-through account sanctions under section (1)(a), as amended by section 16 of E.O. 13645 (for FFIs that conduct or facilitate transactions: with NIOC or NICO; for the purchase, acquisition, sale, transport, or marketing of petroleum or petroleum products from Iran; or for the purchase, acquisition, sale, transport, or marketing of petrochemical products from Iran); and E.O. 13645, including the correspondent or payable-through account sanctions under section 1(a) (for FFIs engaging in significant transactions related to the Iranian rial and maintaining significant funds or accounts outside the territory of Iran denominated in the Iranian rial) and subsection 3(a)(i) (for significant transactions by FFIs on behalf of any Iranian person on the SDN List or any other person included on the SDN List whose property and interests in property are blocked pursuant to subsection 2(a)(i) of E.O. 13645 or E.O. 13599).\textsuperscript{17}

\textsuperscript{14}By its terms, section 1244(h)(2) of IFCA subjects FFIs to all sanctions available under section 1244 with respect to the sale, supply, or transfer of natural gas to or from Iran, including correspondent or payable-through account sanctions under section 1244(d)(2), blocking sanctions under section 1244(c)(1), and menu-based sanctions under section 1244(d)(1), unless bilateral trade limitations on Iranian revenues generated by such transactions are applied. To avoid repetition, and because it explicitly applies to FFIs, section 1244(h)(2) is discussed in this section focusing on correspondent or payable-through account sanctions and is not repeated in the following sections focusing on blocking sanctions and menu-based sanctions.

\textsuperscript{15}After Implementation Day, it continues to be sanctionable under section 1247(a) of IFCA for FFIs to knowingly facilitate a significant financial transaction on behalf of any Iranian person on the SDN List. The relevant sanction in section 1247(a) of IFCA continues not to apply, by its terms, in the case of Iranian financial institutions blocked solely pursuant to E.O. 13599. In addition, pursuant to the commitment in section 4.8.1 of Annex II of the JCPOA and as described in section III, below, on Implementation Day, such Iranian financial institutions were removed from the SDN List. As a result of these removals, after Implementation Day, the references in sections 1244(c)(1), 1246(a)(1), and 1247(a) of IFCA to Iranian financial institutions that have not been designated for the imposition of sanctions are no longer relevant and therefore are not further discussed in this guidance.

\textsuperscript{16}Revoking the specified E.O.s and E.O. provisions as further detailed in section V below has the effect of terminating the sanctions under the relevant E.O. or E.O. provision, as appropriate.

\textsuperscript{17}Notwithstanding the revocation of E.O. 13645, section 1247(a) of IFCA remains in place and it continues to be sanctionable for FFIs to knowingly facilitate a significant financial transaction on behalf of any Iranian person on the SDN List.
This document remains available on OFAC’s website only to assist persons in determining which activities were consistent with the JCPOA sanctions lifting, as in effect from January 16, 2016 through May 8, 2018. Please note that the Departments of State and of the Treasury have issued additional guidance regarding activities that may be undertaken during the wind-down periods. To the extent there are discrepancies between this document and guidance issued by the Department of State or the Department of the Treasury on or after May 8, 2018, the later-issued guidance should be treated as governing.

actions to give effect to these removals on its website on Implementation Day, and will subsequently publish a notice of the removal actions in the Federal Register.\(^74\)

A. Non-applicability of certain secondary sanctions authorities

As a result of these removals, beginning on Implementation Day, non-U.S. persons are no longer subject to secondary sanctions for engaging in transactions with the individuals and entities set out in Attachment 3 to Annex II of the JCPOA, including the CBI and other Iranian financial institutions, provided that the transactions do not involve conduct described in sections VII.B-C below or individuals or entities who remain or are placed on the SDN List. Those individuals and entities set out in Attachment 3 to Annex II of the JCPOA that were previously designated for sanctions have had those designations removed.\(^75\) In addition, all individuals and entities listed in Attachment 3 to Annex II of the JCPOA were removed from the SDN List and/or, where applicable, the FSE List and the NS-ISA List.\(^76\) As a result of these actions, the following statutory sanctions authorities will no longer apply to transactions with these individuals and entities:

- **Section 104(c)(2)(E)(ii)(I) of CISADA** (correspondent or payable-through account sanctions with respect to FFIs that knowingly facilitate a significant transaction or transactions or provide significant financial services for a person whose property or interests in property are blocked in connection with Iran’s proliferation of WMD or their means of delivery);\(^77\)

\(^{74}\) To give effect to these removals, the Department of State took separate actions to remove the legal basis for the listings of certain other individuals and entities, and will publish notice of such actions in the Federal Register. These actions include waiving the imposition of sanctions with respect to certain persons sanctioned pursuant to sections 1244(c)(1) and 1244(d)(1) of IFCA. See sections VI.A.1 and VI.A.2 below. As a result of these actions, all sanctions measures that were selected by the Secretary of State when he took the actions resulting in the listings were lifted.

\(^{75}\) As noted with respect to NIOC’s determination under section 312 of the TRA in Annex II of the JCPOA, removal of persons from the SDN List includes resolution of related designations and determinations. The U.S. Department of the Treasury has now determined that NIOC is no longer an agent or affiliate of the IRGC.

\(^{76}\) Notwithstanding the removal of these listings, persons meeting the definition of the terms “Government of Iran” or “Iranian financial institution” remain persons whose property and interests in property are blocked pursuant to E.O. 13599 and section 560.211 of the ITSR. See section III.B below.

\(^{77}\) Following Implementation Day, section 104(c)(2)(E)(ii)(I) of CISADA continues to apply to FFIs that knowingly facilitate a significant transaction or transactions or provide significant financial services for a person whose property or interests in property remain blocked in connection with Iran’s proliferation of WMD or their means of delivery. In addition, section 104(c)(2)(E)(ii)(II) of CISADA continues to apply to FFIs that knowingly facilitate a significant transaction or transactions or provide significant financial services for a person whose property or

- **Section 1246(a)(1)(B)(iii)(I) of IFCA** (menu-based sanctions with respect to persons who knowingly provide underwriting services or insurance or reinsurance to or for any person designated for the imposition of sanctions in connection with Iran’s proliferation of WMD or their means of delivery); and

- **Section 1247(a) of IFCA** (correspondent or payable-through account sanctions with respect to FFIs that knowingly facilitate a significant financial transaction on behalf of any Iranian person on the SDN List, other than an Iranian financial institution whose property and interests in property are blocked solely pursuant to E.O. 13599).

**B. Continued blocking under E.O. 13599 and section 560.211 of the ITSR**

Further, even after Implementation Day, individuals and entities meeting the definition of the Government of Iran or an Iranian financial institution, as those terms are defined in sections 560.304 and 560.324 of the ITSR, remain persons whose property and interests in property are blocked pursuant to E.O. 13599 and section 560.211 of the ITSR. As a result, U.S. persons continue to be broadly prohibited from engaging in transactions or dealings with these individuals and entities unless such transactions or dealings are exempt from regulation or authorized by OFAC. U.S. persons also continue to have an obligation to block the property and interests in property are blocked in connection with Iran’s support for international terrorism. Persons falling into these two categories are identified on the SDN List with the “[IFSR]” program tag.

78 Following Implementation Day, section 1246(a)(1)(B)(iii)(I) of IFCA continues to apply to persons who knowingly provide underwriting services or insurance or reinsurance to or for any person who remains designated for the imposition of sanctions under IEEPA in connection with Iran’s proliferation of WMD or their means of delivery. In addition, section 1246(a)(1)(B)(iii)(II) of IFCA continues to apply to persons who knowingly provide underwriting services or insurance or reinsurance to or for any person designated for the imposition of sanctions under IEEPA in connection with Iran’s support for international terrorism. Persons falling into these two categories are identified on the SDN List with the “[IFSR]” program tag.
This document remains available on OFAC’s website only to assist persons in determining which activities were consistent with the JCPOA sanctions lifting, as in effect from January 16, 2016 through May 8, 2018. Please note that the Departments of State and of the Treasury have issued additional guidance regarding activities that may be undertaken during the wind-down periods. interests in property of all individuals and entities that meet the definition of the Government of Iran or an Iranian financial institution, regardless of whether the individual or entity has been identified by OFAC as meeting those definitions. Individuals and entities that have been previously identified by OFAC as meeting the definition of the Government of Iran or an Iranian financial institution are marked with an asterisk in Attachment 3 to Annex II of the JCPOA. Following Implementation Day, these individuals and entities continue to meet the relevant definitions and continue to be persons whose property and interests in property are blocked pursuant to E.O. 13599 and section 560.211 of the ITSR. To assist U.S. persons in meeting their primary sanctions obligations under the ITSR with respect to these persons, OFAC has made available on its website a list of persons identified as blocked solely pursuant to E.O. 13599 (E.O. 13599 List).

Please be advised that, under the ITSR, U.S. persons continue to have an obligation to block the property and interests in property of individuals and entities listed in Attachment 3 to Annex II of the JCPOA that do not have an asterisk next to their name and are not included on the E.O. 13599 List if such persons meet the definition of either the Government of Iran or an Iranian financial institution as set forth in section 560.304 or 560.324 of the ITSR, respectively.

Non-U.S. persons will not be subject to secondary sanctions for engaging in transactions with the individuals and entities listed on the E.O. 13599 List, provided that the transactions do not involve conduct described in sections VII.B-C below or individuals or entities who remain or are placed on the SDN List. See section III.A above.

For additional information on the sanctions list removals discussed in this section, please see section I of the JCPOA FAQs.

IV. Other Trade Measures

Commitment:

Pursuant to section 5 of Annex II and section 17.5 of Annex V of the JCPOA, the USG committed to license three categories of activity that would otherwise be prohibited under the

79 To the extent a person identified as meeting the definition of the term “Government of Iran” or “Iranian financial institution” is also designated pursuant to one or more other authorities in addition to E.O. 13599, that person continues to be listed on the SDN List with the “[IRAN]” identifying tag, as well as identifying tags for any other relevant sanctions program(s).

ITSR, provided that relevant transactions do not involve individuals or entities on the SDN List and are otherwise consistent with applicable U.S. laws and regulations.80

Implementation:

To fulfill these commitments, OFAC has issued: (i) a Statement of Licensing Policy (SLP) allowing for the case-by-case licensing of the export, reexport, sale, lease, or transfer to Iran of commercial passenger aircraft, spare parts and components for such aircraft, and associated services, all for exclusively commercial passenger aviation; (ii) a general license authorizing U.S.-owned or -controlled foreign entities to engage in certain activity with Iran that is consistent with the JCPOA; and (iii) a general license authorizing the importation into the United States of Iranian-origin carpets and foodstuffs, including pistachios and caviar.

A. Statement of Licensing Policy for Activities Related to the Export or Reexport to Iran of Commercial Passenger Aircraft and Related Parts and Services (SLP)

OFAC has issued a SLP, effective on Implementation Day, which establishes a favorable licensing policy regime through which U.S. persons and, where there is a nexus to U.S. jurisdiction, non-U.S. persons may request specific authorization from OFAC to engage in transactions for the (i) export, reexport, sale, lease or transfer to Iran of commercial passenger aircraft for exclusively civil aviation end use, (ii) export, reexport, sale, lease or transfer to Iran of spare parts and components for commercial passenger aircraft; and (iii) provision of associated services, including warranty, maintenance, and repair services and safety-related inspections, for all the foregoing, provided that licensed items and services are used exclusively for commercial passenger aviation.81 Any export, reexport, or transfer of U.S. export-controlled items must be consistent with U.S. legal requirements, including those under the Iran-Iraq Arms Non-Proliferation Act and section 6(j) of the Export Administration Act. In addition, exports or reexports to individuals and entities listed on the Department of Commerce’s Denied Persons List and, in some cases, the Entity List will require separate authorization from the Department of Commerce.

80 These laws include, but are not limited to, the Export Administration Act, the Federal Food, Drug, and Cosmetic Act, and the Iran-Iraq Arms Non-Proliferation Act.

81 Licenses issued under the SLP in furtherance of the U.S. commitment in section 5.1.1 of Annex II of the JCPOA will include appropriate conditions to ensure that licensed activities do not involve, and no licensed aircraft, goods, or services are re-sold or retransferred to, any person on the SDN list.
This document remains available on OFAC’s website only to assist persons in determining which activities were consistent with the JCPOA sanctions lifting, as in effect from January 16, 2016 through May 8, 2018. Please note that the Departments of State and of the Treasury have issued additional guidance regarding activities that may be undertaken during the wind-down periods. To the extent there are discrepancies between this document and guidance issued by the Department of State or the Department of the Treasury on or after May 8, 2018, the later-issued guidance should be treated as governing.

January 16, 2016

Please note that, should the United States determine that aircraft, goods, or services licensed for export, reexport, sale, lease, or transfer to Iran under the SLP have been used for purposes other than exclusively for commercial passenger aviation, or have been re-sold or re-transferred to persons on the SDN List, the United States would view this as grounds to cease performing its commitments under Section 5.1.1 of Annex II of the JCPOA in whole or in part. See section 5.1.1. of Annex II of the JCPOA.

For additional information on the SLP discussed in this subsection, please see section J of the JCPOA FAQs.

B. General License Authorizing Activities by Non-U.S. Persons that are Owned or Controlled by a U.S. Person

OFAC has issued General License H: Authorizing Certain Transactions Relating to Foreign Entities Owned or Controlled by a United States Person (GL H), effective on Implementation Day, authorizing U.S.-owned or -controlled foreign entities to engage in certain transactions involving Iran that would otherwise be prohibited by section 560.215 of the ITSR. GL H does not authorize U.S.-owned or -controlled foreign entities to engage in any transactions involving: (1) the direct or indirect exportation or reexportation of goods, technology, or services from the United States (without separate authorization from OFAC); (2) any transfer of funds to, from, or through the U.S. financial system; (3) any individual or entity on the SDN List or any activity that would be prohibited by non-Iran sanctions administered by OFAC if engaged in by a U.S. person or in the United States; (4) any individual or entity identified on the FSE List; (5) unless authorized by the U.S. Department of Commerce, activity prohibited by, or requiring a license under, part 744 of the U.S. Export Administration Regulations (EAR) or a person whose export privileges have been denied pursuant to part 764 or 766 of the EAR; (6) any military, paramilitary, intelligence, or law enforcement entity of the Government of Iran, or any officials, agents, or affiliates thereof; (7) any activity that is sanctionable under E.O. 12938 or 13382 (relating to Iran’s proliferation of weapons of mass destruction and their means of delivery, including ballistic missiles); E.O. 13224 (relating to international terrorism); E.O. 13572 or 13582 (relating to Syria); E.O. 13611 (relating to Yemen); or E.O. 13553 or 13606, or section 2 or 3 of E.O. 13628 (relating to Iran’s commission of human rights abuses against its citizens); and (8) any nuclear activity involving Iran that is subject to the procurement channel established pursuant to paragraph 16 of UNSCR 2231 (2015) and section 6 of Annex IV of the Joint Comprehensive Plan of Action of July 14, 2015 and that has not been approved through the procurement channel process.

In addition, GL H authorizes U.S. persons to engage in certain activities otherwise prohibited by the ITSR, namely, activities related to the establishment or alteration of corporate policies and

procedures to the extent necessary to allow U.S.-owned or -controlled foreign entities to engage in transactions involving Iran that are authorized under GL H, and making available to foreign entities they own or control certain automated and globally integrated business support systems. C. General License Authorizing the Importation of Iranian-Origin Carpets and Foodstuffs

OFAC has issued a regulatory amendment to the ITSR, effective upon publication in the Federal Register, to authorize the importation into the United States of Iranian-origin carpets and foodstuffs, including pistachios and caviar. This authorization covers: (i) carpets and other textile floor coverings and carpets used as wall hangings that are classified under chapter 57 or heading 9706.00.0060 of the Harmonized Tariff Schedule of the United States (HTS) and (ii) foodstuffs intended for human consumption that are classified under chapters 2-23 of the HTS. Carpets and foodstuffs authorized for importation pursuant to the general license are still subject to all other laws and regulations applicable to goods imported into the United States, including generally applicable laws and regulations administered by other departments and agencies, such as the Departments of Agriculture or Commerce, the Food and Drug Administration, or Customs and Border Protection.

In addition, under an accompanying provision, U.S. depository institutions are authorized to process letters of credit for payments for Iranian-origin carpets and foodstuffs, and U.S. persons are authorized to act as brokers for the purchase or sale of Iranian-origin carpets and foodstuffs authorized to be imported into the United States under the general license.

OFAC’s publication of this general license as an amendment to the ITSR fulfills the requirements of section 103(d)(2)(A) of CISADA. In addition, the Secretary of State’s submission to the appropriate congressional committees of a certification in writing that it is in the national interest of the United States to provide an exception to the prohibition on the importation of Iranian-

83 Items that are classified in chapters 2-23 of the HTS that are not foodstuffs intended for human consumption are not authorized for importation into the United States by this general license.
This document remains available on OFAC’s website only to assist persons in determining which activities were consistent with the JCPOA sanctions lifting, as in effect from January 16, 2016 through May 8, 2018. origin goods to the extent required to implement the sanctions relief described in section 5.1.3 of Annex II of the JCPOA and a report describing the reasons for this exception fulfills the requirements of section 103(d)(2)(B) of CISADA.

For additional information on the general license for carpets and foodstuffs, please see section L of the JCPOA FAQs.

V. Termination of Executive Orders

To effectuate the lifting of sanctions set out in sections 4.1 to 4.7 of Annex II of the JCPOA and described in section II of this Guidance, the United States committed in section 4 of Annex II and section 17.4 of Annex V of the JCPOA to terminate E.O.s 13574, 13590, 13622, and 13645, and sections 5-7 and 15 of E.O. 13628. To fulfill this commitment, on Implementation Day, the President issued an E.O. (the “Termination E.O.”) revoking the following:

(i) E.O. 13574 (providing implementation authority for certain menu-based sanctions set forth in ISA);

(ii) E.O. 13590 (providing for menu-based sanctions with respect to persons who knowingly sell, lease or provide to Iran goods, services, technology, or support that could directly and significantly contribute to the maintenance or expansion of Iran’s domestic production of petrochemical products);

(iii) E.O. 13622 (providing for: sanctions on FFIs that knowingly facilitate significant financial transactions with NIOC or NICO, or for the purchase or acquisition of petroleum, petroleum products, or petrochemical products from Iran; sanctions on persons who knowingly engage in significant transactions for the purchase or acquisition of petroleum, petroleum products, or petrochemical products from Iran; and sanctions on persons that have provided material support to NIOC, NICO, or the CBI, or for the purchase or acquisition of U.S. bank notes or precious metals by the Government of Iran);

(iv) E.O. 13645 (providing for sanctions relating to: the purchase or sale of the Iranian rial (or contracts whose value is based on the Iranian rial); significant holdings of the Iranian rial outside of Iran; Iran’s automotive sector; and persons that have provided material support to any Iranian person on the SDN List or any other person included

on the SDN List whose property and interests in property are blocked pursuant to subsection 2(a)(i) of E.O. 13645 or E.O. 13599 (other than an Iranian depository institution whose property and interests in property are blocked solely pursuant to E.O. 13599)); and

(v) Sections 5-7 and 15 of E.O. 13628 (providing for: (1) menu-based sanctions with respect to persons who knowingly, between July 1, 2010, and August 10, 2012: sold, leased, or provided to Iran goods, services, technology, information, or support that could directly and significantly facilitate the maintenance or expansion of Iran’s domestic production of refined petroleum products; sold or provided to Iran refined petroleum products; or sold, leased, or provided to Iran goods, services, technology, information, or support that could directly and significantly contribute to the enhancement of Iran’s ability to import refined petroleum products and (2) certain amendments to subsections 1(c)(iii), 1(d), and 2(b)(ii) of E.O.13622).

The Termination E.O. also continues in effect implementation provisions for aspects of certain statutory sanctions that are outside the scope of the U.S. commitment to lift nuclear-related sanctions under the JCPOA.85

Except as noted above, the Termination E.O. does not affect: (i) the national emergency declared in E.O. 12957, which shall remain in place, (ii) any E.O. issued in furtherance of that national emergency other than E.O.s 13574, 13590, 13622, 13628, and 13645, or (iii) the Iranian Assets Control Regulations, 31 C.F.R. part 535. Further, the revocation of E.O.s 13574, 13590, 13622, and 13645 and sections 5-7 and 15 of E.O. 13628 will not affect any enforcement action pending

85 These provisions relate to the implementation of certain statutory authorities that are outside the scope of U.S. commitments with respect to sanctions described in sections 4.1 to 4.8 and 5 of Annex II and sections 17.1 to 17.3 and 17.5 of Annex V of the JCPOA. Specifically, they provide for the implementation of aspects of the following sections of IFCA that are outside the scope of the U.S. commitments: 1244(c)(1)(A), 1244(d)(1)(A), 1245(a)(1), and 1246(a). The implementing provisions related to section 1244(c)(1)(A) only apply to the extent sanctions are imposed with respect to transactions or activities that are outside the scope of the JCPOA, specifically, providing significant financial, material, technological, or other support to, or goods and services in support of any activity or transaction on behalf of or for the benefit of persons described in section 1244(c)(2)(C)(iii) of IFCA (i.e., Iranian persons on the SDN List). The implementing provisions related to sections 1244(d)(1)(A), 1245(a)(1), and 1246(a) of IFCA only apply to the extent sanctions are imposed with respect to transactions or activities that are outside the scope of the JCPOA, as reflected in waiver determinations as to those sections issued by the Secretary of State to give effect to sanctions commitments described in sections 17.1 to 17.3 and 17.5 of Annex V of the JCPOA (including any transactions or activities involving persons on the SDN List), and any renewals thereof. The implementing provisions related to section 1249 of IFCA only apply to the extent sanctions are imposed with respect to transactions or activities that are described in that section of IFCA, which are outside the scope of the JCPOA.
This document remains available on OFAC’s website only to assist persons in determining which activities were consistent with the JCPOA sanctions lifting, as in effect from January 16, 2016 through May 8, 2018. or taken prior to the effective date of the Termination E.O., or any action or proceeding based on any act committed prior to the date of the Termination E.O.86

VI. Waivers

Commitment:

Pursuant to the U.S. commitment in section 11 of Annex V of the JCPOA, on Adoption Day, the Secretary of State issued waiver determinations and made findings with respect to certain statutory sanctions provisions set out in section 4 of Annex II of the JCPOA.87 By their terms, these waivers and findings were contingent in nature; they only took effect upon confirmation by the Secretary of State that Iran had implemented the nuclear-related measures specified in sections 15.1 to 15.11 of Annex V of the JCPOA, as verified by the IAEA (i.e., upon Implementation Day).88

86 The pending enforcement actions referenced herein are independent of actions to impose sanctions under the terminated E.O.s, such as designation or identification actions that result in the blocking of a person’s property or interests in property. To the extent an ongoing investigation of a non-U.S. person relates to activity within the scope of the secondary sanctions lifted on Implementation Day, including sanctions imposed pursuant to the terminated E.O.s, the U.S. government will not sanction the non-U.S. persons under those authorities following Implementation Day. The enforcement actions referenced herein relate to apparent violations of the prohibitions set out in the terminated E.O.s and relevant implementing regulations, and may result in civil or criminal penalties for the apparent violator. On Implementation Day, the prohibitions under the relevant E.O.s were terminated, which means that there would be no new violations arising from the prohibitions under these E.O.s after Implementation Day. To the extent there are investigations of apparent violations that relate to activities that occurred prior to Implementation Day, such apparent violations will be analyzed in light of the laws and regulations that were in place at the time of the underlying activities, consistent with U.S. law and longstanding practice. As with all OFAC enforcement actions, any response to an apparent violation under the terminated E.O.s that relates to activities occurring prior to Implementation Day will be analyzed and acted upon consistent with the framework established in OFAC’s Economic Sanctions Enforcement Guidelines. See Appendix A to 31 C.F.R. part 501. The framework set out in the Economic Sanctions Enforcement Guidelines provides for the consideration of a series of general factors in determining an appropriate enforcement response to an apparent violation.

88 Pursuant to the relevant statutes, several of the waiver determinations and findings are in effect for a specified duration (generally 120 or 180 days). To keep in effect U.S. commitments with respect to sanctions set out in sections 17.1 to 17.3 and 17.5 of Annex V of the JCPOA, the Secretary of State will renew waiver determinations and findings, as necessary, and expects to publish notice of such renewals in the Federal Register.
This document remains available on OFAC’s website only to assist persons in determining which activities were consistent with the JCPOA sanctions lifting, as in effect from January 16, 2016 through May 8, 2018. Please note that the Departments of State and of the Treasury have issued additional guidance regarding activities that may be undertaken during the wind-down periods. To the extent there are discrepancies between this document and guidance issued by the Department of State or the Department of the Treasury on or after May 8, 2018, the later-issued guidance should be treated as governing.

January 16, 2016

These waivers and findings, effective on January 16, 2016, waive the imposition of sanctions under specified provisions of NDAA 2012 and IFCA and find it is vital to the national security interests of the United States to issue waivers regarding the application of sanctions under specified provisions of ISA and the TRA, all with respect to certain transactions and activities by non-U.S. persons involving Iran, as set forth in section 4 of Annex II of the JCPOA and described in section II above. In addition, the waiver determination under sections 1244(c)(1) and 1246(a) of IFCA waives the imposition of sanctions with respect to transactions by U.S. persons for the export, reexport, sale, lease, or transfer of commercial passenger aircraft and related parts and services to Iran exclusively for commercial passenger aviation as set forth in section 5.1.1 of the JCPOA, provided that OFAC has issued any required licenses.

Implementation:

To implement the U.S. commitments with respect to sanctions described in sections 17.1 to 17.3 and 17.5 of Annex V of the JCPOA, effective Implementation Day, the USG is waiving the (i) sanctions under IFCA and NDAA 2012 and (ii) application of sanctions under TRA and ISA, to the extent necessary to implement the JCPOA and excluding any transactions involving persons on OFAC’s SDN List:

A. IFCA

1. Section 1244(c)(1) – to the extent required for transactions by non-U.S. persons (and, in the case of commercial passenger aviation activities described in section IV.A above, U.S. persons, provided that OFAC has issued any required licenses) on behalf of, or for the benefit of: (i) a person determined to be part of the energy, shipping, or shipbuilding sectors of Iran, (ii) a person determined to operate a port in Iran; or (iii) Iranian individuals and entities set forth in Attachment 3 to Annex II of the JCPOA.90

89 For purposes of the waivers and findings issued on Adoption Day and renewed as necessary, the term “transactions by non-U.S. persons” includes transactions by U.S.-owned or -controlled foreign entities to the extent U.S.-owned or -controlled foreign entities are authorized by OFAC to engage in such transactions, including pursuant to the general license described in section IV.B above.

90 On Implementation Day, the Secretary of State waived the imposition of sanctions under section 1244(c)(1) of IFCA on persons previously determined to meet the criteria set forth in section 1244(c)(2)(A) of IFCA. See supra note 88.

6. *Section 1245(a)(1)(C)* – to the extent required for transactions by non-U.S. persons for the sale, supply, or transfer to or from Iran of materials described in section 1245(d) of IFCA (graphite, raw or semi-finished metals such as aluminum and steel, coal, and software for integrating industrial processes) if the material is (i) to be used in connection with the energy, shipping, or shipbuilding sectors of Iran, or resold, retransferred, or otherwise supplied to an end user in one or more such sectors; (ii) sold, supplied, or transferred to any individual or entity blocked solely pursuant to E.O. 13599, or resold, retransferred, or otherwise supplied to such an individual or entity; or (iii) determined pursuant to section 1245(e)(3) of IFCA to be used as described in that section, or resold, retransferred, or otherwise supplied for use in the nuclear program of Iran, provided that the transactions do not involve:

\(^9^1\) On Implementation Day, the Secretary of State waived the imposition of sanctions under section 1244(d)(1) of IFCA on a person previously determined to meet the criteria set forth in that section. *See supra* note 88.

\(^9^2\) Pursuant to section 1245(e)(1) of IFCA, the President is required to report to Congress whether Iran is using any of the materials described in section 1245(d) of IFCA as assets of the Government of Iran for purposes of the national balance sheet of Iran. The responsibility for this report has been delegated to the Secretary of State. The report is published in the *Federal Register*. To date, there has been no determination that the GOI is using any of the materials described in section 1245(d) of IFCA in this manner, but persons should continue referring to any updated reports issued pursuant to section 1245(e)(1) of IFCA.

93 Pursuant to section 1245(e)(1) of IFCA, the President is required to report to Congress whether Iran is using any of the materials described in section 1245(d) of IFCA in connection with the nuclear, military, or ballistic missile programs of Iran. The responsibility for this report has been delegated to the Secretary of State. The report is published in the Federal Register.
This document remains available on OFAC’s website only to assist persons in determining which activities were consistent with the JCPOA sanctions lifting, as in effect from January 16, 2016 through May 8, 2018. Please note that the Departments of State and of the Treasury have issued additional guidance regarding activities that may be undertaken during the wind-down periods. 13. Section 1247(a) – to the extent required for FFIs to facilitate transactions on behalf of Iranian individuals and entities set forth in Attachment 3 to Annex II of the JCPOA;

B. NDAA 2012

1. Section 1245(d)(1) – to the extent necessary to implement the JCPOA, including for FFIs to conduct or facilitate transactions with the CBI covered by the U.S. commitments with respect to sanctions described in sections 17.1 to 17.2 of Annex V of the JCPOA;94

1. 94 See supra note 11.

95 The waiver provision under section 4(c) of ISA, which is invoked by sections 212(d) and 213(b) of the TRA, as well as section 5(a) of ISA, refers to waiving as to a “national of a country.” As a result, the waiver determinations and findings issued by the Secretary of State on Adoption Day use the term “non-U.S. nationals” in connection with sections 212(a) and 213(a) of the TRA and section 5(a) of ISA. For purposes of implementing U.S. commitments under the JCPOA with respect to these sections of the TRA, the term “non-U.S. nationals” has the same meaning as “non-U.S. persons.” Therefore, this guidance uses the term “non-U.S. persons” in describing the relevant waivers.
This document remains available on OFAC’s website only to assist persons in determining which activities were consistent with the JCPOA sanctions lifting, as in effect from January 16, 2016 through May 8, 2018. Please note that the Departments of State and of the Treasury have issued additional guidance regarding activities that may be undertaken during the wind-down periods. To the extent there are discrepancies between this document and guidance issued by the Department of State or the Department of the Treasury on or after May 8, 2018, the later-issued guidance should be treated as governing.

D. ISA

1. *ISA section 5(a)* – to the extent required for transactions by non-U.S. persons related to: (i) the development of petroleum resources of Iran; (ii) the production of refined petroleum products in Iran; (iii) the exportation of refined petroleum products to Iran; (iv) joint ventures with Iran relating to the development of petroleum resources outside of Iran; (v) support for the development of petroleum resources and refined petroleum products in Iran; (vi) the development and purchase of petrochemical products from Iran; (vii) the transportation of crude oil from Iran; or (viii) the ownership, operation, or control of a vessel used in a manner that conceals the Iranian origin of crude oil or refined petroleum products transported on the vessel, in cases where the transactions are for activities described in sections 4.2.1, 4.3.1, 4.3.2, 4.3.4, and 4.3.6 of Annex II of the JCPOA.

VII. **Key U.S. Legal Authorities That Remain in Place After Implementation Day**

A number of U.S. legal authorities that are outside the scope of the JCPOA and are directed toward, or have been used to address, U.S. concerns with respect to, Iran remain in place after Implementation Day. A non-exhaustive list of such authorities is set out below:

A. Trade Sanctions

1. *Trade Embargo*; The U.S. domestic trade embargo imposed on Iran under the national emergency declared in E.O. 12957, as implemented through the ITSR, also referred to as U.S. primary sanctions, remains in place following Implementation Day. Pursuant to the ITSR and with limited exceptions,96 U.S. persons, as defined in section 560.314 of the ITSR, continue to be broadly prohibited from engaging in transactions or dealings directly or indirectly with Iran or its government. In addition, non-U.S. persons continue to be prohibited from knowingly engaging in conduct that seeks to evade U.S. restrictions on transactions or dealings with Iran or that causes the export of goods or services from the United States to Iran.

---

96 These exceptions include the three categories of activity the United States has committed to license pursuant to section 5 of Annex II of the JCPOA, as well as activities that are exempt from regulation or authorized under the ITSR. *See* section IV above and sections J, K, and L of the *JCPOA FAQs* for further details.
Please note that, under the ITSR, the clearing of transactions involving Iran through the U.S. financial system, including foreign branches of U.S. financial institutions continues to be prohibited.

2. Export Controls: U.S. controls on the exportation or reexportation of goods, technology, and services to Iran imposed pursuant to the ITSR, including sections 560.204 and 560.205, as well as the Export Administration Regulations, 15 C.F.R. parts 730-774 (EAR), and the International Traffic in Arms Regulations, 22 CFR parts 120-130 (ITAR), remain in place. Pursuant to these authorities and unless exempt from regulation or authorized under the relevant regulations, the exportation or reexportation by a U.S. person or from the United States to Iran or the Government of Iran, as well as the reexportation by non-U.S. persons of items that contain 10 percent or more U.S.-controlled content with knowledge or reason to know that the reexportation is intended specifically to Iran or the Government of Iran, generally requires a license.

B. Designation Authorities and Blocking Sanctions

In addition, the United States retains a number of authorities that are directed toward, or have been used to address, U.S. concerns with respect to Iran. Generally, these authorities provide for the imposition of blocking sanctions on persons meeting certain criteria or engaging in specified conduct, as well as their support networks.

Designation authorities:

The activities targeted by these authorities include:

1. Support for terrorism: E.O. 13224 (blocking property and prohibiting transactions with persons who commit, threaten to commit, or support terrorism);

2. Iran’s human rights abuses:

4. Support for persons involved in human rights abuses in Syria or for the Government of Syria: E.O.s 13572 and 13582;

5. Support for persons threatening the peace, security, or stability of Yemen: E.O. 13611;

6. Transactions or activities described in section 1244(c)(1)(A) of IFCA if the transaction involves any person on the SDN list (other than an Iranian financial institution whose property and interests in property are blocked solely pursuant to E.O. 13599): Section 1244(c)(1) of IFCA;

7. Diversion of goods intended for the people of Iran: CISADA 105C, as added by section 1249 of IFCA (relating to the diversion of goods, including agricultural commodities, food, medicine, and medical devices, intended for the people of Iran, or the misappropriation of proceeds from the sale or resale of such goods);

8. Knowingly and directly providing specialized financial messaging services to, or knowingly enabling or facilitating direct or indirect access to such messaging services for a financial, institution whose property or interests in property are blocked in connection with Iran's proliferation of WMD or their means of delivery, or Iran's support for international terrorism: Section 220 of the TRA; \(^\text{97}\)

9. Officials, agents, and affiliates of the IRGC: Section 301 of the TRA \(^\text{98}\) (providing for the designation of officials, agents, or affiliates of the IRGC); and

\(^\text{97}\) The United States has committed not to apply the sanctions under section 220 of the TRA with respect to the CBI or any financial institution listed in Attachment 3 to Annex II of the JCPOA.

\(^\text{98}\) Section 302(b)(2) of the TRA further provides for discretionary blocking of persons determined to meet the criteria set out in section 302(a). See section VII.D.1 below.
This document remains available on OFAC’s website only to assist persons in determining which activities were consistent with the JCPOA sanctions lifting, as in effect from January 16, 2016 through May 8, 2018. Please note that the Departments of State and of the Treasury have issued additional guidance regarding activities that may be undertaken during the wind-down periods. To the extent there are discrepancies between this document and guidance issued by the Department of State or the Department of the Treasury on or after May 8, 2018, the later-issued guidance should be treated as governing.

U.S. sanctions with respect to Iran or Syria (including sanctions imposed under counter-proliferation or counter-terrorism authorities); or (ii) facilitated deceptive transactions for or on behalf of any person subject to U.S. sanctions concerning Iran or Syria). 99

**Blocking authorities:**

2. *Islamic Republic of Iran Broadcasting and its president under section 105(c) of CISADA*: Section 1248 of IFCA.

**C. Correspondent and Payable-through Account Sanctions**

After Implementation Day, FFIs may be subject to correspondent or payable-through account secondary sanctions for:

1. Knowingly facilitating a significant financial transaction with designated Iranian financial institutions that remain or are placed on the SDN List (section 1245(d) of NDAA 2012);

2. Knowingly facilitating a significant financial transaction on behalf of any Iranian persons that remain or are placed on the SDN List (section 1247(a) of IFCA);

3. Knowingly facilitating a significant financial transaction or providing significant financial services for any other person on the SDN List with the “[IFSR]” identifying tag (i.e., the Islamic Revolutionary Guard Corps (IRGC) and any of its designated officials, agents, or affiliates; individuals and entities designated pursuant to E.O. 13382 in connection with Iran’s proliferation of WMD or their means of delivery; and individuals and entities designated pursuant to E.O. 13224 in connection with Iran’s support for international terrorism) (section 104(c)(2)(E) of CISADA);

99 E.O. 13608 is not a blocking authority. However, U.S. persons are prohibited from engaging in transactions or dealings with persons sanctioned under this authority.
This document remains available on OFAC’s website only to assist persons in determining which activities were consistent with the JCPOA sanctions lifting, as in effect from January 16, 2016 through May 8, 2018. Please note that the Departments of State and of the Treasury have issued additional guidance regarding activities that may be undertaken during the wind-down periods. To the extent there are discrepancies between this document and guidance issued by the Department of State or the Department of the Treasury on or after May 8, 2018, the later-issued guidance should be treated as governing.

January 16, 2016

4. Knowingly facilitating a significant financial transaction for the sale, supply, or transfer to or from Iran of significant goods and services used in connection with the energy, shipping, or shipbuilding sectors of Iran where the transactions involve persons who remain or are placed on the SDN List (section 1244(d)(2) of IFCA); or

5. Knowingly conducting or facilitating a significant financial transaction for the sale, supply, or transfer to or from Iran of graphite, raw or semi-finished metals such as aluminum and steel, coal, and software for integrating industrial processes that have been determined pursuant to section 1245(e)(3) of IFCA to be used as described in that section if the transactions involve (i) persons on the SDN List; (ii) the sale, supply, or transfer of materials described in section 1245(d) of IFCA that have not been approved by the procurement channel established pursuant to paragraph 16 of UNSCR 2231 and section 6 of Annex IV of the JCPOA, in cases in which the procurement channel applies; or (iii) the sale, supply, or transfer of materials described in section 1245(d) of IFCA if the material is sold, supplied, or transferred, or resold, retransferred, or otherwise supplied directly or indirectly, for use in connection with the military or ballistic missile program of Iran (section 1245(c) of IFCA).

D. Menu-based Sanctions

After Implementation Day, menu-based secondary sanctions continue to attach to:

1. Persons who materially assist, sponsor, or provide financial, material, or technological support for, or goods or services in support of: the IRGC or any of its officials, agents, or affiliates blocked pursuant to IEEPA; persons that engage in significant transactions with (i) any of the foregoing or (ii) persons subject to financial sanctions pursuant to the UNSCRs that impose sanctions with respect to Iran, or a person acting for or on behalf of, or owned or controlled by, such person (section 302(a) of the TRA);

2. Non-U.S. persons who engage in transactions or activities described in sections 1244(d)(1) and 1246(a) of IFCA if the transactions involve persons on the SDN List; and

3. Non-U.S. persons who sell, supply, or transfer directly or indirectly to or from Iran graphite, raw or semi-finished metals such as aluminum and steel, coal, and software for integrating industrial processes that have been determined pursuant
to section 1245(e)(3) of IFCA to be used as described in that section if the transactions involve (i) persons on the SDN List; (ii) the sale, supply, or transfer of materials described in section 1245(d) of IFCA that have not been approved by the procurement channel established pursuant to paragraph 16 of UNSCR 2231 and section 6 of Annex IV of the JCPOA, in cases in which the procurement channel applies; or (iii) the sale, supply, or transfer of materials described in section 1245(d) of IFCA if the material is sold, supplied, or transferred, or resold, retransferred, or otherwise supplied directly or indirectly, for use in connection with the military or ballistic missile program of Iran (section 1245(a) of IFCA).

E. Non-Proliferation Sanctions

On Transition Day, the United States will seek such legislative action as may be appropriate to terminate, or modify to effectuate the termination of, the nuclear proliferation-related statutory sanctions set forth in paragraph 4.9 of Annex II of the JCPOA, including sanctions under the Iran, North Korea and Syria Nonproliferation Act on the acquisition of nuclear-related commodities and services for nuclear activities contemplated in the JCPOA, to be consistent with the U.S. approach to other non-nuclear weapon states under the Treaty on the Non-Proliferation of Nuclear Weapons. The JCPOA does not address the application of a number of generally-applicable non-proliferation statutes related to transfers of proliferation-sensitive equipment and technology, or statutes that provide for sanctions for activities that would be outside the scope of the JCPOA.

F. Terrorism List Sanctions

Iran remains designated as a state sponsor of terrorism under relevant laws (section 6(j) of the Export Administration Act; section 40 of the Arms Export Control Act; and section 620A of the Foreign Assistance Act), and the JCPOA does not alter that designation. A number of different sanctions laws and restrictions are keyed to this designation, including restrictions on foreign assistance (22 U.S.C. § 2371), a ban on defense exports and sales (22 U.S.C. § 2780), controls on exports of certain sensitive technology and dual-use items (50 U.S.C. App. § 2405), and various financial and other restrictions.
